Fallen Idols Box set

By: Savannah Rylan

3/5 stars

I first started reading this series as the separate novellas, but when I realized how many novellas were going to be in the set, I quit because of the cost it would have been.

I like the characters and the story, but there is just so much going on and reality definitely has to be suspended while reading this book. So that took away from the book & caused a lot of eye rolling. The book is about 3 couples and their stories are told 1/3 at a time, but the story runs concurrently throughout the whole book.

Had some good parts but needed more

The only reason I finished this series is because I wanted to see how it ended each main couple was featured every 3 books and left you hanging until the end

Sue says

Pretty cool little biker series with several couples featured and all for the low price of 99 cents. I liked that the stories were all back-to-back so you didn't have to wait to find out what happens next (they each end on cliffhangers) and the relationships between the couples (brother to brother and woman to woman) were interesting... if perhaps a bit too simple and not enough background revealed.

If you want an easy read with some violent club business and LOTS of sexy time...you'll want to grab this box set while it is available as a deal.

**** 3.5 **** "secrets, lies and family" stars

Glad it was all together

Interesting read. There is much back and forth between all the couples. You get 5 chapters with this couples POV and the another 5 with a different couples POV. It gets confusing at times and I liked some couples

better then others.

I am glad I read this in complete form. Each one is like 50-75 pages long and they would have left the reader in a pissy mood.

There is lots of action and hot times. It has the can't put down till your done feel.

Enjoy.

Amazing!!

I really loved these books. I would have given 5 stars but some proofing is definitely needed. The storyline is great and made me keep going to find out what kind of mess the club would end up in next.

Good MC Read

The plot was good. It keep my interest throughout the book.

When I first started the book and saw the couples was broken up over a series of books and not consecutive I was sure I was going dislike the book. I wanted to be able to read each couples story consecutively not back and forth between the 3. With that being said I was very surprised the story line and bouncing between the couples work so well for this book series.

This series follows 3 couples Trista and Blaze, Axel and Paige, and Ryder and Sawyer. Each couple does have a HEA. There was plenty of on the edge of your set scenes and steamy love scenes.

Great!

I chose this rating because this was a really great book. The characters were very intense and interesting. They were no-nonsense MC. They didn't take any miss from anyone. But they were all about loving their women's though. This was a really interesting book. They were always there for one another and they had each others back and I really like that. There was a lot of loving going on. Great read. I recommend this book to all romance and MC lovers.

I found the beginning a little slow but kept on reading and the story improved at the end.

Box set its is best.

3 Star Kindle Unlimited Read

I really liked this box set. Had I read the mini-episodes individually I would not have liked it as each mini-episode abruptly ends. However as a complete book it rocks. Up until the secret phone call, I had pegged the obvious prospect of being the trader. However, his Shit was different.

Debbie says

Wow!!!

What a great series!! I just absolutely loved it!! I can't wait to read more from this author!! A definite must read!! Happy Reading!!! :)

Cheryl says

First time reader... What can I say. I'm glad that I could buy the complete collection. I actually bought the three boxed sets and devoured one after the other. I'm glad I could because I read roughly a book an hour.

I liked the stories the characters were good and each set highlight one of the three main couples. I think I would have ended with an epilogue and it was slightly different to what I would have expected. my ending was intimated. It was worth a read...
