A man whose lifestyle is so different from her own...

Nic Dalton's cupcake bakery is thriving. She serves both rock stars and locals alike, content with her growing business. But one adventurous night out with her best friend, Bailey, turns her life upside down. She meets a handsome stranger who makes her skin sizzle and her heart race. Their one night together is explosive and unexpected, but when he has to suddenly leave without taking her phone number, Nic resigns herself to never seeing him again.

...What will it take to trust and submit to his every desire?

Matt Montgomery is one of Seattle's finest. He works hard, loves and protects his family fiercely, and is loyal almost to a fault.

And he has a penchant for bondage.

Matt enjoys the way a woman looks wrapped up in his ropes, and makes no apologies for his preferences. When he meets Nic at a fetish festival, the small, beautiful woman catches his eye, drawing him to her. His one night with her was everything he's ever looked for in a partner, but is cut short because of a family emergency. Even before he sees her again weeks later, he knows he'll never get her out of his system.

And he'll do whatever it takes to make her his.

"Give in to this, Nic. Let me prove to you that I will be one of the best decisions you ever make." –Matt Montgomery

I absolutely adore this series and Kristen Proby has yet again rocked my socks with these sexy and beautiful characters.

This is Matt Montgomery and Nic's story...

Matt Montgomery is the Detective of the local police department, he cares for his family, he's quiet, cool, collected and doesn't give much away but he does give out to his parents, his brother's, his sisters and protects the people he's closest and dearest too. But he has a side to him that only a select few know about he's into the sub/Dom relationship he's into ropes and is skilled at it, but he doesn't have a girl until Nic walks into that erotic festival and well the sparks fly.

Nicola has control over her life, she doesn't have a big family that she's close to, she works hard and has worked hard for what she has. She owns a cupcake shop, she bakes them all herself and also works hard to take control of who she is and rarely lets go and lets anyone else take that role on for her. Then she meets Matt Montgomery also know and Master Matt and he lets her explore that sub side to her that Matt wants to show her.

"Talk to me," "I don't like losing control," she whispers. "I have to have control of my business, my financial life, my health, everything, Matt."

"God, I love this with you," he whispers as he traces the ropes with his fingertips. "You're so fucking beautiful."

"I've been sleeping with her." But that doesn't sound right. I've been more than sleeping with her. I've been consumed by her, falling in love with her."

"Give in to this, Nic. Let me prove to you that I will be one of the best decisions you ever make."

So you get the gist...

My thoughts

This story is once again a delicious read that consumed me and gave me that smile at the end, there's a few mis-communication problems along the way but nothing too in depth. I will always come to Kristen Probys books when I'm wanting a giggle, some hot scenes, some beautiful men, sexy women, friendships, family it has it all. I always love coming back into the Montgomery family reunions and equally especially this time Matt's bond with Caleb shined for me.

"Uncle Matt is at twenty!" Josie calls out. "Daddy has nineteen!" maddie adds. "I'm going to beat you, little brother." "Bullshit," Caleb replies. "Daddy has to put money in the swear jar!" Josie announces.

Now coming the the Dom/Sub part of this story I wouldn't really class it as a BDSM book by no means its more about control on Matt's part, it's about Matt and Nic's enjoyment in the bedroom and the kink they need and enjoy which let me tell ya I enjoyed immensely. Matt is definitely my kind of guy, he was caring, loyal,

loving, and strong and he takes the control away from Nic and lets her be consumed and loved by him.

This is book 6 in the With Me in Seattle series and I still eagerly anticipated this book just as much as the others. And more importantly, I didn't come away from the experience slightly disappointed that it wasn't *quite* as good as the previous books. On the contrary, I was fully satisfied with this perfectly matched couple and once again, all the Montgomery clan with all of their sweet, funny, and sexy members.

Matt's key characteristics:

Calm and self-controlled
a detective
loyal
a big fan of total honesty and trust
smoking hot (He's a Montgomery. What else would he be?)
protective
really, really into bondage.
extremely close with his entire extended family.

Nic's key Characteristics:

Sweet
beautiful, tattooed and pierced
Independent
Baker and cupcake shop owner
talented
brave
a little shy

Matt and Nic meet at the Seattle spring erotic festival. Nic was dragged there by her best friend Bailey who thinks she needs more excitement in her boring and uninspired life. Not only does she never do anything but work, she has no love life. And when she did, the last thing she would call herself was kinky or

unconventional.

