The Sacrifice

Evangeline Anderson

The Sacrifice Evangeline Anderson

Emma Krist is a dud a person from a powerful line of witches with no magic of her own. Not only that but she's full figured instead of thin, like her gorgeous, talented cousins, and has dishwater brown hair and muddy hazel eyes to match. So she figures there's no way she'll be chosen as the Bloodlust Sacrifice for the new vampire Sovereign. Not that she would want to be what girl in her right mind would volunteer to be a sex slave for a year, giving up the rights to her own body and sexuality to a dominating male who likes to bite? Not Emma, that's for sure.

So when Aiden James calls her out of the crowd, picking her over every other single female in the supernatural community, Emma doesn't know what to think. Now she must begin a whole new life of submission to her new master, giving herself body and soul without reservation...or suffer the punishment for her disobedience. Kept naked at his strange, mirrored mansion, Emma is teased and tortured nightly, her master denying her release and whipping her at his leisure. As he pushes her body to the limit, she begins to wonder how much more she can take.

But Aiden has reasons for the erotic punishments he inflicts he knows something Emma does not. Buried deep in her past, is the key which will unlock her hidden potential. Finding it, however, may ruin everything and cost Emma the only chance at happiness she has ever known as...The Sacrifice.

Author: Evangeline Anderson

Designation: Full-Length, Standalone, NO Cliffhanger, Full-Length, Standalone, NO Cliffhanger (Originally published August 30, 2012)

#vampires #witches #occult #BDSM

My Rating: Five Sexy Stars*****

Paranormal/supernatural romance has been one of my favorite genres for many years, and I'm always on the lookout for a great new author. Several years ago, I was on a sci-fi romance kick and looking for something to read. A friend recommended the Brides of the Kindred Series by Evangeline Anderson, so I decided to give it a whirl. Best decision ever! I fell in love with Anderson's unique worlds, imaginative storylines, and addictive prose. Well, imagine my delight when I learned Anderson also writes paranormal romance. Yes, in addition to writing great science fiction, Anderson also writes sexy paranormal/supernatural romance. But the best surprise came when I discovered most of Anderson's work is liberally seasoned with elements of BDSM. It was love at first bite! And thus began my love affair with everything Anderson writes! Don't get me wrong, I still do my due diligence before every purchase. As much as I wish I could buy every single book my favorite authors publish, I simply can't afford it, which is why I read the sample of The Sacrifice and several of the reviews. And I'm just gonna put out there - I'm sooo glad I didn't listen to the negative reviews for this book. I LOVED it! If you enjoy well crafted paranormal romance with dark, provocative storylines filled to the brim with danger, drama, angst, suspense, passion, steamy dreamy sex, a cast of intriguing supernatural characters, strong, seductive alpha male heroes, and beautiful damsels in distress who need rescuing and disciplining (think blindfolds, lots of foreplay, and titillating spankings), then this book is definitely for you!

Did I like this story? No, I loved it and I loved the two protagonists, dangerous, dark vampire Sovereign Aidan James and lovely, curvaceous twice-eleven (22 years old) witch-dud Emma Krist! Aidan was just the cat's meow! *swoon* And poor Emma, the witch with no magic and no experience with the opposite sex, was just perfect! Emma may have been a dud with magic, but when she and Aidan cross paths, it was magical! Once I started reading, I could not stop. I was glued to my seat, white-knuckling my ereader with my heart fluttering wildly in my chest as the hours flew as quickly as the pages! Would I recommend it? You bet, and I am but only for adult readers who enjoy explicit language, dreamy sex, and elements of BDSM. I understand this may not be everyone's cup of tea, but it was mine! Will I read this author again? Absolutely! And finally, was I entertained? Completely!

Genney Blass says

3.5 stars. Okay, Thought this book was going to make me feel good about it. But It surely didn't. I understand that is was based on BDSM, but the characters felt cold. Emma the leading lady was driving me crazy with her own inquisites in her head. I felt I was back in college listening to my professor is socialogy 101. Eww, not a good memory. Aiden, was exquisite with his Gray eyes and scrumptious body. But there were no chemistry. Emma, with the Why, How, When, Where, was torture. I apologize to the Author, this

was not my cup of coffee.

