### **Dana Kennedy says**

I may have missed it as I sometimes read while there is too much going on around me, but I really never figured out why the person responsible for all the events in this book, was quite that crazy! Still fun to read, and kept me reading.

#### **Brilliant Development of Plots**

Reading these books has made me feel like a resident of Marlowe House. One of the things that I enjoy the most is the flow of gossip in the village. It provides information AND really brings the characters to life. no pun intended. It mystifies me how an author can invent such a complex scheme and make it happen with a host of characters. I'm officially addicted to this series

#### **So hooked on these books**

Bobbi Holmes has become another of my favorite authors! If you like mystery, murder, and spooks, you will love these books! I know I do! On to number 5

### **Kim Loomer says**

This book tied in with the last book and who and why about the murder made this book compelling and I enjoyed it a great deal. Danielle, who said she wouldn't take any more guests until Lily is healed changed her mind. So between the guest, the ghost of the murder and all the twists and turns it was a good book and I would loved to be able to read them all. Maybe later on.

So far, every book has been better than the previous, which is unusual. Most of us look forward to a sequel, but don't expect it to be better than the first. This series seems to be the exception for me.

In the previous year, Danielle Boatman has lost her husband, but found he was cheating on her. The pain of this betrayal has her selling the company they started and looking for a new start. It doesn't help that she can see ghosts who haven't moved on. However, she finds her new start in an unexpected inheritance from a

Great Aunt by marriage, The Marlowe House. But Marlowe house comes with secrets and the town, a wide variety of characters. The main character is Walt Marlow, a Ghost, excuse me, a spirit (Walt does not like the term ghost) who died in his own attic at the age of 25. He has decided he doesn't want to "move on" to the next part of his journey. There's a touch of romance in the air, but where can a Spirit and a live woman's relationship go?

Danielle has her best friend back, but someone is out to kill Gusalov, the man who kidnapped Lily. When the killer succeeds, Gusalov lives long enough to name Danielle as his killer. The police are looking closely as Lily sues Gusalov's estate for being kidnapped and held against her will, and not getting her the treatment she needed, and for tattooing her in an attempt to use her as a replacement for the heiress. Can Danielle prove her innocence and solve the murder?

### **Danielle says**

This was quite a thrilling book, and I am so pleased to say that the author was nowhere near as repetitive as she had been in the previous books in the series. Although it took me a bit longer to finish, when I did get the time to read, I didn't want to put it down. There were so many plot twists here that each time I thought I had the who-done-it figured out, something changed and I was left guessing again. My only issue was that I felt the editing could have been better. There were several punctuation errors, although I actually wonder if the eBook version is any different from the print version in this aspect. It doesn't really matter much, I'm looking forward to finding out about the Halloween ghost, so on to the next installment!

#### **Good Story**

This one takes up right after the last book. Something bad happens to the man who kidnapped Lily in the last book. And he is raging mad at Dani. This book's mystery was more complex, with lots of people involved. It was a masterful set-up. And I am becoming invested in many of the characters, not just Dani and Walt. I love Dani's best friend Lily. And I am really liking the chief of police. I am looking forward to starting the next book in the series.

### **Becky says**

I like the ghost and many of the side characters but Danielle is very inconsistent. Sometimes she seems like an interesting character and others she falls in the TSTL category. I won't continue this series.

### **Lisa says**

This book is great and I've finally gotten used to the way the author sets everything up in the first half of the book and then it all starts to make sense (come together) in the second half. I still don't understand why Danielle digs herself deeper and deeper into seeming guilty. It does not make sense. But all in all, I love this series!

### **Linda says**

I am so into this series! I love every part of it. I love the characters, I love the resident ghost in Marlow House, I love the innovative mysteries, and I love how the story line continues from one book to another, even though each book is a separate story.

Danielle Boatman, series protagonist, and the proprietor of Marlow House B&B, is well known to the local police force. In previous books she was briefly suspected of crime (of course she didn't do it!) but with his dying breath Stoddard Gusalov, local wealthy business magnate, names Danielle as his murderer. Danielle has issues with Stoddard galore but she didn't kill him. Worse yet, she is constantly haunted by a very angry ghost- Stoddard! He truly believes that she killed him. There are so many twists and turns, as there always is, and Danielle is in danger a few times. Her ghost-friend Walt Marlow comes to her rescue. Policeman Joe Morelli, who started out as a romantic interest in the first book but lost favor when he believed Danielle to have committed a crime in the second book, slowly regains footage in this book, and the police chief learns about Danielle's gift of talking to the spirits.

Best of all, there are many more books in this series for me to buy and read!

### **Beatrice Richter says**

It is a great read. I really recommend this series. I also like that the books have no cliffhanger at the end. Each story is such a fun that I want to read more (I thank the author for her writing skills to hook me up without using a cliffhanger).