I'm the least kinky person on the planet. I'm so vanilla, I smell of it."

Now Matt, on the other hand, likes his kink and his particular kink comes in the form of rope. Shibari. (Japanese rope bondage). He is technically called a Dom because of his mastery of the art, but isn't fully committed to all the typical practices and beliefs a Dom would have. His interest is purely in getting the woman's submission and therefore, all of her trust while he ties her up and has his wicked (and very talented) way with her. He's not into bossing anyone around for the sake of being in control or controlling anything outside of the bedroom. That's what I liked about him. He was always focused on how to take care of her inside AND outside the bedroom, but purely from a protective standpoint.

When they meet at the erotic festival, they feel an immediate and intense attraction and they impulsively go home together. Nic has one of the most erotic, yet unsettling sexual encounters of her life. Seeing as she's always viewed herself as "very vanilla" she's a little shaken to find out how much she enjoyed Matt's dominance and bondage. And not altogether happy about it. When he gets called away on a family emergency, they are separated through a misunderstanding until a few weeks later when she bakes the cake for Caleb and Brynna's wedding.

Matt is thrilled to see her again, but she's wary and edgy. She's not about to enter his world with all his preferences. It couldn't possibly work in the long term-she's sure of it. They're too different.

"It'll never happen. Leave it be, Matt."

And with that she drives away.

Not a chance in fucking hell am I going to leave it be.

Yeah, Matt's not the type to let anything get in his way when he wants something. He's a detective, a dominant, and when he makes his mind up on something, he makes it happen. Once he gets past her initial hesitancy, they embark on a tentative relationship. It explores the ins and outs of the dom/sub relationship and it's many variations (depending on the individual's preference), bondage, and just getting to know each other and their collective friends and family. The sex and steam are as always, off the charts. Loved their sexy times. It steamed up my Kindle.

Matt comes to see that not only is she everything he's been looking for in the bedroom, but they have a lot in common and are a natural and beautiful fit outside of it as well. She's sweet and funny, strong and independent, and she gets along great with his family-she even plays the piano and works on a song with Leo and Meg. (The musicians in the family) They just fit. He falls hard and isn't afraid to say it or show it. I loved that about him.

You're amazing. I don't have time to untie you because if I don't get you out of here and home in the next ten minutes, I won't be responsible for my actions. I need to be inside you, I need to love you and an hour in a private room isn't going to do it for me. I need to get you home so I can spend the night showing you what you mean to me.

And Nic is feeling just as pulled toward him.

I feel full, Matt. Physically and mentally. I feel like we've turned a corner that we can never turn back from, and I'm terrified and excited at the same time.

Remember when I said Matt is big on honesty and trust? This is where Nic has some issues. She's not fully able to share some things about herself and it causes their main conflict in the story. She has to learn to open herself fully to him and fight for what she wants.

I really enjoyed this latest edition to the series. It had all the humor and sexiness of the previous books but the erotic factor was cranked up a notch. I loved keeping up with all the rest of the past characters and extended family. My one complaint would be that I would have liked to have seen a little more conflict between Nic and Matt. This by no means takes away from my high opinion of the book. I give it a solid 4 stars with no hesitation. If you haven't started on this series, you really need to jump on it.

What I expected:

What I got:

Moral of the story?

This series has been hit or miss for me. While I loved , I wasn't particularly fond of the rest of the books. I suppose I need to be in the mood for a fluffy read and sometimes it works...and other times it doesn't. But here's the thing; BDSM and Fluffy? **NOT a good mix.**

I originally DNF'd this at 50%, but then some newly formed OCD (I blame you Mirjana and Crystal!!!) and a hint of masochism forced me to finish this.

Here's the thing, just because BDSM has been mainstreamed doesn't mean that every author is able to write it. And if you are going to write it? Don't gloss it over or tip toe around it, do the genre some justice. Now maybe I'm a kinky bitch, maybe I'm a picky bitch. Whatever the case may be, as much as I was anticipating this book after the sneak peek in the last one, I was left grossly disappointed.

