### **Himanika says**

this story is a nice piece of work  
I like samvedna a lot I seriously mean a lot  
her innocence and beliefs are admirable  
but wat saransh did to her is worse than terrible  
how can u love someone and then turn ur back to that person  
anyways I don't like the end part very much coz it is described in avery wrong wyt about the single mother  
thing and how callously samvednaz parents left her in the mouth of werewolves  
  
but u can say all is well when the ends well

It really is filmy, I agree. Then again, this is the best romance fiction which entertained me after a very long time. Conversations and specially the character James.. Wow man, your hard work really shows here buddy.. Ending was very obvious and ok.. But trust me fellas, you gotta try this book and am sure you won't regret it.. :)

After a long time read such a book in romantic genre which touched my heart. Author has beautifully detailed all the characters. The main character Saransh and samvedna. This book made me read the book at a stretch. All the events in the book like Our story had started from the platform no. 3, Nagpur and finished at the platform no. 3, Bilaspur. This was the best one. Overall i would tell its a awesome GOODREAD... :)

### **Harry b nair says**

"When life goes filmy" that's exactly what this novel is all about. It has all the content of a desi melodrama full of romance, ambition, corruption, tears and the life style of modern youth. This book is recommended for all those who consider romance as a major part in your life and want to be always in your lover's arms. You will surely fall in love with "Samvedana" and her innocence. The book also has characters who just needs physical satisfaction and whom goes on changing partners per weekend. I think the character of prostitute was not necessary and the climax could have been changed, but with that end author shows the value of money and human values. Sarnash is a character sketch of every youth be it is a North Indian or a South Indian he is there among us or even with in us. Go for it there will be a smile in your face while reading this book till the end. 3 star for the novel and 1 for the character written for Samvedana (such gems are rare)

This book is a lil bit filmy.. But I dont know why.. I think maybe the time was right..!

This book was very funny and I was laughing a lot with and at James!

He is awesome! :)

This is the best book by an Indian author I've read in my opinion.. But I haven't read many so...

But the story was a bollywood movie type but its ok! I love books that make me laugh!

This is the only book where the lead in the author or the author both are not from Punjab I guess!

So.. I loved the story by someone who lived their life NOT in Punjab! :D

### **Jabeen Sheikh says**

This is purely a book that grips you, you actually connect with the characters and eventually look through their perspectives...

The characters are absolutely interesting, intriguing at times...but yeah...hell-lot fascinating...

Mr. Sahu does an awe-inspiring job at penning down this lovely story. He turns the reader's life really filmy! It is obviously a heart-wrenching story, beautifully written and an amazing happy-ending acts as the perfect icing on the cake!

Happy Reading :)
