Tainted Heartbreak

Terri Anne Browning

Tainted Heartbreak Terri Anne Browning

How do you say no when your roommate wins an all-inclusive rock experience and begs you to go along?

You don't.

Ever.

But Amara was starting to see that maybe she should have.

Everything that could have possibly gone wrong, has. Until I run right into what feels like a brick wall.

Of course, the brick wall has a name, too.

Cash Graves.

I knew the name, even if it was a newer one to the rock world. He's the bassist for Tainted Knights, the band who was making huge splashes in the music world. Their newest hit was all over the radio and currently on repeat on my playlist ... and I just spit my margarita all over him.

With a wink and a smile, he should have gotten on stage and let me go on with my life, if a little star struck over the delicious rocker. He should never have looked back, and I shouldn't have begged for more.

But I did.

And now, my heartbreak might just be the end of me.

Evan says

Great read.

I've been reading this author for a while now and I can't put her books down! One of my pet peeves with books in a series is the authors continuity. Often there will be 3 or more books and somehow the author can't keep details straight. But Terri has kept all of her character straight and even with all the overlapping storylines she has yet to mess up...as far as I can tell. I was excited about this book and it did not disappoint! And now the wait begins for Sin's story!!!

Mrs K Bartholmew says

What would you do for love?

So Terri pulled another masterpiece from that lovely brain of hers. As with all of her books the characters are engaging and well written. I really want a Cash (don't tell my hubby!)

When Cupid strikes one of the Tainted Knights there is immediate submission and no come back and Cash is no exception when a beautiful woman quite literally crashes into his life.

Amara is struggling to strike out on her own. She feels stifled and goes to a music concert with her bestie to blow off some steam. There she is introduced to her idol Emmie Armstrong and some of the band's she manages. From there her life becomes a rollercoaster she was not prepared for.

A fab read and great to get snippets of all out favourite other rockers.

Plus the glimpses of Kin and Jaces drama had me so excited for their next book. eek!!

Melanie Griffith says

Loved it!!

I just have to start by saying I love this series following the guys of TK. That being said, I also loved being able to catch a glimpse into the lives of the Demons as well. Tainted Heartbreak definitely surprised me a couple of times with some twists that I did not see coming, and that does not happen a lot. I don't want to give anything away, but I will say that I am already waiting for the next book in this series!

Hopefully the next one resolves the issues and answers all of my questions about Jace & Kin!!!

Amanda Brown says

Love this series, but...

For some reason this particular book didn't resonate in the way the rest of the series did. I enjoy the characters and the story behind it all but it seemed a bit more rushed in the beginning than the rest of the series is. Maybe it was designed this way but it just didn't seem to fit as well with the mold Terri has going for this group of rockers. However the ending was perfectly fit for the storyline and I swear I am gonna keep going until I know what the heck Jace and Kin are up to!!!

Neringa Neringiukas says

Okay, I took my time to pick this book, while normally I read Terri's books insta. Honestly, I'm not sure why. Okay, that's a lie. Because its Tainted Knights series, I knew, I will see more bullshit from Jace and I just couldn't without wanted to slap something. Lol. Though, I was surprised by that I liked what happened between him and Kin. Well, not like like but like, if you know what I mean. Probably, you don't, because no spoilers.

Anyway, too much attention to that couple, when its Amara and Cash spotlight. I liked those two. Loved theirs insta everything. It fit and didn't bothered me at all. Though, I have to say I guessed about 'fuck up moment'. And I just wanted to slap that person for being so stupid. Seriously!

It was great story and I'm looking forward for next book.

Taylor Freeman says

3.5 -4 stars.

Love how they immediately get the main characters together. There are no games. We know they want to be with each other. It's always a relief when you don't want to punch any of the main characters in the face. Brin on Sin and his shy girl Roanna.

Karen says

Cash and Amara are pretty insta love and I was ok with it. You just knew they'd have some growing to do after lighting up the sheets. I nearly quit the book when Cash treated Linsey like dirt and by extension, treated Amara wrong. Lindsay was her friend and had been excited about her love interest "Harden". She wasn't perfect but she didn't deserve Cash's treatment. Left a bad taste for me regarding creepy Grandma too. So the one star off as Cash felt no remorse.

And poor Emmie works too hard!!

Jana says

[Dating another girl for your father's political career, whom you hate because your weird grandmother who

is dying asked it of you? And then without really an

Megan Hannah says

TK, Demons and Otherworld

I loved this one as much as the others in this series. I enjoyed reading updates about the Demons and Otherworld bands too. The only thing I didn't like was the whole Jace/Kin drama that keeps being talked about. I've already read their book (can't remember which series it was in) and they were together at the end of it and now they're not in this book. I guess Jace will get his own book like Kin did. Hopefully the author will keep us updated on all the others like she has done in the past. I love this series and all of the bands and can't wait for the next book to come out. Aside from the J/K drama, I loved getting to know Cash and finally understanding why he left his family to join TK. I've been a fan since the beginning and will continue to be! No cliffhanger and HFN (I say that bc of J/K)! Not so patiently waiting on the next installment! ?