WARNING: Rage-y spoilers below

So we have Nic. Nic is a straight laced vanilla girl. Nic doesn't do kinky. Nic is certainly not submissive. But Nic goes to an Erotic Ball (of the BDSM variety) with her friend. And within a few minutes, straight laced Nic allows a total stranger to tie her up in a demonstration. Said stranger then tells her he'd like to fuck the shit out of her. So she lets him take her home **still tied up in the ropes!!** Oh, but it's OK, because he tells her he's not an ax murderer.

In case you're curious, said stranger is good old kinky Matt. He likes his sex dirty with a bit of bondage mixed in. Oh and Matt is a Master Dom. A **TRAINED** Master Dom. Matt also says this

In clubs, safe words are mandatory, so if we ever go to one together, your word will be 'red.' The second you say 'red,' everything stops, no questions asked. But, honestly, the way I feel about safe words is, you shouldn't need one with me. It's my job to learn what you can handle and what you can't, and I'm a firm believer in 'no means no.'"

No shit? Really?

Apparently Master Matt is also a mind reader on top of his Shibari skills. Oh and of course, scening only happens in BDSM clubs. No need for a safe word when you're doing a scene outside of one...

Now Matt is not exactly a hearts and flowers forever type of guy. His other family members may have married off, but he's not planning on changing his status any time soon.

But then a few short days and some awesome sex later...BAM! The flowers are blooming, the birds are singing, and the hills are alive with the L-words. Does he really know her? Not really. So I just have 2 questions here

As for Nic. Nic was the most contradictory character I've ever read about. She says that she's vanilla and straight laced, but lets a total stranger tie her up and then take her home. She says she's shy, but then on another occasion lets Matt strip her in front of strangers at a BDSM club and then tie her up again.

All the while Master Matt decides he's too possessive of her to have others see her naked or touch her, so no more BDSM club for them. He'll still tie her up and shit and maybe throw in a spanking here or there.

Nic is brooding away because for some mysterious reason she doesn't think she's good enough for Matt. Little by little we find out what that reason is. But does she tell Matt? Fuck no. She loves him too much to hurt him and doesn't think she's good enough for him. So what does she do? Leaves him without saying one word.

Of course they work it out in the end and there's flowers and rainbows shooting out of unicorn asses all that jazz. As for my thoughts at this point?

I can tell you I will very likely be in the minority with my opinion. I know a lot of my GR friends really loved this one. But this particular kinky bitch has been spoiled by the Cherise Sinclair's, Lexi Blake's, Kallypso Masters' and the likes. So suffice it to say, this book did not do it for me.

If you like fluffy romances with a little kink thrown in, you'd really enjoy this one. As for me, I think I'm done with this series.

Kristen Proby does it again! The With Me in Seattle Series just keeps getting better and better!

We've all come to know and love the Montgomery Clan over the last five books, Matt Montgomery's story has to be one that I was anticipating the most (a very tight race between his story & Caleb's). We've gotten to know very little about Matt thus far, we know that he's a detective and very protective of his family. The serious one that is quiet and the one you can always count on, we've seen glimpses into a a kinky side that has been teased throughout the last few book; we finally get to see just who Matt is with this installment.

When bakery owner, Nic is dragged to an Exotic Expo she not only is shown a whole new lifestyle but she meets a man with *'ice-blue eyes. The kind that pull you in and drown you in their depths.'* One look at Matt and she is lost in a pure physical reaction. What starts as a demonstration of his ability of rope play quickly becomes a heated exchange that has them rushing towards the closest bed. But when he gets a phone call that pulls him away, Nic is convinced that he is not the kind of guy to give a second thought. But while setting up the wedding cake at Caleb & Brynna's wedding, escaping the man that she willingly submitted to seems impossible.

As Matt works his way into her life he has to set the pace to ease her into a relationship that may be equal in most places, but in the bedroom he calls the shots. Nic's slowly discovers that ignoring her desires is not an option when it comes to Matt Montgomery, but in a relationship that requires absolute trust and honesty; the damage her secrets may cause are her greatest fear. And that fear might cause her to run.

To say I love this series is simply not enough. Each story Kristen Proby gives us gets a little more steamy and sensual and the writing stays completely top-notch. As she veers into the world of light BDSM relationships with Nic & Matt, we get to see a bit saucier side to Ms. Proby. But it isn't just the story you get with these two that make this series. It's the entire gang. I love each one of these guys and being able to see them continue on with their lives, not just as background noise to the story. And we don't just get glimpses into their continued happily ever afters; they continue to have problems and struggles that allows them to stay close to our hearts as we continue on this journey.

