## Kissing the Werewolf Kendra Ashe

**What do you get when you mix a vampire hunter, who happens to be an FBI Agent and my boss, add a fallen angel, that's me, and a genius criminal profiler with secrets?**

You get the Monster Squad! We hunt monsters and other whatnots.

Add to the mix an extra hot alpha wolf, a mysterious town with a serial killer on the loose, and you have total mayhem.

I'm Izzy Cooper and I'm sporting a pair of black wings. To earn redemption, I had to return to my life as a fallen angel, and work tirelessly to bring down bad guys.

It's a good thing I have some help in the form of my guardian demon, who happens to be as hot as he is devious.

But that isn't the only guy problem I have to deal with.

I have a new job with the Atypical Crimes Management Unit of the FBI, which happens to be based in my hometown of Storm Cove.

Returning to Storm Cove means facing Elias Moreland, who just happens to be my high school crush, and the sexiest guy I've ever met. Too bad he's also a werewolf.

Saving my soul, while protecting my heart from an extra hot werewolf isn't easy, when being wicked is a natural element of my nature.

**WARNING:** Izzy Cooper is a nice girl, but she can also be an opinionated bitch from Hell. After all, she is a fallen angel. On occasion, she likes to play with hot guys who have hotter than hell bodies. This story is not for the faint of heart, or those easily offended by sarcasm, dark mystery, and hot romance. You have been warned.

## **?Rachael?** says

Well I really liked Izzy! And they are short!!

---

## **Joy** says

The premise is interesting but I feel like the author was trying to cram too many things into this book and in a short amount of time. I do plan on reading the next book on the list but as of right now to see if things improve.

My main problem right now is the whole premise of the MC being threatened with "hell time." It's just so unbelievable that she'd be sent to hell at 24 years old for solely being snarky and refusing to use her "gifts." Especially as from how the author portrays the MC, she actually comes off as a decent person who is capable of caring for others (and does). Having a "naughty" side doesn't explain this whole threat of hell either. I mean, seriously. Doesn't make sense and from reviews I peaked at in the following 4 books - it has yet to really be explained.

My only theory on this is...  
(view spoiler)

## **Annabelle Morehouse** says

The potential in this book is staggering, unfortunately it reads like a first draft or a great story outline. It is not fleshed out, the characters and feelings, descriptions all felt incomplete. The love scene awful though the emotion and will for the story and characters was there. I hope this author will keep writing and add to this story. Sadly I will not buy the second book even though I would like to know what happens. If in the future this book gets a makeover than I will gladly pick it back up and continue in its journey.

### **Good Story**

The story is good, characters are interesting and well thought out but it needs a good editing. That's why I

give it four stars. Izzy is sassy and fun with unique circumstances that have complicated some areas of her life while un-complicating others. A new job and back home after she's hit by a truck and suckered into making a deal that lets her live, sort of... The way the story reads I'm thinking there's more to the story and Izzy's being taken for a ride. Funny and interesting read. Just needs a polish.

---

### **Christine says**

That cover made me do it. But I can't.

I stopped reading at 30%, it was the time to ask myself what I like about the book. I draw a blank,

I started the book out of boredom because I wanted something with Werewolves.

Werewolves check

The characters are bland, I don't care about a single one not even Izzy or eye roll her hot boss or the first kiss guy from high school Eli... There's a lot of inner monologue of Izzy I don't like blabla characters at all. It's filling the pages but nothing else

There are a few different species (demon, werewolf, seer of ghosts), but again nothing that kept my interest,

The MC can see ghosts, she's a Special Agent who died and came back to life when she made a deal with Death, that caught my eye but it did not get invested enough to continue.

#### **Quirky and entertaining**

Izzy is definitely a different kind of female lead with an interesting story. She dies and is sent back as a fallen angel in order to try to redeem her soul. In the meantime, she works for the fbi solving supernatural crimes and trying not to drool over he crush, Elias.

---

### **Erinw says**

This had interesting characters with an attention holding plot. I didn't find the romance believable and the sex scene was weird (not in a good way!). The characters could use more depth, but I am interested to see how the story continues in the next book.

