# From Reader Review Legend: The Life and Death of Marilyn Monroe for online ebook

## C says

An in depth, fascinating book about Marilyn Monroe.

---

## Steve says

Mid 3. Detailed and informative, this biography charts Monroe's tragic story and provides great insights from her beginnings as Norma Jean. Yet, at times this is too traditional a biography in its structure and doesn't really capture the screen icon and sex symbol's allure.

---

## YAK says

I was stunned by all the deatails of the movie industry and how it's affecting the life of the actors ... learned a lot about Marilyn as well as the backgrounds ...

---

## Amy says

A fascinating subject but the biography was wordy to the point of getting lost.

---

## Marty says

Always interesting to read about Marilyn. I still think she was murdered, and more comes out as time goes by, and the principal people are no longer living to punish.

---

## Elaine Duree says

I learned Marilyn was a woman who was confused about what she wanted. She worked hard to try to understand what it was she would want in life. She gave up on life becouse she became clouded.

---

## Inessa says

best biography about the life and legend. the intimate details make it worth every second... great for those who aren't even a fan.

---

**Benjamin says**

I have always wanted to read a biography on Marilyn Monroe, but wanted to make sure that it was as factual as possible, without any conspiracy theories and such like. This one is not perfect, but definitely gives a good insight into the life of a very unique and very troubled woman.

---

**Amy says**

Very detailed recap on this gorgeous woman. I feel the writer has written a very fair account on her life as well as some conspiracy theories on how she passed.

---