Although Matt does have a fetish for bondage, it did not turn his character into some ultra-dom behind closed doors. He stayed true to his kind and caring roots, while remaining the possessive-alpha-male that Kristen Proby writes so well. His true colors and personality never wavered once during this read. The drama that comes with each one of these stories has all remained original, there is no repeat of issues as can sometimes happen in a series and there were no times where the story felt anything but authentic.

We didn't get the orgasm talk, but we did get a little reminder of someone's particular cock flair and a great one-liner...

"Well let me,put it this way. I wouldn't say she's a slut, but her favorite shade of lipstick is penis."

Kristen Proby writes her heroes perfectly, all male, hot and when it comes to the women they love; protective and completely romantic. However, what this series delivers perfectly are strong heroines that you wish were real because they would make amazing friends. These women are not weak, they may fear the intense love they feel as they fall in love and they may have things in their past that cause them to be timid when it comes to taking the leap; but they are absolutely full of strength.

Another stellar installment to one of my all-time favorite series. I am forward to Mark's story and then the anticipated addition of Dominic to the fold. I know that with eight books set for this series that we can't expect Kristen to continue to create more characters to ensure we have years to come, but I am not sure if I will be ready to say goodbye later this year when the final announced book is released. After all, we have been given plenty of new Montgomery babies to provide for at least another few years of stories.

5 'tie me up' stars!!!

It is no secret I am a huge fan of the With Me in Seattle series. After reading the second book (Fight with Me), I was hooked. I love the Montgomery clan and I feel that each book gets better and better. It's so hard to chose a favorite brother or book, they are just all so great. When I heard Matt's book was next my first thought was 'YAY! The kinky brother!'. Was he as kinky as I expected, no. But it still had K. Proby's steamy writing and I was not disappointed!

Matt Montgomery is a Seattle detective. He's a nice guy, kind, caring and hard working. He meets Nic at a fetish festival. Matt isn't into pain or anything like that, he just likes to be in charge, and he really likes bondage.

Nic owns a cupcake bakery. She loves what she does, but she works all the time as a new business owner. It leaves little time for men. Her best friend Bailey has her tag along to this fetish festival. Even though she's not into any of it, she goes.

I'm the least kinky person on the planet. I'm so vanilla, I smell of it.

When Matt see's Nic, he is instantly attracted to her. He wants nothing more than to tie her up, use her during his presentation. She lets him. The attraction is mutual. Even though it is very out of character for Nic, she invites Matt back to her place. He normally isn't the type to come on to a woman like that, but Nic does things to him.

"I don't typically come on this strong, but I want to fuck the shit out of you right now."

Unfortunately, Matt has to rush out to an emergency, and doesn't hear from Nic for a while. When he see's her again at his brother's wedding, he is stunned. Matt knows Nic is hesitant to be with him again, but he's got to find a way to make her his.

"Give into this, Nic. Let me prove that I will be one of the best decisions you ever make."

I love how persistent Matt was. Even though he's been a bachelor for a while, once he found Nic, he just knew. He's a Montgomery. He found his one and he wasn't about to let her go.

This series makes me so happy. I know each book is going to be HOT, funny and low on the drama. Sometimes you just need that kind of read. They are feel good books for me. This particular book had me in tears towards the end (view spoiler), but I mostly kept a smile on my face the entire time.

All the guys are so different, but they do have some things in common. They're all alpha men, caring and kind, yet still dominate. The women aren't push overs. They are fun, spunky and independent. Family is so important to this group of people. I think momma Montgomery summed it up perfectly-

"Whether it's through blood or pure love, family is family."

Kristen Proby has a knack for writing steamy scenes. I'm talking hot hot hot! Matt and Nic have some crazy hot chemistry. If you're looking for a sexy and sensual story, this is right up your alley.

“I can feel how fucking wet you are, little one, but apparently I need to remind you who you belong to.”

As I stated earlier, this isn't an extremely kinky book. If you're going in with those expectations, you may be disappointed. There isn't a ton of BDSM, just some bondage and a bit of control in the bedroom.

