## Custom Fit Josephine Myles

Being "wrong" has never felt so right!

Felix McAvoy is having an identity crisis. No longer the bad boy of art college, he's now employed as a human billboard, roaming the centre of Bath dressed as a Roman soldier while attempting to fight off his nicotine cravings. It's a come down for the former conceptual artist, although there are compensations to the costume. The skirt, for one...

While Felix hasn't made a secret of his desire to wear women's clothing, he's never dared try it until now. He's always been worried once he goes down that road, he won't want to come back, and the prospect of cross-dressing 24/7 terrifies him. Of course, he can't tell that to Andrew, who's now busy making Felix a slutty red dress.

Andrew Wheeler loves coming home to Felix and their cosy city centre flat. He just wishes Felix would let him know what's bothering him; maybe then Andrew could confide what he really wants. Felix might not see him as anything other than a top, but Andrew's yearning to switch things up.

Living together is one thing. Actually plucking up the courage to talk about their secret desires is going to be a whole other—and excruciatingly embarrassing—kettle of fish.

### Lucy says

This is the continuation of the story of Felix and Andrew, a bad boy art student and a (formerly) uptight fashion student who met, clicked, fought and ultimately hit it off in Tailor Made. Our couple is now firmly together and living in a little flat and worrying about money. Andrew is still in school; Felix has gone mainstream and gotten a job advertising in a Roman gladiator suit.

One thing I adored about these two is they are so playful with each other. Their attic apartment has no air conditioning and these boys are suffering in the heat. They make due by using a plant mister and have mister fights that turn sexy. It was the cutest. Or when they “dirty talk” and it’s so ridiculous. “Oh Studly McStudlington, do me good and proper with your big fat crotch sausage.” Again, it just was cute! The best part of the story for me was when they are alone together and being themselves, silly and endearing.

It isn’t that simple, however. Andrew suffers from a lifetime of repression for who he is and so bottoming, well that is out of the question. Felix is so patient and accepting of this but Andrew really has a hard time. We also have Felix, who is keeping secrets from Andrew, both professionally and personally. He worries so much about what Andrew will think about his wanting to wear a dress or lingerie and he goes to great lengths to hide it.

And so the difficulty begins, because Andrew is so worried about money and Felix is so busy hiding his secrets that the relationship has to suffer some. They do have sex, lots and lots of sex. “Felix kept going until it felt like his tongue was going to fall out.” Takes one for the team, our Felix.

One thing I loved about Felix – even wearing a slutty red dress and lacy lingerie, he isn’t trying to be anything but himself. A man who happens to like wearing feminine clothing. He isn’t transgender (which he was worried about for a bit) and he isn’t a 24/7 cross-dresser (which he also worried about). He just likes the feel and the look of women’s clothes. Go Felix.

For me, the story had most impact when it focused on how the two worked their relationship. I was angry at Felix at one point because he went through such lengths to hide his desire to try lingerie but eventually it became clear that he’s hiding it from Andrew as much as he’s terrified of himself and what it will mean. The professional part, well, I felt bad for Andrew with that one.

Since we have a reformed man-whore and a reformed virgin, you knew things were going to take a little getting used to. These guys manage it without much angst or drama. There’s hot sex, awesome cuddling and a couple who like each other immensely. As did I.

It doesn't get much better than when two beloved characters can get their kinks to line up like stars and the author really delivered in the follow up to Tailor Made.

3,5 y diría que mejor que el primero.

Llevaba tiempo con ganas de hincarle el diente a la segunda parte de esta serie, el crossdressing es un trope que me parece interesante, la autora lo toca con gusto y delicadeza, aunque quizás esperaba algo más, hacia el final creo que se desinfla un poco, pierde fuerza.

Me gusta mucho como la autora nos deja ver como van madurando los dos MC, como pareja, pero también como personas, con problemas reales que van solucionando, con las ganas de comerte el mundo que te dan esos años, con las ganas de experimentar... Vamos, que les he cogido mucho cariño a Felix y Andrew.