Aisling Zena says

[involving the vampire Master going down on the heroine while she's on her period. I mean yeah, I get it for him it's probably bloody thrilling (pun intended) but for us mortals reading was quite, well, yucky really. (hide spoiler)]

Theresa says

Illogical and reactive BDSM. Disappointingly, most of it was off page, especially the bondage. Contrived and unfair punishments. Illogical exhibitionism training - sex in front of waiter at restaurant - why not go to a sex club instead.

Lame semi reincarnation story. Moody hero who kept secrets. Snarky heroine with low self esteem. Rushed ending with OTT drama and bad guys. Really boring sex.

Oral and vaginal sex while heroine was on her period didn't bother me at all. Kudos for that.

Sarah Toussaint says

Don't let the cheesy start and the at-first-annoying heroine make you DNF. As I read (listened) further into this, my rating went up. The plot started to take hold and the heroine started to become a little bit more likable.

This book was quite good. And I loved the little world/building we got.

Desperado says

So, I didn't finish The Sacrifice. I did however get really close to the end before giving up because of a few scenes I'll mention in a moment. I like the heroine, Emma. She was spunky, smart & strong-willed. The vampire hero, Aiden? Eh. I thought he was a controlling asshole butt-nugget. I didn't get the BDSM. I enjoy books with BDSM elements, but the way it was handled in the book made Aiden come off as creepy and tyrannical. Even then, TS was good enough to where it kept my interest....until the scenes I'm getting ready to go into.

Aiden, our vampire hero, performs oral sex on Emma while she is menstruating. Not only that, but he then proceeds to have vaginal sex with her...while she's menstruating. O_o I've read many many books (according to GR, 1500+) & while I've read a few involving sex during a woman's cycle, I've *never* read one involving oral sex during a woman's cycle & I hope to never read a book involving it again.

Look, I get it. Vampires lurve da blood. A few vampire heroes in books I've read even mentioned how they

could smell when a woman was on her period. Kind of icky, but understandable. But *going down* on a woman while she's menstruating? DAFUQ? Menstrual blood isn't just old blood but consists of a bunch of other shit I don't even want to get into. It's NASTY (to me). Some readers may be okay with it, but I for one wasn't & this review is my way of giving interested readers a heads-up on what to expect. If they can deal with it, more power to them! Go YOU!

Just FYI....it's Sunday, Bloody Fucking Sunday up in this book.

Suzanne (Under the Covers Book blog) says

Emma Kirst is a dud in the supernatural community, meaning she has zero magic, unlike her beautiful cousins she has never been able to work a spell. So when the yearly sacrifice has to be made, which involves a year of service to the Sovereign, the vampire the rules their area, she knows she will never be picked, it is always the most powerful and the most beautiful woman, things that she is neither of. But Aidan James, the new Sovereign, does chose her, and he is determined that she submit completely to him and has the cane and clamps to get the job done.

I just need to cool down a second before I start writing a review, this was hot! If things like a sexy vampire who knows exactly wield a paddle and some nipple clamps gets you all riled up then you will be feeling exactly the same way once you have finished reading this book.

I love a BBW heroine, as a woman who could do with losing a pound (or ten) I can relate to exactly how Emma felt with Aidan, if a sexy man asked me to strip and parade around naked with only a collar for cover up I would be asking when his last eye test was, so Emma's reluctance was completely understandable. Which, made Aidan's persistence even sexier and he was already pretty damn gorgeous to start with. Together though, they had great chemistry, the sexual tension between them was thick and I enjoyed reading every delicious thing that they did.

This book is heavy on the BDSM though, so if you don't like that this probably won't be for you; Aidan was Master and watching Emma slowly come round to submit to him was incredibly hot. But, I also felt they had a good emotional connection as well, and although this book was obviously heavy on the erotic and romantic aspect and the plot was used as a tool to develop the romance it didn't feel like a bunch of sex scenes glued together to make a haphazard romance.