Tied with Me is another 5 star Montgomery brothers book! I'm excited for Mark's book next, then Dominic. I'm also hoping we might get an Asher book in the future (Matt's cop partner). Maybe I'm just stretching... I don't want this series to end! To sum it up, if you're looking for a sexy, heartfelt, funny series, I highly recommend these books!

“I don't ever want to lose you, Nic. You put your arms around me, I'm home. I'm permanently in love with you. Don't ever forget it.”

The Montgomery family is one of my favorite fictional families. Their dynamics make me wish I could slip between the pages and be part of this family. My favorite Montgomery brother is Will (Play with Me).

Matt Montgomery has been promoted from police officer to detective by the time we see him in **TIED WITH ME**. He's the one brother who dabbles in BDSM. He's the master of rope binding - **Master Matt**.

Nic is an independent woman who owns her own cupcake bakery and is determined not to let anyone control her.

Things I love about this series:

- ♥ It's filled with alpha men and strong women.
- ♥ Very little angst, if any
- ♥ Comforting to read because I know what to expect

I think this book is all levels of complete sexiness! Matty is my new favorite brother (don't worry I am not leaving Nate, Will, and Caleb too far behind!)

There were so many great moments in this book for me. I thought both Nic and Matty are steaming with sex appeal. I tried to read this one slow... but alas I finished before 3 on the first day.

Thanks Ms. Proby - you are so incredible! I love your stories EVERY DAMN TIME!

The Montgomery Family.....if you are a Kristen Proby fan, then all you have to say is "Montgomery" and you know that the With Me in Seattle Series is a gem. Every book is its own star but what you also get is the rest of the constellation as you read each book. Every book has the entire family sprinkled throughout. Because when there is a family who dearly loves and cares for one another, they are always close and involved!!!

This book is about Matt Montgomery. He's a cop and he likes to be controlling in the bedroom. This book is very light on the BDSM but very heavy on the romance. He meets Nic at a fetish party. Nic is a baker and owns her own cupcake shop called Succulent Sweets. Nic is not into fetishes but comes with her best friend. She is intrigued and somehow she gets "Tied Up" by Matt during a demonstration. That exchange leads to explosive sex but Matt is called away before he gets Nic's number. They are destined to meet again and do so at Matt's brother's wedding. Nic wants nothing to do with Matt even though she has thought about him every day since their encounter. Matt is determined to see Nic again and so their courtship begins.

I will say that Matt knows his way with ropes.....

Nic was not too sure about Matt's controlling ways but she found that she felt safe with Matt. They have wonderful chemistry. As with these series, there is a little drama along the way but you know that HEA is soon to come. (view spoiler)

I will say that I loved the other books just a little more. This was a fast and easy and fluffy read. I loved this entire family and am looking forward to Mark and Meredith's story.

Tied With Me is the sixth book in the With Me In Seattle series. Every book in this series is a complete standalone novel and there are no cliffhangers. It is not necessary to have read the previous five books in the series to fully appreciate this story.

“Give in to this, Nic. Let me prove to you that I will be one of the best decisions you ever make.” –Matt Montgomery

Kristen Proby is one of my go-to authors when I find myself in need of an alpha hero that I know I'm going to love and a fantastic, sexy romance that will completely fulfil me and that's exactly what I got when I read *Tied With Me*. I'd just read a book that had disappointed me and this was the perfect remedy – Kristen's never yet let me down.

This time it's the turn of Matt Montgomery who we got to know a lot better in Caleb's story, *Safe With Me* but he's always been a bit of a dark horse. He's one of Seattle's Finest, a detective, and has always been very serious, very sober and not very forthcoming. He's been the quiet observer for many books and his sexual proclivities have only been hinted at but I've been dying to get up close and personal with this dominant man.

Of course, he's totally gorgeous with those delicious Montgomery genes. He's a dominant but he's not too hardcore – his penchant is for seeing women in his ropes. He's not a sadist and he doesn't carry his kink through to the rest of his life– he just likes to be in control in the bedroom and, oh boy, is he delicious when he's doing it!! I really enjoyed the sex scenes in this and if you're worried that you're going to be pushed a little too far outside your comfort zone, don't be – there's nothing too extreme here, just a few restraints and a lot of domination. It's sensual and hot and you're going to love it!

