Awesome! Childhood memories learning how to read and watching this tv show as a faithful fan!!!! :)

## **Tara says**

Quite possibly the worst book I've ever read. I guess trying to make a whole novel, even a short one, out of a TV episode is a bit ambitious, but I'm sure it could be done better than this. The thing that especially got on my nerves was the meticulous descriptions of what everyone was wearing in every 'scene'.

## **Lauren says**

I loved all of the Sabrina tales full of magic. Every story was a different adventure and some new and exciting challenge to overcome. These books made me want to have magical powers too but the ending results were hilarious.

When I read this book it really took me back to my childhood. I used to be pretty obsessed with this show, and when I spotted this in a second hand bookstore, I just couldn't resist! A fun and girly book.
