## Margaret Sholders says

This was a good quick story from Becca. It is a good firefighter story. I learned a bit from all the fire info. This is a big family story. Hamilton is a good basketball player and he came home as his mom is dying. His house is burnt down and he is in a coma. Audrey is his aunt and his lawyer. She raised him and his sister. She meets Will, a fireman who wants to help her close the case. There is a lot of action between those who want to put him away and those who want to prove him innocent. I liked this book. I hope you are interested enough to give this book a chance. Enjoy your reading!

I won this book in a Goodreads Giveaway in return for my honest opinion. Well here goes...

This is the first book that I have read so far by Becca Boyd. I liked this one a lot and I can't wait to see what her other books are like. Once I began reading this book, I couldn't put it down. This book was fast paced and I kind of liked that for this book. To me it was well written and I enjoyed the story line along with the characters. This is a story about a hot fire inspector, Will Johnson, who is investigating a case that involves Audrey Mills' nephew. It's an emotional love story that gets better and better as you read it. I hope everyone can enjoy this book as much as I did.

An intense thriller that I thoroughly enjoyed.

Audrey watches after her older sisters children after she became ill, it's not a problem for her, they are not much that younger than herself, and they all grew up together anyway, she loves them. And it's only natural that she would become their legal adviser when she took the bar. But when she gets a phone call from a stranger teller her that her nephew is in trouble and he will be in a hospital. She rushes to his side and collides right into the mystery caller.

Will Johnson is an arson investigator. When he spies a large bundle on the neighbouring yard of a fire and it turns out to be an unconscious young man, he goes through his pockets and finds a phone. He knows he's putting his job on the line, but he needs help.

A great mystery, very intense and full of intrigue. 5/5

### **Angel Hatfield says**

Great Story and Characters Will Johnson is a fire inspector in the town of Somewhere, Texas. While investigating fire on his day off, he finds an unconscious kid who turns out to be the local college's star basketball player. Against common sense, he grabs the kid's phone and call his emergency contact and warns her what happened. When Audrey Mills got the mysterious call about her nephew, she rushed to Somewhere as quickly as she could. Looking like her nephew is guilty of the fire, she hopes the mysterious stranger will her her uncover the truth.

This was pretty good read. It was fast paced and kept you guessing about who's really responsible. I really liked the interactions between the two main characters. I understood Audrey's feelings towards her niece and nephew as I've also been in the same situation of having to raise one of mine. Everything Audrey had to go through emotionally to let Will in and realize she was willing to even let him in kept you rooting her on.

I recommend this book to anyone that likes this genre and to anyone that is a fan of the books that take place in Somewhere TX.

\*\*I received an ARC of this story in exchange for an honest review

### **Dina Bushrod says**

Author Becca Boyd has done it again. This time, in her "Line of Fire" series, the hero is a Fire Inspector and he's in for some rule breaking moments. The heroine is a lawyer and family member of a possible arsonist whose fire was the cause of a girls death. There are mysteries, surprises, danger and unwanted attraction. But it only takes one action to change your destiny, fate, whatever you may want to call it. When the pull is strong will a strong, law abiding man stick to the rules or follow his desire. Will she use him to her advantage to save her loved ones and as a lawyer can she afford to be part of any wrong doing. Well I'm not telling; get the book and not only will you discover the truths, but a great series and writer as well.

### **Ash P Reads says**

Great story of intrigue and foul play with classic Becca Boyd story telling. Insightful and complex, just like mixed up emotions make you feel. Wishing there could have been more of Will and Audrey but maybe we'll get to see them in another installment.

BUT who was the girl in the house???? or did I miss that clue?

ARC provided in exchange for an honest review.
