"Will you marry me?"

Most women would love for Luke Walters to ask that question. But when Misty Handlin can't seem to find the right answer, Luke offers a new proposal.

"Go sow your wild oats this summer, then give me your answer."

Knowing she's struggling with the unanswered questions regarding her first love, Misty decides to do just that. Maybe some time with the man who stole her heart all those years ago will finally quell whatever is holding her back from Luke.

Kellin Patel was forced to leave Misty behind when he was twelve years old. While the U-Haul pulled away from the only place that felt like a home, he wasn't sure if he'd see her again. As the years went by, and time never seemed to be on his side, he finally began to accept he would never have another chance with Misty.

Now, all grown up, Misty is back and looking for one last wild summer with Kellin. Though their lives have continued to move in opposite directions, they'll realize one thing has Always remained the same: They've both been holding on to the memory of first love and unspoken regret.

Who will Misty choose to spend Forever with?

## From Reader Review Always Forever for online ebook

### Cassia Brightmore says

Cheryl McIntyre is one of those versatile authors that has the ability to make the reader **cry big fat ugly tears, experience unimaginable heartbreak, pace around in frustration - and most importantly, she has the ability to make you fall in love.** And that's exactly what I did with this book, I fell head over heels in love minutes into the story. Always Forever focuses on the lives of Misty and Kellin. They first meet each other as children and then spend the next several years weaving in and out of each other's existence. Each time they cross paths, they get that one step closer to almost making their feeling for each other a reality - however fate intervenes and it slips from their grasp everytime. I'm a firm believer in love and I believe that everything happens for a reason, that we have to make the most of each opportunity as its presented to us. For Misty and Kellin, their last attempt at turning their friendship into something more ends in catastrophic results. The two drift farther apart, and the years pass again.

Set to enter her last year of college in Ohio, Misty has worked hard the past 3 years to let go of Kellin and the pain he caused her. Finally moving on with a great guy, she finds herself in love with Luke. A handsome, successful boy a few years older than her - he's ready to settle down and move on with the next phase of his life. And he makes that quite clear when he proposes to Misty after just a 10 month relationship. Now, you're probably thinking - what's the problem?! He's rich, successful, hot - and he wants to marry her! All that is perfect on the surface, but Misty's **heart and head are singing two different tunes.** Sensing her hesitation, Luke suggests that Misty spend the summer "*sowing her wild oats.*" To return to him before the school year begins again, ready to start their life again. Misty knows exactly where she will go. To Chicago. To find Kellin..

Kellin Patel has learned to **live with regret.** He made a colossal mistake 3 years ago and it cost him an amazing girl he was halfway in love with. Flitting from one relationship to the next since then has diminished his self worth, left him wondering if he would ever find the love and romance he is desperately craving. Burned from his latest relationship failure after having just found out his girlfriend cheated on him, he has about given up hope. Deep down he has been punishing himself for years over hurting Misty and breaking her heart. When she suddenly pops up out of the blue in front of him, not only is he shocked to see her, but his heart leaps at the chance to redeem himself and win back the girl he's always loved. When Misty and her best friend Sadie agree to accompany him on camping trip - it's like nothing could go wrong. It seems they are both set to get what they want, Misty - a chance at answers. Kellin a chance to **win her heart once and for all.**

I loved the romance of this book. They way the two **intertwined throughout each other's lives appealed to me**, even though they never had the best outcomes. When they finally reunite and embark on their camping trip, its like all the stars aligned. Unfortunately, they are both so stubborn - they don't realize that what they want is staring them in the face, quite literally in those small tents. I wanted to grab the two of them and smash them together, screaming at them to get their heads out of the sand.

This story is true love in its finest form. When Kellin learns of Misty's pending engagement, I actually could hear his heart crack. The more they are together, the more they both can't deny that the feelings are still very real between them. The countdown to the end of the summer is maddening, with us left wondering what Misty's choice will be. Can she trust her heart to Kellin again? Or is her future better set with Luke?

