Though not a wolf herself, Lucy has always been part of the wolf pack. Years after discovering she's a witch, Lucy's ready to go and find others of her kind. The only way to do that is to leave the only family she has ever known.

Caleb is the Alpha's son, and one day he'll take over as ruler of the pack. Lucy has always interested and intrigued him, and now that she is planning to leave the pack, he realizes that he cannot allow her to leave. He strikes a bargain with her—he'll give her everything she has ever craved, and in return she stays. Together they explore the attraction between them, and Lucy starts to practice with her magic.

However, strangely, Lucy has the abilities of both a witch and a warlock. When she almost kills one of the pack females, the truth is revealed about who she is, and the danger she poses to everyone. Caleb will do everything in his power to keep Lucy safe. She is his mate, the one female that calls to his wolf, and he refuses to lose her.

When witches and warlocks come to destroy Lucy, she has to make a choice. Is her love for Caleb strong enough to sacrifice herself and her magic? Will she survive when put to the test?

I really don't get authors who have "plus sized" or even just "normal sized" heroines (who still get bullied and called "fat") and promote "loving your skin, loving your body" and yet the women on their covers are stick thin & muscular.

The next book in these series is called "Fat Mate" which, to me, is just plain insulting...

Some people are so obsessed with weight & appearances and only hold false claims to be "body positive" authors/readers.

#### **Humor romance and suspense**

Although definitely for the over 18 reader, Crescent has managed to mix in even amounts of romance and suspense to keep readers entertained and involved in the story. Blending in enough humor to keep the story from becoming too dark. Another winner for Sam Crescent.

This was a great story. Lucy was amazing from the start. So glad she decided to stand up for herself and her only friend Bianca . I loved the conversation between Lucy and Caleb so playful and flirty. These two were great together and as the story progressed they became even stronger. Another good story from Sam!

What can I say but I loved this book. It was not what I was expecting, aka no pack group mating in sight. After the last few books, I've read by this author I was concerned about this most of all. The heroine is a witch in training and discovers that her powers come from her birth parents being a witch and a warlock. Being that witches and warlocks normally don't mate, she was the strongest witch and as such the covenant of witches and warlocks were searching to harness her powers for evil. The hero had always been looking out for her since she was a small child. He's tries to protect her from most of the unpleasantness of growing up in a community of wolves being that she was human, or so they thought. Included in their story was her best friend and her mate. Even their story sounded very interesting. This story could've been a standalone. I loved every crazy moment of it and wished it could have been longer. Especially, the struggle between the witches, warlocks, and the heroine. The struggle between good and evil was present in almost all the decisions made by the heroine. This was a well written book with just enough sex talk to keep it spicy but not too much that it overwhelmed the story. Now if only all of his books like this. It's a keeper for me.

Cute story but that ending was kinda anti-climatic.....

Okay. I didn't really warm to these characters or their relationship. I didn't hate them either but I think Calab is actually a bit of a jerk.

I hadn't realized this book was out until my Kindle Paperwhite suggested it to me. Sam Crescent is an Insta-buy Author for me. Her books are always filled with HOT alpha males that are usually arrogant or tortured, but ultimately they love their women so fierce.

*"You stay in Wolf Valley, learn your magic, and I'll be here to keep an eye on you. In return for you staying with the pack, I'll date you."*

I love Werewolf mating Romances. They always have this simple idea of one true mate or mates for the heroine, but more often the not, there is angst, danger, suspense, forbidden romance and meddling antagonists. There is always a happy ending, and the sex is hot, if not sometimes a little unusual.

*"The guys in the pack were weak, and they were too afraid of you because you're a witch. I was never afraid of you. Besides, you were always supposed to be mine, and I'd kill anyone who put their hands on you. You're mine, Lucy. Make no mistake about who you belong to. You're mine, and I'm not letting you go."*

The cover of the book is typical Evernight publishing, but I guess with most Ebooks, it doesn't all that matter.

Lucy was a powerful witch who was slowly coming into her powers because of a possible threat to her. She was afraid of her own powers, but as she hadn't known any other witch I guess that was understandable. I liked that she wasn't whiney. Sam Crescent's heroine's rarely are.

Lucy is a BBW, (Big Beautiful Woman) another trait that I love with Sam Crescent, because lets be honest, most women are not model thing and gorgeous, and the attraction women find with Romance novels is that they can identify with the heroine.

Caleb, well, he was obviously aware of Lucy's differences and he was afraid of her. When he sensed she was his mate, he didn't back down, especially when he expected a fight for alpha, or possibly to not be alpha at all. He seemed genuinely interested in her abilities and her magic.

I have spent many hours reading Sam Crescent, and I can say she has NEVER disappointed me.. who else can say that about an author?

*"You know it's true. You know you belong to me. We're meant to be together."*

"The Alpha's Virgin Witch" is the story of Lucy and Caleb.

A sweet love story between the son of an Alpha as well as the town's most powerful witch. Caleb has always watched the shy Lucy from afar, but when her powers decide to come in, and threats on her life mount from her enemies, he decides to finally claim her. They have a sugary courting, and hot sex, only for the evil to intrude on their happiness..

It was a good-ish read, but honestly to me it felt more like a YA erotica than an adult novel. I enjoyed the strength of the heroine, how the hero was always obsessed with her, as well as the sweet ending.

That being said, I can never understand when in books the heroes openly sleep with OW while being in lurvee (looking at you Caleb and Guy), and the heroines accepting it. Also I know they are wolves, but the whole parents having sex in front of kids was ew.

3.5/5

Ah goodness! This book is sweet and one of my favourite. Both characters are really sweet to the core. I like the endless effort of H to romancing h to fall in love with him, even though he doesn't have to try so hard; given he's already a sweet-caring-sexy-hunk. I also like the little side story about their friends, though I hope they get their own book. But oh well, a reader can only hope. The ending is a bit unexpected. Although I wished it ended differently, but this choice of ending is actually okay.

COMMENTS/NOTES:

I was pleasantly surprised by this one. I've only read the MC books, so this was a nice departure. It reminds me of K. Cole A Hunger Like No Other. The H and h have a similar relationship. They know they are mates but fight it and fight with each other until it becomes too much to bear. Then they can't keep their hands off each other.
