## **Wrecked Alla Kar**

\*New Adult Contemporary Romance. Intended for mature readers!\*

One wrecked plane ...  
Two wrecked souls ...

ANNABELLE JACOBS is comfortable with her boyfriend of a year JORDAN FINCH. But Jordan's best-friend BEAU RICHARDS doesn't make Annabelle feel comfortable—he makes her feel alive. One drunken night things get out of hand leaving Annabelle and Beau with a fire in desperate need of extinguishing.

But sometimes the direst of problems need more than a fire extinguisher to stop the burn.

The class trip to Spain was supposed to be fun. But fun takes the week off when their plane crashes over the Sierra Nevada Mountains of Spain. Only a few of the passengers survive.

With loved ones gone, Beau and Annabelle cling tight to one another to survive the hot days and freezing nights. But the guilt of their feelings keep one another from the path they truly want to take.

But sometimes love doesn't take the backseat.

Sometimes love wrecks you before it claims you.

## From Reader Review Wrecked for online ebook

### book junkie says

This author surprises me with every book I fall in love !!! When tragedy hits and ur left to survive guilt can eat you alive !!! Bella and beau fight their feelings due to guilt and it was amazing to go through their journey and for them to realize love is worth fighting for !!! Awesome job Alla Kar

### Theresa says

What do you do when you're in love with your boyfriends best friend? Do you break it off with your boyfriend? Or do you push those feelings aside? Now what happens when your boyfriend dies and you never made your choice. That is the predicament Annabelle Jacobs is in.

I really loved this story and what I loved most was the chemistry between Annabelle and Beau. Annabelle's reservations were understandable due to the circumstances, and I couldn't wait for her to finally come to terms with her guilt so she could finally be with Beau. If she didn't want him I would have been happy to take him from her. He was totally swoonworthy and I wanted to crawl into the book and hug him. Though, he did have his moments where I also wanted to slap him, but those things kept the story interesting. It also proved that he wasn't perfect. He was human.

The ending left me completely satisfied and was probably my favorite part. If you're looking for a fast, chemistry filled book this is it.

### Laura Clark says

OH MY DAYS!!

It's official - I am running away with Beau Richards and never coming back!!

I was gifted Wrecked by the author (Alla Kar - You ROCK!) for an honest review.

And I can honestly say I loved this book - bearing in mind I only received it today and I'm all ready finished!!

Wrecked starts out all about the love triangle between Annabelle (Bella), her boyfriend Jordan and his best friend Beau! After a make out session that almost goes to far the Bella doesn't know how to Jordan and can't make up her mind what to do about Beau - So she does what every girl has done at some point in their life - Ignores the lot and goes to Spain. Only so do all her Spanish class along with Jordan, Beau and her best friend Emily.

Only things don't get that far and their plane crashes leading to a whole heap of grief, turmoil and heartbreak.

I don't like to give too much away in my reviews - but I love the way this has been written from both sides of

the story! And I will hold my hands up and admit that I did get a little bit weepy at more than a few parts!! once you have read it you soon understand too.

Bella struggles with life after Jordan and the feelings that she still has for Beau. Beau struggles with the fact that no matter what he does - he is always going to love Bella no matter how much she ignores him and her feelings.

I would love to know how Bella and Beau got in the year between part two and three - but maybe that's just cause I greedy!! And if I ever find my Beau I hope I realise it before its too late!!

LOVED IT!!!

XOXO

This is my first Alla Kar read, and most definitely won't be my last! This NA read centers around two characters who have suffered through one of the most horrific tragedies one can imagine: their plane goes down. I'm not a happy flyer myself, so the scene where the aircraft went down was especially intense for me, lol! I felt the aftermath of the crash was well-written and believable, and the angst and longing the two main characters suffered, heartbreakingly.

Let's talk about the characters. I fell in love with Beau right away. I love me a strong, self-assured "Bad Boy", and Beau fit the bill perfectly. I melted every time he referred to Bella as "Dove", and I loved how alpha and protective he was when it came to her. Definite book boyfriend material, peeps! And did you all see his likeness on the cover? DAYUM!

My heart ached for poor Bella, who spent the majority of the story battling her feelings. Haunted by a heaping case of guilt, she's plagued with nightmares, and walks around in a perpetual state of numbness, refusing to accept the love Beau openly tries to give her.