But this is a Cheryl McIntyre book so we know that we will see the heartache again...and we do. Just when I thought it was all set to work out - **a huge bomb is dropped.** One I didn't see coming... One that shatters the world of all parties involved and leaves us wondering how they can ever find their happy ending.

If you love a angsty romantic read, this is a book for you. If you've followed the series, you'll be happy to see the reappearance of some of the other characters, however this book can be read as a stand alone. I recommend reading the entire series as its just that damn good.

As for Misty and Kellin - **what will their Always Forever be?** Eternal heartbreak? The love of a lifetime? Pick up a copy and let them tell you their story.

Unable to accept a marriage proposal, Misty is given the summer to go wild before she settles down. She decides to go back to the boy who stole her heart, Kellin and demand answers.

I love this series but I struggled with the first half of the book. It did get a bit better but then **that** had to happen at 78% \*facepalm\* I didn't like the direction of the story.

Maybe if I read this book when I was in my NA mood last week I might have enjoyed it more. Not that it was bad, I know they are young but **ex drama, mistakes, misunderstandings** are not the type of books I enjoy. Sorry!

I have loved/stalked Cheryl McIntyre since I first read Sometimes Never, and with every book she has released, I've loved her more. Her writing style and knack for story telling immediately hooks me, and keeps me entertained from the first page to the very last, and the family of characters that she has created in this series is one that feels like a part of me, and one I never want to have to let go of.

I have been waiting so long for Misty and Kellin's story, and as soon as I started reading I was filled with this intense emotion. Not because the story at that time was particularly emotional; but because over the years, I've seen these characters grow, and to be back with them at this point in time brought tears to my eyes.

Now, although I had a slight meltdown at the start, the rest of the book I had pretty much a constant grin on my face. I'm pretty sure I've never smiled so much whilst reading a book as I did throughout Always Forever. I read, I laughed, I loved, I highlighted, and I repeated this cycle continuously until the very end.

This book absolutely can be read as a standalone, but being completely honest, you would miss out on an incredible series if you only read this one. The journey of the Sometimes Never series is one that should be experienced in its entirety for you to get the full impact of each set of characters story like I did. I promise you won't regret it!

I think it's safe to say that although I have loved every single book in this series, Always Forever would have to be my favourite. I'm **STILL** grinning whenever I think about Misty and Kellin's story, and I'm completely swooning over Kellin Patel all grown up!! Oh my, that guy certainly takes after his big brother in winning over hearts and taking over book boyfriend lists.

Now that I'm another book down in this series I'm filled with a sense of melancholy. We have a novella for one of my favourite characters, Guy, that has already been released, but then after that? I have no idea whether the author plans to write any more books for these characters, but I will hope and pray that she does. I would love (and I mean **LOVE**) to see Sadie and Roh get a story. And I mean, the twins have to grow up at some point, right? I'm kind of grasping at straws a little bit here, but work with me Cheryl!!

But until the day I hope for comes, you can find me living in the land of blissful ignorance, where I refuse to acknowledge the possible end of one of my all time favourite series, and continue to get lost in every single book that this amazing author releases.

Always Forever was just...**beautiful**.

I loved all of Cheryl's books and this was no exception. She just has a way of writing that pulls you in and you end up never wanting to leave.

Kellin and Misty met each other when they were twelve and thirteen and they've loved each other since but life got in the way and split them up. It was completely heart breaking getting inside their minds and knowing getting together isn't going to be easy.

I absolutely loved everything about this book. From Hope and Mason's wedding, Roh and Sadie, the camping trip, all the small things in-between and then the ending. God, that ending had me smiling like an idiot. I love HEA and you get that here. There are some scenes that had me tearing up because I just wanted everything to be okay and I loved them too. Everything here just works.

You can read Always Forever as a stand-alone but it's completely worth it starting from the beginning of the series with, Sometimes Never, Blackbird, Before Now, Long After.

I highly recommend this book!!

