## Mujeres alteradas 1 Maitena

El diccionario dice que alterar es cambiar, y la verdad es que las mujeres han cambiado un montón en estos últimos años. Pero faltaba alguien que describiera tantos vaivenes, que viera el mundo con ojos de mujer, que hablara del miedo y del valor que todas llevamos pegados a la piel. Y aquí está: la gran Maitena ha usado su talento y sus dotes de observación para contar unas historias que ayudan a hombres y mujeres a conocerse mejor y a reírse de las desventuras de cada día. Gracias a su sentido del humor y a su ironía, descubrimos que hay otra manera de mirar el lado oscuro e la vida.

## From Reader Review **Mujeres alteradas 1** for online ebook

### **Ana Fernández says**

Con un toque de humor justo, hacia la realidad y los estereotipos. Muy bueno.

Este livro foi-me oferecido no Natal. Li-o numa tarde. É uma banda desenhada sobre vários temas que chateiam as mulheres. Uma leitura bastante cómica!

One of the rare books where if I had to rate the 1-star rating I gave it I would give it 5-stars.

On Sunday, January 15, 2006 I wrote about this book: (I had received this as a surprise from a book online friend)

Well this is the funniest rabck I have ever received.  
And a total surprise. I love it! Thank you so much morsie.  
Both women on the cover show typical Marlene moods.:)  
So yes very appropriate. :)

I could not resist reading the first one, even though I was enjoying the book I was reading but it is really laughing out loud material. Great drawings and you recognize so much in the comics of Maitena.  
Rowena will enjoy them as well. Thank you. Hugs

Update: Well I read this book in 1 hour and had so much fun. Thank you Morsie. Daughter also liked them.(She was the first to read both!)

it was ok, most of the comics were very stereotyped and not very relatable, but some of them were kinda funny.

All women... unite! Young, old, skinny, overweight, Europeans, Indians, we are the same. If you were asked to make a list of what you'd do when you're depressed, it'd be most likely similar to what Maitena's. She also drew up cartoons for every topic she wrote. Hilarious book with great cartoon for all women who are not necessarily have to be on the edge to read this.

### **Eri says**

Humor gráfico desde el punto de vista femenino, como todos los de Maitena para echarse unas risas de una misma.

It's weird because when I was a child I saw these books at the bookstore and was so excited to read. And now I finally have the age to understand and read it, and it sucks...  
Maitena's comics are about stereotypes, and of course, even though she mentions sexist acts, the problematic is how the world perceives straight relationships.

See my note on it in my blog:

This book is entertaining although I should say reading it almost two decades after it was published, it is now a little dated.

Mainly based on stereotypes it finds humor in all these situations women experience. Yes, I know that not all women live the same way but I could find at least a couple of relatable situations.