Os recomiendo esta serie, baja en angst, dulce, con sentido del humor y unos personajes muy monos. Ya me contáis si la leéis.

This was the book that almost never made it. A sequel to Tailor Made, which has been delayed time and time again by big life changes--try getting divorced, meeting someone new, having a baby and moving house twice, all crammed in the space of three years!

I hope you enjoy the continuing adventures of Felix and Andrew. This is a smutty romantic comedy featuring a young couple blundering their way through making a life together, while also exploring their clothing kinks...

### **Line says**

Man these two... Felix and Andy-baby are back, and Felix is more weird and all-over the place and Andrew is more grown-up and concerned than ever.

This book takes place a few months after the first one. Felix and Andy-baby live together, Felix is done with Uni, and Andy-baby is on holiday working in a cafe until classes start up again.

Felix has no clue what to do with his life, he's done a few self portraits, but doesn't use his education otherwise. He works as a 'roman soldier' on the streets of Bath trying to get foot-traffic to the shops.

At the same time Felix is slowly trying to figure out his kinks. In book 1, Andy-baby promised to make Felix a dress, which woke something up in him. He's now gravitating towards lace and silky underwear; he simply cannot help himself (and he doesn't need to!)

But how do you explain to your partner that you're having a kink? How do you let that partner know, that you need something that wasn't there before?

In the first book it was Andy-baby struggling, and accepting that reality is sometimes better than fantasy. In this one, Felix is the one struggling... He wants to tell Andy-baby, and he tries, he really does, but opening up

about something so personal, is not easy.

At the same time Felix is having issues being a grown-up in real life, he's not a student anymore who can JUST take student loans; now the loans need to be paid back!

But the always conscientious Andy-baby gets him a part-time job at a hobby-shop and Felix also gets to showcase a few of his paintings in a local cafe.

These paintings draw a local gallery owner to Felix and all of his dreams can come true, if he can just open up to Andy-baby and TALK to him... But Felix can't figure out how, and Andy-baby is getting worried, very worried.

---

I really liked this book! I thought it was a very nice addition and ending to the first one, though IMO it could have been ONE book.

I loved the kinks, I loved the characters and I loved the growing-up aspect of this one. Even though it is wrapped in english humor and a 'fluffy' blurb, this one deals with some interesting subjects.

#### **4 stars**

Custom Fit is the sequel to the fabulous Tailor Made, where we first meet Andrew and Felix. I adored that book and loved the juxtaposition of the care free, man-slut Felix with the more shy, reserved, virginal Andrew. And even more when we realize that there is a lot more substance to Felix than he first lets on, and that Andrew has a down and dirty side that he begins to let out with Felix. This book picks up shortly after the guys have made things official and moved in together. I think Myles does a good job giving you the background on that story, so you could jump right into this book. But honestly, I adored that one, and if you like slutty boys, virgin heroes, and some cross dressing, I would tell you to grab Tailor Made first for sure.

The first book came out a while ago (at least its original version, it has since been re-released) so I was excited to see a follow up story for Felix and Andrew. I loved them together and enjoyed reconnecting with them here. We still can see many of the same traits as before. Felix is much more easy going, more willing to take things as they come, while Andrew is more regimented and uptight. Both guys are trying to settle into more of an adult life, to take on responsibilities they don't necessarily want. It is a bit harder for Felix, who isn't quite as responsible as Andrew (fiscally or otherwise), but we can see that he is willing to sacrifice his own happiness for Andrew if need be. The guys are still fun together, sexy and playful, and a really enjoyable couple.

REVIEWED FOR PRISM BOOK ALLIANCE

It's been over two years since I read Tailor Made the first book in this series that features the same MC's. Catching up with Andrew and Felix was such good fun. Felix is just as flirty and flighty as ever whereas Andrew spends most of his time being very practical or as Felix sometimes thinks a little bit boring.

Now the boys are living together and Felix is no longer a student real life seems daunting and sometimes isn't a lot of laughs. Rent, bills and a shortage of spare cash to do anything fun has Felix kind of bummed and the fact that his job requires him to dress like a Roman Soldier and parade around town isn't helping matters.