I felt Beau and Bella's story arch was well-done, and it was tied up nice and neat at the end with a HEA that left me satisfied. The supporting characters rounded out the story nicely. I'm a big fan of Taborie. I felt he added some much needed wisdom and support with the way he related to both the main characters.

If you're a fan of NA and enjoy a good romance with angst and suspense, then this book is for you. Good stuff!

### **Lori Clark says**

I literally just finished reading this book and had to get the review posted right away. This is such an unbelievably great book. I loved Beau and I loved Annabelle. What a truly difficult situation they wound up in. They were in love with each other all along. Beau graciously stepped aside for his best friend. We don't really get a chance to know Jordan in the book. But he was a good guy. Bella's heart just didn't beat for him like it did Beau's. And then after the plane crashed -- well then what? The guilt they carried around for surviving -- how could they possibly acknowledge their feelings for one another after THAT? It would be hard for me to find something about this book to criticize, so I'm not going to even bother trying. It was well written. Well paced. I loved the back and forth chapters from Bella and Beau's POV. The only minor issue I had with the book was Beau becoming a bit of a jerk/man-ho. I get the reasons, I just don't have to agree with them. :) Still, all in all, a very solid 5 shining hearts from me!

one of my biggest fears.....plane crash!!!! I can't imagine what Beau and Bella went thru. the crash and their love.... what a great story!!

---

### **Alla Kar says**

I've had this idea in my notebook for a while now. And when I realized I had a small amount of time before my next book was due to my publisher, I figured I would take the chance to write it!

And I'm so glad I did! :)))

Annabelle and Beau's story is one of my favorites so far. It touches my heart dearly! I can't wait for everyone to be able to read it!

Thanks to everyone that gives my work a chance!

I'll always appreciate every book sold! :)

Happy March!  
Alla Kar <3

### **Tatania says**

I got an ARC from alla!!! Thank you somuch to trusting my review for this story

So anyway here's my review

I read this in like one day because i can't put it down and i'm too clingy to know the ending  
How's the process

Like every alla's story, short, simple, nice, and beautiful story

There's drama there but not the harsh one, meaning that is not the point that alla wanna share to us. She just wanna show us how beau and bella went through this together and how finally they could be at the end  
No comment for beau. If only i could know more about him instead his shy behavior. It's lamentably that he just too late for everything

I always had a thought what if the airplane didn't crash, what if jordan ended up forever with bella?

I bet beau will always be beside them until he thought that he needs woman in his life not for love because his love just for bella, but to complete his goal in life. Ouch. Hurts. But it's true.

Beau's love for bella just too innocent and beautiful as the way it is.

I thought they're going to adopt kat lol

I'm happy for taborine :3

Wish i could read lil bit moment when bella said she's pregnant to beau hahaha

### **Deanna says**

Wrecked was a beautiful story. I felt Beau and Bella's chemistry from the get-go and it never faltered. This book made me teary at times and most definitely played with my emotions. I loved it!

---

### **Shari Kay says**

Triangle. Cheating

---

### **Lisa Miller says**

Spoiler!!

Good idea. Horribly written. Felt like a very young person wrote it. The narrative was better written than the dialogue, which was stilted at best. I couldn't care for Bella at all until the end, but then it was the end and there wasn't enough of them being together. The editing is really bad too. Don't know how anybody can fish with a sphere. Beau sleeping with other girls killed it for me. Bella may not have been one of my favorite characters, but he was supposed to be madly in love with her. Cheaters do not a likeable character make.

---

### **Frances says**

I have no clue how authors choose the covers for their books, but this does not go with this book. This book was way different in the way the story went. I mean it's a plane crash, never read a book where that's been involved. The rest of the story was interesting. I enjoyed the characters. I feel like the beginning of the book was put together just right. The end however, kind of sped up and just happened way too fast. The beginning was very detailed, but the end was rushed. I feel like the end should have maybe been more detailed than the

beginning. Overall, I enjoyed this book.

**Alma says**

4,5 stars

---

**Jennifer Tabler says**

Great story I love any story that has to do with an accident and survival. I wish the story was more about them on island. I really liked all the characters in this book especially Beau, he was a sweetheart. Overall great read and worth your time to read.
