**The Millionaire Maker: Act, Think, and Make Money the Way the Wealthy Do** Loral Langemeier  
**Master the art of wealth building, and make money the way millionaires do!** There are only two things millionaires have that you don't: wealth and the knowledge to build wealth. But that's all about to change. Thanks to "Millionaire Maker" Loral Langemeier, you can develop the same financial intelligence that millionaires use to create, grow, and sustain their fortunes.

Regardless of your income--and in as little as one year--the exclusive wealth-building method in *The Millionaire Maker* can have you generating enough money to

Quit your job and start doing the things you love

Control and then eliminate your debt no matter how much you owe

Live your life on your schedule--instead of your employer's

Loral Langemeier has already shown thousands of people how to tailor her proven wealth-building program to their individual needs, no matter what their financial condition--and she can do it for you too. As a hardworking single mom, Loral developed a process of transforming her income into assets, and assets into income that in turn created even more assets--something she calls the Wealth Cycle. Using her program, you'll learn how to build your own continually growing cycle of wealth by

Engaging in business ventures that generate passive income

Substantially decreasing your tax burden

Forming trusts, corporations, and partnerships to protect your assets and create a nonstop revenue stream

You'll also gain free access to many of the resources and investment advisors previously available only to those who sign up for Loral's world-famous Live Out Loud ([www.liveoutloud.com](http://www.liveoutloud.com)) seminars and workshops. **To live the life you've always wanted, all you need is a sincere commitment to building wealth and a proven system to make it happen--which you'll find only in *The Millionaire Maker*.**

only thing i learned is that i should check into the full self-directed iras. the rest of the book can be summed up in one sentence: quit your job, start your own business, and buy some cheap houses.

## **Paula Quinene says**

Years ago, a good friend made me a personal finance spreadsheet on Excel. Today, I've used the author's info to enhance my original sheet. I really enjoyed how she tied together business finance w/ personal finance. I have added an annual cash flow statement and a gap analysis sheet to my files.

Loral also goes into managing/paying off debt and how to move your cash assets to start a business via specific examples.

## **Thomas San martin says**

You can't expect a book to tell you step by step how to get rich, its unrealistic. All of us have different situations, different opinions, different views on certain subjects. I see a lot of people give these type of books horrible reviews because they're still broke and not any richer after reading them and I find it ridiculous! These books give you a taste of what being wealthy is, they give us a taste of what the wealthy`s mindset is because it really is a mindset. All these books about wealth have a repeating message and that is, "change the way you view money." So yes this book probably won't turn you into a millionaire after reading it but if you are a proactive and positive person there is much to absorb and learn from it, bringing you closer

to wealth.

### **Kat says**

You must read, lest you be taken advantage of! I'm fully invested in this now and it's really broadened my perspective on life and empowered me to take charge.

---

### **Kimberly says**

Let me save you some money.

This is "Rich Dad, Poor Dad" meets "Inc, Yourself" with a little "Think and Grow Rich."

Next.

---

### **Denise says**

Excellent foundation for changing your relationship with money in a positive direction.

---

### **Kevin Cullis says**

Langemeier really gives the essence of being a millionaire: Change the way you think, your mindset, learn to earn. Goes into entities and how you structure your business can make a huge difference in keeping more of the more you earn.

### **Sue Bridehead (A Pseudonym) says**

This book, while full of case studies, is deliberately vague about certain details, probably in an effort to drive queries to LL's coaching company. I am a little more confused after reading it than I was prior to reading it. Entities--oy. I feel like a fool not having one, but which one do I get, and why? Unclear. This book is a sales tool, little more. Not that there's anything wrong with that.

### **Stacy says**

Still felt very theory based despite claims it was practice oriented. The concepts are only going to work once great ideas and opportunities are acted upon, but a person would have to have the ideas and opportunities first. All in all, its inspirational and interesting, but I won't be forming my own corporations anytime soon.