I seriously do not know how this woman does it. Always Forever was probably my new favorite book of Cheryl's. Every book is more amazing and beautiful than the last. It's so hard to pick a favorite. But I 100% without a doubt know I want to be part of a Kellin and Roh sandwich ;-)

I loved getting to see some of our favorite characters from past books and meeting new ones. I loved Kellin. The name alone makes me love him and he pretty much put my other fictional book boyfriend Kellan Kyle to shame... he gave him a run for his money and he did NOT disappoint. Roh, oh Roh.... he kept me laughing the entire time and I seriously am in love with him. And Sadie, I truly hope we get their story next! and Misty I loved. She was adorable and such a wonderful character. I love a second chance at love kind of book and this was everything I expected and so much more. It made you laugh, happy, sad, it was truly raw and beautiful. The writing was impeccable and flawless. And the plot alone is very intriguing and that alone captures your attention and does not let go until the very last page. I had to actually slow down, I didn't want to finish and then I couldn't help myself. Sigh. I will be re-reading this by the end of the week. The scenes were amazing and touching. Her saving milk for him, the nerf wars, it was just simply a beautiful phenomenon.

The book starts off and Luke is asking Misty to marry him. He gives her one summer to make sure he is what she wants and to settle any unresolved feelings. And Misty knows in order to move on she needs to take that chance and get over Kellin Patel. Kellin is going through a tough time and recently breaks up with his cheating girlfriend and Misty shows up and they decide to take a camping trip with their friends Sadie and Roh. The entire encounter is amazing and hilarious. The two are getting to the bottom of things that happened in the past and trying to be friends. But circumstances are against them and the pull is strong. The two start to fall all over again so Kellin makes Misty another proposition. To stay the remainder of the summer with him. And she does, but soon things start to go wrong. Can they finally have a chance at happiness or will unforeseen events and circumstances keep them apart yet again? you will have to read to find out.

"You run, I run with you."

"And she's your ex. I whacked it- past tense- to fantasies of your now ex girlfriend."

"I lied about the toilet seat thing, so it's okay. We're pretty s\*\*\*\*\* roommates too."

"You said you fell in love with her again. Love doesn't work that way. It doesn't run out and need refilling. It's like a well. You draw from it. But the supply is endless."

"My four-leaf-clover?""Hard to find, once in a lifetime, once you have it you hold onto it, etcetera."

"We all get old, fat, and wrinkly- if we're lucky enough to live that long. And then someday, we all die. I want to get old, fat, and wrinkly with you- my best friend."

OMG-----I LOVEDDDDDDD this book. I was just going through some that I read, I keep a log of them all so I can watch and hope for others in the series. And I came across this one yesterday, I started it then. I am so glad I did, because it was awesome, just like the rest were.

I just loved Kellin and Misty's story. And all the other characters from the previous books being in there was awesome, and a bonus.

I loved all the characters in this book; even Luke. He was such a sweet, understanding, gentlemen.

This couple was long over due, getting together. I am so glad they finally found each other and happiness. That is true love.

Can't wait for the next book to come out.

Honestly--not sure I will ever be able to look at Nesquick again, without a smile on my face. Because I went to the store today, saw it on the shelf, and this book came flooding back, lol.

Thanks Cheryl McIntyre for another great story, that captured my heart!!!

Always Forever is the 4th book in the Sometimes Never series, however, it can be read as a stand alone book.

We met Kellin and Misty in Sometimes Never. Kellin was Mason's brother and Mason's girlfriend, Hope, was Misty's foster sister. Kellin and Misty hung out when Mason was hanging out with Hope. But then Kellin, at age 12, was forced to move away with his mom, leaving he and Misty broken hearted. This is where we left off on Sometimes Never. (Not to worry, new readers, we get the back story in Always Forever.)

Always Forever begins with a proposal from Misty's boyfriend, Luke. Nine years older, Luke is established in life and knows what he wants--and that is Misty. However, Misty is not sure she is ready to get married. Luke assumes it's because she is so young and tells her to "Go sow your wild oats this summer, then give me

your answer." Thus leading to quite a camping trip with Kellin, his best friend, Roh, and her best friend, Sadie.