Erin says

I love Terri's books! I especially loved that Cash called Amara, Dreamer! I think that's my new favorite nickname even though she never did anything major to earn the name.

Terri's books just have a way of pulling me in and not letting go. I liked that some of these newer couples are just finding their HEA and moving on to Happyville but still having some drama that keeps them apart (yes, I'm talking about Kin and Jace) and I'm interested to see what will happen. I'm also really curious about Ro and Sin & why do the bombshells always protect her so much.

It's been a while since I one day read a book and this one hit the spot. Can't wait for more!!

Jennifer says

Once again, Terri Anne Browning has produced a rocker book to rival all others. The hard rocking, hard living, hard loving guys of Tainted Knights give the reader everything that could be wanted in a Rocker Romance.

Cash is a guy with a past that he is hiding from. The mystery of his family and childhood still follow him, still guide him, have made him who he is, but he wants nothing to do with it. Even when it comes back to haunt him, he still tries to run from it. When he meets Amara at a rock music festival, his world is turned

upside down, and he has no intentions of running from what he is feeling. Amara comes from a privileged upbringing, but she knows that privilege often hides horror. She is a sweet girl, that has been let down too many times.

This book had my mind racing right from the beginning. So many questions!!!!!! I loved Amara, loved how strong and determined she is, how she sticks up for herself, knows what she wants and isn't afraid to hold out for it. It makes for a fascinating story and had me rooting for her, right from the start! Cash, on the other hand, was a surprise. I didn't expect him to fall so easily, to accept so easily, but I'm not surprised he made a few dumb mistakes along the way (I mean, really? He's a GUY!!!) I loved this book, just as much as the others, and I've just gotta know what comes next!

Karen says

Chemistry equals heartbreak

This is book 3. This is Cash's story. In this story we meet Amara. Cash literally runs into her at a music festival. Their attraction is instant and the chemistry off the charts but it is uncharted territory for both of them. We see a lot of the other characters and Emmie in action. I will say I figured out the storyline and didn't like Cash. In the end I was happy for them but still not pleased with his decisions.

Anna says

Gripping

From the first page I was hooked with Amara and Cash's story. It was a rollercoaster of emotions from start to finish and one I won't forget for a long time. Terri-Anne has created another brilliantly written and relatable story which compliments the rest of her amazing work in the TK series.
I couldn't put it down and read the entire book in one sitting.
I eagerly await the next book Terri-Anne has at tips of her talented fingers.

Brandi says

****SLIGHTLY SPOILER-ISH****

Yes, this is Cash & Amara's book but I'm gonna say what we're all thinking...

What the hell is up with Jace?! He is shady as f*ck. I don't care if he's doing that whole "saving his woman or family" thing because of some outside person who's trying to cause trouble. Just like Emmie said, "He should've come to her because she could've fixed his problem in two hours". As far as I'm concerned, Jace can go suck a big pair of hairy donkey balls because he has been dragging this sh*t out for WAY too long. After getting that tiny snippet in the epilogue of Tainted Butterfly, more drama in Forever Lucy & now what

happened in this one... I'm so disappointed to hear that Jace & Kin will not get their final HEA until some time next year. Sorry Sin, I'd rather have all the juicy details on the couple EVERYONE is talking about & get back to you later! *shrugs*

P.S. I am a HUGE fan of second chance romance but I'm actually liking the idea of Kin hooking up with someone else while Jace wallows in his self pity & some beer. Eat your heart out Jace because I'm ready to see Kin blossom without you! :) P.P.S. Major props to whomever sent the cake to the restaurant! That was an attention grabber!!

NOW THAT THAT'S OFF OF MY CHEST... back to Cash & Amara...

I pretty much devoured this book in one setting. It was a good blend of angst, surprises, laughs & hot sex. Loved how character-rich it was & although I wasn't happy with one particular loose thread that was still left hanging at the end, I loved how it left me thirsty for more Tainted Knights!

Cash & Amara made for a great couple. I really liked how they came together, how insta-love it was & how I could feel the chemistry they shared through my kindle screen!

Cash... Oooh, his betrayal cut deep. He pulled a super-douche move by not confessing everything to Amara & I didn't like it one bit. He should've shut down "Operation Fake Out" right after he met her, instead of letting it go on for so long. *smh* Thank gods he pulled that swoon-worthy move (with Riley's help) towards the end! Hard to hold anything against him after that!!

Amara... She was a very likable heroine. Authentic, fun, caring... I can't really say anything bad about her. I don't blame her at all for skipping town when sh*t hit the fan with Cash. It was totally understandable & gave her the opportunity to bond with Kin, which was awesome! Can't wait to see what the future holds for her & Cash. ;)

So, I hear that Sin & (I think) Roanna are up next in this series. I'm liking where things have been heading for them but I still feel it's a disservice to them to have their book come out before Jace & Kin's... at least for this fan. I mean, I'm totally reading it when it's released but I'll definitely be searching for the Jace & Kin parts first! *shrugs*
