Redemption Chloe Cole

Amber Jansen is losing her mind. After a near tragic run in with a psychopath, she's trying to go back to life as she knew it, but she can't seem to shake the feeling that something is still terribly wrong. Plagued with nightmares and panic attacks, she wonders if she's buried some important piece of information in the depths of her mind. Information so disturbing that remembering it could destroy her...

Wolf shifter Billy MacKenzie has lived by one rule and one rule only: The pack comes first. Always. But when Amber Jansen accidentally sees something she shouldn't have, he feels an unprecedented desire to protect her from the powers that be, who would rather silence her forever than risk being exposed.

If he breaks the laws of his kind to shield her, he'll leave himself vulnerable to the one woman he wants but can never have.

Billy is keeping tabs on Amber after she was held prisoner by the man who kidnapped Chandra. Billy changed to his wolf form and Amber saw him, so now does he allow her to lose her mind and chance outing them to the human world, or will he do the right thing and go against the laws of the shifter world and let all hell break loose? MUST Read book 1 and follow along with this series.

Cheri says

Another captivating story from Ms. Cole. I love the way she takes a character that has been less than heroic in one book and turns her into a sympathetic even one you have to root for as the main character of the next book in the series. So it is with Amber, in the last story book 2, she was inadvertently the cause of our heroin's kidnapping.

Here Amber is trying to comprehend what she saw--it couldn't be what she thought. There aren't such things in the real world--are there? Is she losing her mind? Billy knows his carelessness is the cause of her distress and the danger she is in by not only his pack/family but waring factions nearby.

There is another complication--he wants her. He really wants her. Where does his loyalty go--to his family, to this woman? Can he somehow meld the two? He's a werewolf, at a time when humans are not allowed to know about them to preserve their safety--on both sides.

Read their story and see how it unfolds. Watch the surprising growth of character and the hook Ms Cole uses to make us want to read the new book number 4 coming out December 17 available on preorder. I have already ordered.

My favor in the series.

Amanda says

Just wasn't connecting with the characters in this one.

Each story gets better! Loved Billy and Amber's story.

Judy Lewis says**Fantastic Read !**

I am officially a fan of the Montana Wolves Series. I have followed this series from Book 1 and each book gets better than the last. Powerful story! Smart easy dialog! Engaging cast of characters! All that and a whole lot more! Sexy wolf shifter, Billy, tries to fight his attraction for the beautiful human, Amber, who also feels the strong pull to be with Billy. Will Billy be able to protect Amber and his pack or will both Billy and Amber fall victim to their desires and lose everything including their lives? Will love and loyalty find a way to intervene and help guide fate in a new direction? Great entertainment!

Natalie says**Redemption: Montana Wolves**

These just get better and better. For a moment there I thought Amber would be bitten. I'm glad Amalie finally got her revenge.

Suzanne Cotton says**Great read A++**

Love this book, Billy and Amber are a great couple who overcome some great obstacles. Ms Cole once again tells a great story. I'm looking forward to the next book in the series.

Jeeze....these shape-shifters are all so dreamy/hunky....I am flying through these books. Who wouldn't want the love of a man/werewolf who would give up all he knows/loves for you? These wolves just keep getting better and better....

...I can't wait to finish these series....

....Happy Reading!!!!

Each of these stories improves on the one before. I really enjoyed this one. Billy is a sweetheart and Amber

is a mostly strong character dealing with the unbelievable. I thought her response to the idea of werewolves much more realistic than that in most paranormal books. She does have a really TSTL moment near the end where I wish Chloe had made her a bit more effective but on the whole I liked her and the 2 of them make a good couple.

I read all four of these stories in one afternoon and they made for a good light read.

Book 3 of the Montana Wolves series. This is Amber and Billy's story. Can't go wrong with this one. You are drawn into the story unable to put the book down until the last page is read. Great job Chloe!

Kimberly Walden says

Standalone wolf shifter book in series

Kindle Unlimited book. 3 1/2 star read. We met her in the last book, she tried to get info on the pack. He can't stop thinking about her. Can he save her from what will happen if she keeps digging into what she saw?

I was given an ARC by the author for an honest review

Ohhhh finally Amber and Billy!!
i so knew this book would be freaking awesome!
Hot as hell and filled with action and finally redemption for all of them!
can't wait for more!!!

Sydney Hopke says

This book picks up where book 2 leaves off and is Amber and Billy's story. Amber thinks she's losing her mind after what she thinks she saw in the last book. Billy can't get Amber off his mind and can't stay away. Another human in the pack makes for trouble again with the other packs. What happens shows how much a family the pack is. The books keep getting better and I can't wait to read the next book.

Eva Millien says

Billy MacKenzie lives by one rule, the pack comes first but when Amber sees something she shouldn't have he'll break all the rules to shield the woman he can never have in this thrilling paranormal romance.

Amber Jansen made some poor decisions when she unknowingly betrayed Chandra, but she's convinced she is paying for it with her sanity because there is no way that saw what she saw and the reader can't help but get caught up in the story as Billy tries to protect and maintain their secret but his desire won't be denied and soon he's giving in to his instincts and his wolf. The characters are strong compelling and grab the reader's attention from the very beginning of this fast paced and smooth flowing plot full of suspense, excitement and romance.

There is never a dull moment as Billy and Amber both are faced with emotional angst over the situation they find themselves in and pulse pounding excitement builds as the danger escalates and a rival pack takes exception to Billy's solution regarding Amber. Tensions build throughout the pack as the consequences of Billy's actions threaten to tear the pack apart as well.

This series just keep getting better and better as I found myself on the edge of my seat awaiting the conclusion of Billy and Amber's story and I can't wait to read the next one.