For me this story was very much about Felix and his struggles to adjust as well as deal with who he actually was. As their relationship evolves things aren't quite as steady as they believe and a small amount of dishonesty could have much larger ramifications. I think it's a wakeup call to both of them that they need more than sex, and they do have some very hot sex, but they do need to communicate and be honest with each other as well. Felix has secrets that he feels embarrassed and afraid to share and Andrew has a fear of something personal that he has built up in his head to be far bigger than it eventually proves to be.

This was a brief interlude and catch up with two very funny characters. The author's wit shines through once again and the story and the characters are so very British that it made me smile until the very end. You could just about get away with reading this as a standalone but if you start with book 1 you will get far more enjoyment and a lot of fun out of it.

I read the first book in this series, Tailor Made, in 2013 so I feel I've been waiting forever to catch up with flirty Felix and sweet, shy Andrew. This was certainly worth the wait, a fabulous story, wonderful characters and of course, this is Josephine Myles, hot sex! Loved it! Can't recommend enough, would suggest reading the first in the series but it's not completely necessary <3

### **Barb ~rede-2-read~ says**

This was even more enjoyable than book one. Andrew and Felix are now living together and Felix is balking at having to work to make ends meet. Not used to watching every penny, he's stuck in a job as a living billboard, as he roams the streets of bath in a Roman gladiator outfit. The only plus, in his opinion, is that he wears a skirt. Yes, Felix has a secret. He wants to wear women's clothing, maybe not all the time, and maybe not out in public, but as the story progresses, he firms his commitment to at least trying a nightie.

And then Andrew asks him if he can make a dress for Felix from some beautiful fabric he's received from a friend. Andrew will use it as a school project and he secretly can't wait to see Felix wear it. Unfortunately, the men don't fully communicate their secret desires to one another. And that continues when Felix is offered a chance to show his art at a galley exhibition. He needs to quit his full time job to prepare for the show which will feature a self-portrait in the nightie and will allow him an opportunity to wear the red dress in public.

Consequences of the deception aren't pretty and though he fears he's going to lose Andrew, he finally confesses what's going on.

I really enjoyed book one, but I had no idea book two was going to feature cross-dressing as much as it did, or I would have been on this the day after I finished the first one. I love the storyline here and Felix is the perfect character to carry off wearing that dress that Andrew so skillfully crafted for him without going all the way with makeup, waxing, and accessorizing as a woman.

I highly recommend this series as both characters are well worth meeting.

**Low on the angst, high on the steam; manties (and other pretty, lacey things) included.**

Andrew and Felix have to figure out how to pay the rent while following their dreams. Andrew worries he won't be enough for Felix if he doesn't bottom, and Felix keeps secrets from his boyfriend. But not for long.

The ending is a pretty solid HEA, but I'd read more about these two.

**Jo Myles always delivers sweet, humorous, steamy stories that are properly British to boot.**

I hate the trend of British authors in the genre dumbing down authentic language for an American audience. Kudos to Jo for staying true.

Super cute follow-up to Tailor Made.

I really love both Andrew and Felix.

Andrew was so sweet and endearing. And Felix is so fun and care-free.

They may have been opposites but they were so great together.

This was a super easy, low angst read with a nice bit of steam!

Recommend both books in the series!

**3.5 stars**

While these boys might have to learn about the power of communication, and despite the opposite way of looking at life -- Andrew is more uptight and so cautious about money while Felix is more willing to take chances -- but I thought they really truly fit with each other. When they do talk things out, they are adorable.

I liked that the problem written here was very, uhm, *realistic*, in terms of struggling with money and getting

a job to make ends meet after one finishes college. About trying to reach your dream, do what you are most passionate about, but at the same time finding that you must sacrifice parts of it to get money.

