Final Capture Dawn Steele

MY EYES ADORED YOU, THOUGH I NEVER LAID A HAND ON YOU.

That's what Alyssa Foley, FBI interrogator, is feeling when she gazes upon her latest detainee, Rust O'Brien – tiger shifter and the most extraordinary man she has ever met. She is required to mete out both pleasure and pain to him, but she finds herself conflicted by her job and her growing lust for him.

But he is not hers. He belongs to college student, Kate Penney, who is pregnant with his child. Kate will stop at nothing to be together with Rust again.

Together with her old adversaries, Kate hatches a plan so cunning and devious and enormous that it astounds in its simplicity.

But the best laid plans have a way of going terribly right . . . and wrong.

This is the fifth and final novella in the electrifying ALPHA MEN'S SECRET CLUB series.

I'm so sad it had to end...but what a story

I am enthralled with Rust and Kate's story(except for them losing the baby). This was truly an exciting series. I could not put it down until I finished. Every time I received a notice that the new book was released I immediately brought it. It is a must have and not a must borrowed series. Ms. Steele captive and pull you in hook line and sinker. Love, love,love this series and all her books! I only wished Alyssa would have told them she had a baby out of their "experiment."

Nate says

Wow...this ending thru me for a loop. Not sure I liked the direction it took...wow, still in shock I guess...

Lynn says

Very disappointed by the finale.....

SPOILERS:

The vicious hateful monsterous woman who tortured Rust gets to have his baby secretly, while the heroine who suffered through everything including watching her love have sex with this monster while having to participate loses her child.

The author threw us a bone that in the end Kate was pregnant but it was thru invetro and after suffering two more miscarriages and the monster is happily ever after with her perfect baby hiding I am sure to swoop down on the couple at some later date. Very disappointed, wish I had stopped reading at part 3...then I never would have known about him and Shalimar in the bushes nor the 3 way monster getting her jollies fulfilled (along with a bay for her bad deeds) after lustng over Rust while she did everything to destroy him and because they were in her custody she also is responsible for the death of his parents and Kates miscarriage. Hated it... very very much.

Finally at five

Yes, I admit it I read all five.....I just wanted to see where this story was going to go. The story was so shallow and the characters were less than one dimensional. This is about a half step up from those Penthouse short stories. Come on the who or FBI section, then screwing the agent and then the pregnancies? I just shook my head at the end.
