### **Rhonda says**

Great story on dealing with grief, but not in a preachy manner. Rather how the characters worked through their own unique grief, with a good story to go with it.

### **Janie Holley says**

This was the first book I have read by this author. I did not enjoy the story in fact I did not even finish.

---

### **Shelley Shrader says**

Very slow-moving. This book failed to keep my interest.

---

### **Susan says**

This a beautiful book about loss and love, small-town life, and second chances. I highly recommend it to those who have not yet read it (2001).

---

### **Tina says**

Slow reading and I didn't feel the intimacy between Colin and March. There was not enough written in how they grew together as a couple. I wasn't crazy about March. There were some funny moments but overall she was a bit of a downer and annoying.

I will have to read another book by this author as I was not real thrilled about this one. It's the story of a woman who loses her husband and she's not sure if it was an accident or if he took his own life. She has a 10 yr. old son and a father who is a minister on the way to retiring. There is a love interest and I just didn't feel like the story ever jelled.

### **Judie says**

For me, this book was only okay. It took a long time to get into the story, and then I didn't ever really grab

hold of it.

---

### **Rachel says**

Ok read...took me a long time to get through.

---

### **Lynnea says**

This had the potential to be a very good book - good ideas but very scattered. It seemed like it was still in the editing stages - even numerous typos throughout.

---

### **Linda Schmelzer says**

Really enjoyed this one even though it was a bit predictable

---

### **Helen says**

Very Slow.

---

### **Micki says**

I almost quit this book half way though. The ending picked up a little, but I would not recommend as a good read.

---

### **Lyndi says**

strange how the last two books I have read the two main characters have both lost their spouse and the grief that goes along with it. I thought the author did a great job of portraying the pain without it being the main focus of the book. This is my first book by this author and I will read more. My version of this book was three books in one, The Pearl by Angela Hunt and Stranded in Paradise by Lori Copeland.

### **Gayle says**

Patricia Hickman has a gift at turning phrases. She uses metaphors that capture your imagination. Unfortunately, they're used to excess and I found myself feeling as if I was drowning in them. This story of a widow who has a ten-year old son fell short of the Women of Faith's series standards, in my opinion. It is an

interesting story and has some very worthwhile spiritual applications but left me disappointed overall.

### **Adriana says**

Sandpebbles is described as "women of faith fiction." It's a book about love and life after loss. I really enjoyed going through a journey of self-discovery with several of the characters. :)