Another great book from Evanageline Anderson it was sexy, funny, with some really likeable characters and I would recommend to anyone looking for a hot read.

Shanna says

Reaction #1: I really like this book. The heroine is relatable and the plotline makes sense (a lot of paranormal romance just tries too hard and it doesn't come together).

Reaction #2: Oh, I see what you're doing here. Pseudo Christian Grey. I gotcha. You did it better than EL

James, though. I think the whole of EL James' BDSM education came from watching The Secretary a couple of times.

Reaction #3: Did I really just read that scene? She was all no...and he was all "yes, I'm a vampire"...and she's all no...and he's all "stop arguing, woman." and she's all "Ok" and then he does it and I want to throw up and I tried to skip past the pages and they won't. stop. talking. about. it. Haven't they ever heard of, "Let's pretend this never happened"? PRETEND IT NEVER HAPPENED, PEOPLE.

BRB, shaking and crying.

Reaction #4: Jesus. I finally finished this by sheer force about 11:30 last night. And, yes, of course we had to talk about "it" again. I'm not sure why. I have no clue why these people are oversharing like a bunch of fools on Cheaters, but I am so glad this is over. I love this author. I've adored most of her books, but this one jumped off the diving board and forgot it's swimmies. Pity, because I liked the plotline so much, but it got lost in the details.

Oversharing kills, y'all.

Amber says

The story was pretty interesting. The sex was... I think if you're into exhibitionism (told in a positive light, without degradation) or a few other kinks (breeding) then this would be super hot. For me, I ended up really embarrassed. Seriously, I didn't know I could still blush like that. Very old, powerful vampire has a dirty mouth though, so that's always fun.

Never Stop Reading or Dreaming says

Sovereign' s choice

The concept of this book was very interesting. However, it needs an edit done badly. The words without spacing killed me. Once or twice is fine but it happened throughout the whole book. Not to mention I did find Emma to be quite annoying at times. Like I said I liked the concept... it was an okay book.

Dee says

[long-lost-loves, descendants of or otherwise, (I'm sorry but they always make me think "second best" unless dealt with by way of an "I never felt this way for her/him" or "I realise now I was in lust, not love" etc, etc). Iy was also re

Amber Barr says

Evangeline Anderson's "The Sacrifice" is a dark and erotic paranormal romance filled with mystery,

adventure, and danger. Anderson includes a variety of extraordinary supernatural characters to sate every para-lover's appetite including witches, vampires, weres, fairies, and satyrs. Anderson's hero, Aiden, is the definitive dominant alpha male with aggressive, possessive tendencies and a heavy hand. Her heroine, Emma, is a developing submissive who is barely obedient, hardly yielding, and always in need of discipline. Although the story is primarily a paranormal romance, Anderson interlaces dominate/submissive and domestic discipline themes in a realistic way. Compared with other Anderson novels, "The Sacrifice" is surprisingly light on actual sex, but heavy on foreplay with a heat factor that is off the chart. Anderson also includes a touching storyline filled with plot twists and a surprise ending to keep readers engaged to the bitter sweet finale.

Gizzie says

Good read. I am not a fan of vampire books but this one was good.

Dr. Bronwyn Ph.D of Smutology says

I think I've figured out what I didn't like about this book.....nothing happened.....yep it was kinda dullsville. Could have totally been awesome since I'm a big fan of books featuring curvy heroines AND vampires but this one spent so much time focusing on the fact Aiden had all these secrets that we don't learn anything until the very end and by then I frankly didn't care.

Incredibly light BDSM and ritual teaching the heroine to love herself...not bad and the main characters were likeable but still boring despite the great premise.

Marianne says

I'm glad Emma enjoyed her submission because I certainly didn't.

Aiden wasn't a good master imo and Emma was stupidly naive for a girl of our day and age - even for a virgin.

1.5 star.
