What makes a rocking chair so appealing for rocking? People rock for comfort, fun, relaxation, pleasure, or rest, so there must be something special about a rocking chair. In her book, The Red Oak Rocking Chair, author Nelibeth Plaza tells the story of one particular rocking chair that shares surprising, heartwarming, joyful, and sorrowful details of a family. A handcrafted, wooden rocking chair, intended for giving comfort and pleasure to others, goes on its own journey of love, joy, discomfort, excitement, pleasure, and pain as a new baby comes into the family. As it first rocks the baby and then witnesses her grow up, the red oak rocking chair gives readers details of each sensation, from stinky diaper smells to being bitten by the babys incoming teeth! Along with the excitement, joys, and laughter of a baby and exploring toddler are the bittersweet times of detachment when a child must all too soon grow up and begin her own journey into the world. The Red Oak Rocking Chair provides a unique perspective on life and love.