What I love about Cheryl's books is her character development. And it's never just the main character(s). She always makes her secondary characters feel like the main characters--if that makes any sense. I loved Kellin, but I LOVED Roh! I really "liked his brain." The emotion Cheryl delivers in this book is amazing--as it is with all her books. But the desperation she portrays for Kellin is off the charts. But Cheryl always has a way to balance the serious with humor and Always Forever is no exception.

One more novella to go--Guy's story--and this series will be finished and I will be very sad! I have it on good authority though that Roh will get his own book. I know Cheryl has other books in the works but I cannot wait. Anyhow, if you are a fan of the Sometimes Never series, you definitely want to read Always Forever!

The most gorgeous writing and the deepest love I have ever read. THIS is why we authors write. To create something this beautiful.

Once I finished it, I literally bawled which, believe it or not, says more about the story, the characters, the depth, the angst, the love, than it does about me right now. I love Cheryl's series Dirty so much, but a girl can love different styles. Where Dirty was gritty and raw, unapologetic in its ugly, passionate reality, in Always Forever, Cheryl is back to her New Adult roots. SPOILER: There IS no better HEA than this. There is no better love—Mr. Dee, do you love me this deep? Please tell me you do! :))

And at the tail end of it, when I was actually a bit grieving with the loss of the novel almost being over, she threw me a bone: a promise for another story I'm absolutely giddy about. #stopsrambling

### **Three Chicks says**

Misty is twenty one, in school and is now breathing easy because she has just finished her finals and is looking forward to a break from college over the summer. Her boyfriend Luke is a great guy. He's almost 30, is a financial trader and is financially secure. He surprises her one night with a marriage proposal and one seriously large piece of finger bling. But Misty can't bring herself to say " Yes." When she tells him she has to think about it, he asks her if it's because she feels she still has some wild oats to sow. Her hesitation makes him think this is what it must be about. He thinks she should spend the summer getting it all out of her system, but come back to him after the summer is over and they can start their life together. I found myself thinking what man wouldn't mind you sleeping with other guys over the summer just as long as you come back to him???

When she lets herself think about what is really holding her back, she is honest and admits she never got over her feelings for Kellin Patel, Mason's brother and Hope's brother-in-law. (these characters have been in all

the previous books) She makes plans to spend the summer at their place, she just hates leaving her best friend Sadie, who is a real pistol and has no filter when it comes to speaking her mind!

A few years earlier at Hope and Mason's wedding, Kellin just about destroyed her heart. She was thinking that they would finally be getting together and become more than friends. They have been in and out of each other's lives for a long time, but have never crossed that invisible line. Kellin misunderstood something and set out to hurt Misty by sucking face at the wedding with another girl. Misty saw them, felt her heart crack, sucked it up for the wedding and never saw him again.

Meanwhile, Kellin's girlfriend, Kelly, has just broken up with him. She was cheating on him with her ex. They had been getting ready to take a vacation that Kellin has been planning for years; camping from state to state, with no thought but hiking, fishing and swimming. He and his roommate Roh were going with her and one of her friends. No way can he afford to go now. So his heart is hurting and he is out the trip he looked forward to going on. When he meets up with Misty at his brother's, he is shocked to see her. When she hears about his predicament, she offers to go, along with Sadie. Not sure who is more surprised, Kellin, or Misty that she offered.

The four of them set out and it's awkward and tense. Their past is always with them. Kellin admitted to himself a long time ago that he made a big, immature mistake with Misty that he didn't know how to fix. He has had a series of relationships that have failed since then.. It's only through games of Truth or Dare that the past is discussed and their old feelings come to the surface.

But as wonderful as it seems things are going, these two have relationships that are still very much present. When Luke comes to her and tells her he doesn't think this idea of his can work without slowly killing him, Misty is forced to look at both men in her life. When Kellin's ex comes back with some interesting news, everyone's life is rocked.

This is a great addition to the Sometimes Never Series. There were some angsty moments, and I honestly am not sure that I could be as understanding as Misty was about Kellin's situation. But fictional characters have more tolerance than I do!

They are both good people, and deserved to find their long awaited HEA's.
