There are five things that I hate:

- 1.) Arrogant Guys
- 2.) Guys who have girls falling at their feet and they proceed to use them
- 3.) Guys who assume everyone loves them
- 4.) Guys who ride motorcycles
- 5.) Strawberry Ice Cream

And Grayson Carter just so happens to be 4 of them. Even his name sounds like a celebrity's: Grayson Carter.

The boy is everywhere; he lives down the street from me, he goes to my school, our mothers are even longtime friends yet he doesn't even know my name. The only place I can get away from him is my part time job at the library and the day he comes sauntering in looking for a job is the day I just might go insane.

Saki says

Ooh that was fun.

Het says

The story and writing have great potential but currently it is a torture to read. Vast improvements can be made.

Sidra says

i love you grayson carter

su says

Made me feel tingles that went all the way to my finger tips... & that's a big yes yes for me.
Also, i know a good book on how it makes me feel & how it makes me forget reality completely.
I read it 3 times I still love it

Mayisha says

One of the best books that I have ever read! I loved every single character in this book, besides Natalie(those who read the book know what I am talking about) and like overall it's just a really enjoyable book to read.
Makes me wish that I was part of those character's life. If you haven't read the book then you MUST!

Min says

Oh, I really wanted to like this as much as Becoming Beautiful. It was another cute story with lots of humour and sarcasm (though not as much as BB), but it didn't quite do as much for me. The ending was a little too abrupt.

Holly says

the book dragged on n onbut only the humour made it tolerable.

KittyKat says

A really cute and enjoyable story that wasn't too cliché.

Norpio says

4.5 stars

Very short cute love story.

Genni Eccles says

More like 2.5 Stars. This was another wattpad read as well. I liked it, but I didn't love it and had some problems with it. I really liked the story, I just could not connect to Audrey that well. If you're looking for a super quick read to get you out of a reading slump, I would recommend this to you. The same author has another story on wattpad that I actually like better, named *Forever and Always, Olive*.

Chantelle says

Fun, cute short story but a bit dragged out.

Katie says

Mmmy God this book was so good. Loved it. I could literally never put it down. It cause my sleep deprivation. It will make you fall in love the characters. There's parts where you will yell at the characters because that's just how into it you'll be. Go read this right now!
