**Making Her His Lucy Leroux**

**For almost five years, Alex has had one obsession. Her name is Elynn.**

Alex Hanas couldn't believe that after so many years as a widower, his father was getting remarried. To make matters worse, the American gold digger had a kid—a daughter named Elynn. After months of avoiding it, Alex goes to brunch with every intention of giving his father's new family the deep freeze. But he can't pull it off with Elynn's anxious green-grey eyes locked on him.

That was the day his life changed.

Four years later, Alex is as close to Elynn as a stepbrother can be. But that's not enough for him. He wants more...and he's done waiting.

## From Reader Review Making Her His for online ebook

### Sissy's Romance Book Review says

I received an eARC, from NetGalley and the publisher, in exchange for an honest review.

This is book one in the "A Singular Obsession" series by Lucy Leroux. This is also my first book by this author. I not sure how I can put into words how good this book was! This has the alpha male wanted to protect 'his women', hot sex scenes, and you just get emotional drawn in! Once I put this book down I started reach for the next in the series. Since yesterday I have read the 1.5 book 'Confiscating Charlie' the second book 'Calen's Captive ' and moved on to the third book 'Stolen Angel' and will finish it up today. You just can't get enough of this author and her books!

Alex Hanas has been upset that his father as went and married after being a widow for years. Alex thinks his new step-mom is a gold digger and that her daughter is fat and ugly. Alex's father makes him come to a Sunday Brunch to try to build on being a family. Alex after several months breaks down and goes to his father's house to try to do this brunch thing. When their he notices Elynn his suppose step-sister that he thought was fat and ugly. But Alex gets a good look at her and finds that his first impression of her was wrong. She is in fact beautiful but chooses to wear really loose clothes to hide her body. They start a friendship that has Alex falling in love with her but he knows she is still to young for him and also she has something in her past that is an issue for her being around men. So Alex settles to be her friend until he thinks she is older and is no longer scared and would except a relationship with him.

### MelissaB says

I quite enjoyed this contemporary romance with a possessive alpha male who treated the heroine wonderfully. I will be checked out more of the author's work when she publishes more books.

### Chantal ❤? says

#### 2 CELIBACY ISN'T FOR ME STARS

I must admit, I was disappointed with this hero. He said he has been in love with her for 4 years, but I say NOT!

And why you may ask?

He was still having sex with all those other girls!

Hey guys, he tried here but guess what? Celibacy wasn't his thing.

### **Really!?**

Does anyone with a brain cell buy this bullshit?

I am not going to say it's easy not to have sex once you've had it but the fact of the matter remains, if you love someone you stay true to them.

Therefore, I don't think he loved her at all.

I think he just wanted to keep his Virgin prize on the side while he f\*cked around with all the women he wanted.

The whole idea was an insult to the intellectual reader who understand that intercourse is not the only way a man can relieve himself.

Doing this is an insulting to the love he said he felt for the heroine.

However, if you let this issue go, then he was not a bad man because he looked out for her and tried to do what was right.

He was just a two faced hypocrite in my opinion.

I think she would have been much better off truly punching him in the nuts then hitting him with a pillow!!!

Seriously, my husband would at least find inching powder in his underwear or waxing off all his body hair!!! Something!

Oh well, it's not a bad book just not great.

If you can over look this issue, then this book wasn't bad. Sadly, I couldn't because of the way it was written. It felt wrong and like he was cheating!

Those are my thoughts!

---

### **100sweet says**

ATTENTION fans of OTT obsessive, possessive, and protective ALPHA MALE heroes!!! This is the book for you. The H is AMAZING!!! There were moments where he demanded that the h say she loved him. He was so desperate to hear it from her. I LOVED THAT!!! There was a moment where he thought the h had left him and he had to hold onto the dresser bc his legs gave out. He was also insanely jealous. This was a fabulous read and I can't wait to stalk this author from now on.

---

### **EliseSReads says**

2.25- 2.50 STARS

I totally forgot I read this book years ago, I did a quick skim and this would have been a solid 4 stars, if the hero had been celibate when he was "in love" with the heroine over the years. Heck, I would have even accepted if he had been celibate after the h turned legal, sadly "frustration" (his words not mine) beats being celibate for the woman you love.. :/

---

### **Willow Brooks says**

In the day where instant gratification is what everyone including myself look for in books these days, I have

to give credit to this author for taking her time to tell an engaging story. I'm afraid the art of building layers a little at a time is dying out. Don't get me wrong, I'm not in with people writing boring stories where hardly anything happens, and so you know, this story was nowhere near boring. What I'm saying is that you don't read four pages in and the hero has the girl and is shooting off his load in her right away. This story builds up to the excitement.

