There step dad is involved in american spies and teh terrorists think that by killing them, they can get their dad. But the family must vanish forever to keep safe.

Gingerich Family says

I liked how it is a mystery book. You never know what is happening next. It kept us on edge.

Geneva Schepers says

In this book of Bryce and Ashley's mysteries, Ashley finds a mysterious note on her locker that is from a mysterious admirer. As Bryce investigates that, he notices a strange car following them from a distance. As things unfold Bryce and Ashley come face to face with Asim Ben Asawe, the man who killed their real father.

Taylor C. says

I love the Red Rock Mystery series, but I just cannot get over this book. There was almost no closure at the ending and to see Bryce and Ashley move away from Red Rock when they had finally settled in was devastating. I wish there would've been a follow-up to see what happened with Marion, Boo, Duncan, Lynette and the rest of the gang -- after all the twins have been through, that would've been the perfect cherry on top. But I guess life doesn't always wrap up so nicely, so kudos to Jenkins and Fabry for making the ending so symbolic of real life.

Sarah says

Loved all the books and all of the cliff hangers in them love how they help you in your walk of faith and relates in a way to how a Christian should act in there shoes and give everyone a chance

Brenna says

I never get tired of reading this series. I have read almost every book three times. This one is definitely my favorite! I never expected for them to have to move at the end. That was sort of sad. I recommend this book and series for sure!

Cassandra says

I think this was the best book of the whole series. It was pretty intense at some points. I am pretty disappointed that this is the last book in the series, though.

Michaela says

This is a great finish to the series, but it is a very sad ending.