---

## **Alex says**

Who wouldn't want to be wicked? So she died and made a deal to come back and maybe she was a bit bad in life, but still Izzy is one awesome character. As a whole some of her philosophy seems to be true, then again people even in life bend or break the rules it's part of being human. Either way I like the quirky cast of characters and the hilarity of her trying to earn redemption for her actions.

---

## **~JustMel~ says**

This was actually a really, really good book. I only gave it 4 stars because of the editing (holy question marks Batman!), or lack thereof, and the fact that the resolution of the mystery seemed a bit anticlimactic. This may have been the author's intention, but it felt a little flat to me.

I do like Izzy though. She is a feisty, funny, no-nonsense type of chick. She had me cracking up. I'm eager to see what'll transpire between her and Julius since I get the feeling he's got the hots for her. And what'll happen with her and Elias? (Ménage anyone?? Lol) I feel like she's going to end up having to choose at some point, but if I were her, I'd keep them both! (Selfish yes, but I don't care! Lol) AND I can't wait to see how she deals with Jasper (I've got some words for him myself, but I don't want to offend you ladies).

Anyway, there's sooo many questions left to be answered even though this story is a standalone. There are so many doors left to open and I intend to open them all (author permitting of course) :)

### **What a story**

I was, at first, a bit tired of all of the 225 page books coming out lately by even my fave authors but this story was longer and had a real difference, a great difference about it. It was truly funny yet serious, I loved it. This was my first time reading Kendra and I will be buying all her books.

---

## **Christine says**

Kendra Ashe...The next Charlaine Harris?

Author Kendra Ashe writes a compelling mystery with plenty of supernaturals, intrigue, humor and last but not least snark from my new favorite heroine. With Harris's Southern Vampire Mysteries coming to an end many have been searching for a replacement, let me tell you, it's here! This may only be the first book in the series but it is off to an amazing start. While the heroine Izzy solve one mystery, the plot opens up for so many more to come in facing the unknown big bad. Take a chance and explore Mystic Island with all its strange inhabitants; humans, witches, vampires, fallen angels, demons, werewolves, zombies and many more you won't regret it!

---

## **Christi says**

### **Great Read!**

I enjoyed this book so much that I didn't want it to end! I had to pace myself to keep from finishing too quickly. Izzy is a fun main character that is all too real. The movie monsters were a nice touch. I don't like books with cliffhanger endings or this would have been a 5 star review. If you don't mind having to buy the series to see what happens this is a great read.

## **Marsha Spohn says**

First reviewed at Haunted Bookshelf

Kissing The Werewolf was such a hilarious, snarky joyride for me. Izzy is a natural born witch who gets herself killed in, let's be honest here, the stupidest fashion. Given a chance to return to life... a life slightly altered is the premise of the Izzy Cooper stories.

Izzy is a badass, she's also full of sarcasm and snark and I absolutely adored her. Izzy gets herself assigned to an FBI secret agency (can we hum the X-Files theme here?) of paranormal investigators with power. And just about everyone in the small island town of Storm Cove has some supernatural ability or connection.

When grizzly murders begin to happen, and many of the witches on the island begin to lose their powers Izzy and her unit step in to investigate. What they find is actually even more questions than answers.

And we are off on an amazing journey with Izzy in the lead in this truly fun and captivating start to the Izzy Cooper stories. I won't spoil your fun of discovery by giving away much. Except to say... if you love monsters, if your favorite pastime is late night horror movie reruns – the classics, then you will absolutely love Kissing The Werewolf.

I returned this one to my Kindle Unlimited account and immediately downloaded the next story – which I can't wait to get started on. This is Paranormal Romance with a laugh track and total snark.

## **Deborah Yunevich says**

### **This is one of my new faves**

What happens when you die and choose to come back to earn your redemption? You join the FBI's paranormal unit in your hometown. A witch grandmother, a warlock uncle and a growing relationship with a werewolf, Izzy has her hands full. Mystique Island is becoming a hot bed of paranormal activity and I can't wait to read more.

---

**Caren says**

Funny. Better than I expected. Perfect Halloween read.