I liked it. That's all.

---

### **Jacqueline says**

Really enjoyed this OTT alpha male. I read a couple of reviews that said there was cheating here but there really wasn't. So he had a very few short relationships while he waited for her to grow up. Not cheating since they had no romantic relationship at the time nor had one been promised or implied. So if you like Lynda Chance you'll probably like this. It was well written and flowed smoothly. Can't wait for more from this author.

---

### **Fatimama says**

This reminded me of Harlequin Presents, only kinkier with the stepsibling angle, more explicit sex, a much longer story, and a jealous-possessive Hero who does not need a skillet to his head too often. These are all good things and that's why I'm giving this book 5 stars.

Not safe though as hero was not celibate while waiting for the heroine to 'grow up'. Not too much of a manwhore though.

---

### **RCK says**

#### **SPOILERS**

This book wasn't too bad.. it was a taboo subject.. step siblings in a relationship - which doesn't bother me as long as there is no blood relation I'm okay.

i liked both the hero and heroine.

I rolled my eyes quite a few times when things about how rich the hero were mentioned. For example at one point he flew in a doctor because the heroine gets bitten by wasps.. Yes he flew him in!! His many homes and how big they were!! oh and at the end when he has the heroine's ring made out of a meteor and purchases the remaining meteor!! REALLY?? that definitely annoyed me.. if i were to read the next book I do hope it isn't mentioned over and over again that the hero has money or what he does with his money.

## Mindy Lou's Book Review says

I wish I had known about this book sooner and I'm itching to grab all of Lucy Leroux's books if they are anything like this one.

Alexandros and his father, Costas, are rich and powerful and Greek! Alexandros lost his mother at the age of 11 and assumed his father would never remarry. When Costas is well into his 20's his father falls in love with an American woman with a teenage daughter. Alexandros assumes she is a gold digger and protests the marriage causing trouble between him and his father. After some time Costas convinces Alexandros to attend a family brunch where he is forced to socialize with his new step mom and sister. What he wasn't expecting was to be intrigued with Elynn, his step sister who is 17. He notices she is shy and wears baggy clothing but is extremely smart and beautiful and later learns she has suffered a traumatic event in her life.

What the author begins to unravel is while Alexandros is getting to know Elynn, he is not aware right away that his interest is more than just simple friendship. I loved how the author cultivated the relationship over a span of years and how respectful Alexandros was of her age. He gave her the time to grow up first while still being there for her and protecting her so that when it was time, she would already have the bases of a strong relationship with him as well as time to heal from her past trauma. Once he decided she was ready for that relationship, boy did the story heat up. Alexandros is a very dominant man but he always held part of himself back with her. Once he decided she was ready, he charged full speed ahead. Not everyone is a fan of an OTT alpha male but if you are, this is the story for you. What I also loved was that since Alexandros gave her so much time to build their trust in each other, Elynn became a strong woman of her own right. While for the most part Alexandros would take complete control of their relationship, she always stood up to him when he pushed her past her comfort zone.

Despite the years it took for them to get together as a couple, I did not feel this story dragged on. Infact, I pretty much read this book straight through and this is going on my top favorites list. Great story!

ARC for idea by NetGalley in exchange for an honest review.

---

## Vasiliki says

3 stars!

*ARC kindly provided by Xpresso Book Tours via Netgalley in exchange of an honest review.*

This is the story of Elynn and Alex, a step-brother romance.

Unfortunately this romance didn't work for me at all. The writing was ok but the plot was moving slowly at some points. There were a lot of information about events that were not important in the story and lots of anticipation was built for something big to happen without ever happening. The idea of the story was fantastic, but I think that the book could have been better worked.

Elynn is an amazing character. She is shy and kind of nerdy but she is honest and strong. The only part that I didn't like about her was her reaction to the declaration of love of Alex. (view spoiler)

Alex is not my piece of cake. I like a controlling guy when he knows what he is doing. Alex didn't feel like

he knew what he was doing...he had his plan and his hopes that it will work out as he wished but he didn't give the vibe that he had everything under control. He also had too many secrets from Elynn, secrets that concerned her, in the name of protection that really annoyed me.

The worse part for me in this book was the lack of connection. I felt their friendship but I didn't feel their relationship. I didn't feel their chemistry. That was actually the deal-breaker for me.

The end of the book was nice. I loved the epilogue! I am crazy about them and this epilogue was a nice closure for this book.

