Dani and JT, thrilled to be entering a new phase of their life, struggle with something nobody should have to deal with, but that veterans often do, leaving them unable to help Vivian, while they try to claw their way back to health and happiness.

The Heat gang needs more help than they've ever needed before, even as life appears perfect from the outside.

This is the 8th installment featuring the heroes of Westwood Harbor. It provided a great opportunity to catch up with everyone's lives and also included a bit of suspense that we have come to expect with this series. As mentioned by the author, there is a point in which you may be tempted to stop reading, but you have to stick it out! Great addition to the series and I hope we see more to see how things work out with JT and Dani.

ARC provided in exchange for an honest review.

I'm hooked

Lisa has hooked me to her writing! I love this series, I have no doubt I'll love more of her books. I admit I wouldn't want to have to go through anything the characters do, because holy cow, what a ride. Great read!

Something is happening to Hawk and JT. Hawk is losing control and JT is having nightmares. Can anyone help them. You love it.

Started today and finished today. Couldn't put yet another one down until I was finished. Have been a faithful fan from the very first book. Love them all. This was a great reunion of all my favorites characters. Found myself with my mouth hanging open going what the heck just happened and then I was upset with Hawk and Jt at one point and I was sad at one point and then in the end I was happily watery eyed. Loved that we got a story for each of them all in one book. Can't wait to hear more about Jt and Dani and how Hawk and his venture turned out.

Amazing!

Thank you for pointing out that homeless people are not bums looking for a handout. The characters are wonderful and have great depth.

I just love the Westwood Harbor crew! This installment is jam-packed with action from the very beginning. It is a more emotional story because some of the characters go through a lot of turmoil and challenging

situations, situations that are very real. I like that Lisa Ladew touched on these real-world issues because it makes you connect more with the book. You will love Hawk even more when you are finished reading!

Edge of the heat 1-8

Love the way all the books interact with each other and they could be standalone and would be fantastic as a movie or a series. Can you write some more about these characters please

Heart Stopping

Hawk the sweet, loving man and husband is acting strange. He is quick to anger and scaring the people who love him most. What is happening is anyones guess. He won't talk about it and when they suggest he sees a doctor he goes ballistic. Things go from bad to worse and then he disappears. The race is on to find out what is happening and why and everyone hopes that they will find him and save him. This book was amazing and I enjoyed it so much I couldn't stop reading until I finished. I for one am hopeful for a next book.
