Jo (Mixed Book Bag) says

I have been a Lauri Robinson fan for many years and always enjoy her books. With Bridgette Banks and Garth McCain she has once again hit one out of the ball park. Bridgette is such a great character. She is strong and knows how to stand her ground. Garth on the other hand is in the middle of a muddle. He has put the past behind him and as it in the person of Bridgette hits him in the face he stays very confused. Watching the two interact is really fun. Placing the action in Dodge City at the height of the cattle drives is a great setting for the action between the two characters. The threat by the packing houses and the railroads gives the story some interesting historical background. Pick this one up for a interesting look at the old west during the period when cattle drives were common.

Harlequin Books says

"Robinson's newest is chock-full of classic Americana, from the tough but tender cowboy to the heart-of-gold maiden, and from the prickly but protective side-kick to the bad guys who really have it coming" (RT Book Reviews).