### **~`\*Ella Lee\*~ says**

What is it with Brothers lately! Yeesh! LOL

So the H in this book was EXTREMELY Alpha. Almost too much. \*Gasp\* WHAT??!! \*\*\*Sigh, I know, I know, but - it's how I feel.

I did enjoy the story. I loved how it showed the progression of his obsession over the years. It wasn't too much of the "insta-love" thing, but definitely "insta-intrigued".

The h is about 10 years younger than the H, requiring him to wait for her to "come of age".

The H makes dramatic actions to show the h how he feels for her. The h has very low self esteem. When she was 16, she was stalked and attacked by a boy that wanted her badly.

Since then, she's been very intimidated and shy around men.

The hook up of these two and continued luv'n throughout the book is definitely hot and the chemistry works well between these two.

I didn't like that the H continued his man whoring until he was ready to take his h. I think he stopped a few months before they got together, although his "love" was spread for over 4 years. I get that he had to wait, but it still stunk. Especially for how OBSESSED he was. I also thought the add in of the famous starlet was OTT. For the reader it seemed like an annoying, useless add in.

I recommend this for anyone looking for something quick, steamy and a sure thing. The OTT Alpha doesn't hurt either ;)

---

### **Becky says**

I found this to be really poorly written...too much dull, repetitive sentence structure, so that I couldn't lose myself in the story or even feel for the heroine's past suffering. Just very simplistic and childish in terms of the writing, and too much was told rather than shown. I get the comparison to Lynda Chance, but I think her writing is a bit more mature and developed. It also repulsed me that hero had feelings for the heroine but sleeps with other women until he sees a sign that heroine is having a romance...then suddenly he is going to make the relationship happen, to be sure he gets her virginity. It's not that he's cheating because they aren't in a relationship, but he's still a jerk for selfishly stealing her youth and not making any sacrifice of his own to allow her some experience. He wasn't really waiting for her because he was with other women. He was really just waiting to pounce and manipulate her into losing her chance to find a better man. If he can be with other

women, and it was for her benefit that he waited, then he should wait for her to find a better man whose feelings for her would keep him from sleeping with another woman. I think she deserved better and hero was scum for thinking he was entitled to her. His sleeping with other women wasn't some selfless plan about letting heroine have freedom and other experiences...he is just with another women but then sees heroine with a man so decides to lock her down. it was a plan to keep having his cake while he gets ready to eat hers too. My least favorite kind of guy. If he can sleep with other women while "loving" and being possessive of the heroine, he will likely do it down the road...I know that I'm pretty tough on men who sleep with other women while planning to take a heroine's virginity, but that is a huge sin in my book. I hated him.

---

### **Kitten Mercer says**

[the hero was a douchebag, because he was in love with his 18 year old heroine who was 10 years younger than he, bought her a ring and yet he was fucking other women. I get that a man need

---

### **Naksed says**

I love it when the nerdy girl gets the hunk. This book started out strong and I thought I had found another Beautiful Player, my favorite nerd girl Alpha Male contemporary romance by Christina Lauren. However, this was a DNF for me around the half-way mark. This rating business is so subjective and I feel that a lot of readers would enjoy this book. But it was not for me.

The heroine, Elynn, was initially an interesting, quirky character. It was a hoot to read about her love of science, her obscure experiments, her adorable efforts to make small talk by painstakingly coming up with talking points. Even more admirable was her valiant effort to be resilient after the traumatic event in her past that made her not be able to enjoy life to the fullest.

Then, a complete about-face. Elynn has been suffering emotionally for years after a severe physical assault left her in a state of almost constant panic when men get too close yet just after embarking on her first romance, she wants her lover to use restraints on her? Did not make sense and it seemed very contrived and not organic to the story so far.

The hero, Alex, was your typical Alpha male character. His character was not written with the same dimensions as the heroine. It almost seemed like a cardboard cut out of Christian Grey from the Fifty Shades books, except he was not adopted and he is Greek. Everything else fit. He has unparalleled looks, a gazillion bucks or rather quids given that he resides in the UK, all the women are lusting after him but he has no emotional connection to any of his conquests (except for Elynn, whom he loves and lusts for secretly). He has numerous real estate holdings, fancy cars and private jets, is the head of a conglomerate etc. Also, very controlling and a complete Alpha. He is extremely over protective of the girl he secretly loves, going so far as to buy the building she lives in so he can monitor her comings and goings (hello, Christian Grey). Yet after she suffers a debilitating panic attack, he hightails it out of the country, leaving her to deal with it by herself? Another abrupt about-face.

Because I could not relate to the characters due to their inconsistencies, their romance fizzled out for me and

I could not continue with this book.