So yeah, I really liked this, slightly better than the first story even (based on my rating, since I don't exactly re-read Tailor Made before starting this one, so I can't really remember the details)

### **Sheri says**

I *almost* always adore an established couple in my books. Part of the allure is they have sealed the bond beforehand and we get into the deeper and tougher tests of their love. We push them to their limits, find their buttons and hope they survive holding hands on the other side. Typically the challenges are unforgiving and the sex is in abundance. Felix and Andrew have only been together for a few months but haven't wasted any time on commitment levels. They moved into together and to gain the benefit of living alone they are pinching pennies. Student years are packed with cheap food, unreasonable work hours and the freedom of a limitless sky. Factor in a brand spanking new relationship and the stress levels are bound to rise.

Felix and Andrew are learning how to be together. They are smitten and eager to make sacrifices to bring joy to their home. Felix has been accustom to living carefree until now and is adjusting to the pressures of bringing in a steady income. Andrew is determined to push through uni without acquiring a hefty debt. Long days of meaningless work are slowly snuffing the light from Felix's eyes. Andrew is aware that Felix is unhappy with his job but can't find another solution. He figures they both need to square their shoulders and push on through, it won't last forever.

But the dreary job is only **one** of the things troubling Felix.

He has a secret and he's yet to find the courage to admit it to himself, let alone Andrew. He knows he can trust Andrew but everything is still so new and tender and what if he ruins it all? Better to keep this a secret until he's certain. He just can't risk it. But he forgets the golden rule of honesty. If you tell one lie, it leads to another and yet another until you are surrounded by a circle of untruths. How can he stop the chain reaction and when he finally does, will it be too late?

**What's to like:** More Felix and Andrew! Their stress and anxiety increases tenfold but they still have fun and are extremely sweet on each other. I enjoyed the return of old friends and the addition of new friends. And I always enjoy the sprinkling of Jo's British touch.

**What's to love:** First and foremost, I loved their affection and adoration for one another. They are seeing hearts and walking a few inches off the ground, it's too cute! Then, the arts were so vivid and bright they burned brightly behind my eyelids when I closed them. I could see the gorgeous dress, feel the delicate lace and smell the oils on the canvas. The designs both men create blew me away. I would love to see the inspiration behind the pieces and eagerly await anything additional Jo might have hidden away. Another beautiful component of this story was the self discovery we witness.

**It was so...honest despite the fibs.** Felix battled with himself and struggled to accept what he desired. He has always been comfortable and confident in his own skin. Why can't he admit his appreciation and longing for women's clothing? What does this make him? Could he be transgender? What if Andrew doesn't follow his desires? He needs Andrew more than he needs lingerie. But will he lose part of himself if he refuses to

acknowledge another part? I found this aspect of the story extremely well done. Bravo!

**Beware of:** Lots of hot sex but is that truly a bad thing? I'm thinking...no.

**This book is for:** It's a solid sequel and should be treated as such. Please read book one first and with the smashing steal of a deal, why not?

### **Lillian Francis says**

I have to confess to a vested interest in this book. I fangirled Jo when I read Tailor Made with an email bombardment of sequel ideas/requests and then badgered her for three years until this book finally came into being.

Then she allowed me a sneak peek at the finished manuscript under the guise of beta reading. And a pre read of the finished copy.

Disclosure out of the way, now on with the review.

I've waited so long to spend more time with sexy sweet Andrew and flirty Felix. And it was definitely worth the wait. The boys are living together now and still madly in love but living together brings its own challenges.

Felix is flighty where Andrew is responsible. Felix has finished his degree and Andrew still has uni. Andrew worries Felix will get bored with him. And there's a little matter that Felix is discovering a passion for silk and lace against his skin...

Custom Fit has a distinctive British flavour and of course all the wit and sexy times you'd expect from Jo Myles writing.

I loved it.

### **Pjm12 says**

I was looking forward to visiting this pair again, and it was good to see them. They still need to communicate better, but if their two interests didn't just make them fit together even more, I don't know what would have.

I think that aspect could have been highlighted more - Andrew loves making (feminine) clothes, Felix likes wearing them. It just makes sense.

There's English humour, there's lack of communication, there's drag queens (& kings!), and there's a terrific happy-ever-after.

I am happy too.