Matt first met Nic at a fetish festival and the prologue fills this in beautifully for us. Nic doesn't believe herself to be submissive – for varying different reasons that you'll learn as you read the book, she needs to keep her life in control. Giving up that control to someone is terrifying to her and something she tells herself she cannot possibly do so she runs from that sublime first encounter that she had with Matt but she cannot get this dominant man out of her mind and running into him again at Caleb's wedding has her on the run once more!

“Nic,” he whispers and kisses the corner of my mouth, then sweeps his lips down my jawline to my ear. “I don't typically come on this strong, but I want to fuck the shit out of you right now.”

Matt's not about to give up – he thinks he's found the perfect woman and he's not letting her get away that easily and so we embark on another winning Kristen Proby erotic romance and this woman never fails to deliver and *Tied With Me* is surely going to be another massive bestseller for her.

I enjoyed every second of this – found myself grinning goofily at the Montgomery clan and their get togethers, revelled in the growing relationship between Matt & Nic and enjoyed every second of their story. It's hot, it's sensual and I just couldn't put it down. Deep at the heart of every Kristen Proby novel is a beautiful story of love and affection and that's exactly what you get with *Tied With Me* with the added bonus of some very sensual dabbling in the world of BDSM with a strong safe, sane and consensual message.

And of course, you still get her trademark humour.....

Well, let me put it this way. I wouldn't say she's a slut, but her favorite shade of lipstick is penis.

That line really made me giggle. So, in conclusion, another fantastic winning romance from Kristen Proby who is definitely the Queen of elegant smut for me!

Matt is the quiet one out of all the Montgomerys but they say you have to watch out for the quiet ones. Just by all the bits and pieces we got about Matt through out Fight With Me and Rock With Me and the title of his book, he seems like the tie you up and have my ways with you type...YES!!

Kelli C ~ Jack Sawyer's Heart says

Well, i can say that because it had those ridiculously hot Montgomery men I couldnt say I didnt like it, but I can say that I really thought this was going to be so much more than it was.

After getting a sneek peak into the family protector Matt's potential bedroom preferences at Caleb and Brynna wedding, I was so fired up to get into his story. I was not prepared for Master Matt to be so damn sweet and so accomodating. He has to be the nicest dominant ever! In fact, I dont think he is a dom...just a really good guy who has a tendency to protect everyone he loves...he just happens to enjoy a little bondage! lol!

When Matt meets local cupcake genius Nic at an adult expo it leads to an unexpected romp that leaves both baffled.

She is shocked at her enjoyment of things not so vanilla, he is shocked that he wants more than one night with her. Obviously through family connections they were bound to meet up again...and oh damn was it fastball into complete "need you," "want you," "in love with you territory."

So nothing wrong with good romance! I like a good guy with a good family. I like open communication and I love a man putting forth effort. All of that is good...but I did not expect it! I wanted a hardcore aggressive Matt. I wanted melt my kindle sex. I wanted a good push-pull relationship. Instead it was honestly a sweet, mediocre relationship with fast love, little angst, and scarce humor that i am not used to in this Proby series!

Nic is the proud owner of a bakery and cupcake master and she lives a quiet life devoted to work. One night, her best-friends challenges her to go to a bondage club and she ends the night having an oh-so-hot one night stand with an even oh-so-hotter guy.

Some days after, when she is in Brynne and Caleb's wedding (after all, she made the cake!), she meets him again. And finds out that he is but brother of the groom.

Matt regrets deeply the night he met this girl and due to an emergency had to leave before taking her number. Luckily, destiny was on his side and he ended up finding her in his brother's wedding. And this time, he has no intention of let her go.

Matt is a Dom Master, Nic is uninterested in that stuff. But when he finally convinces her to visit his world.... It will be a hell of a ride!

What can I say?? One of the best book in this series so far.

Rating: 5 Stars.

Storyline: A very sweet and romantic story. Exactly as we came to expect for Kristen. And with seriously hot moments.

Writing Style: First person. Dual POV. Amazing and addictive. I truly believe that soon, Kristen Proby will be the reference author every time we want to read a romance book that will leave us with a warm feeling on our stomachs and a smile on our lips.

Character Development: I LOVED Matt. Loved him, definitely paired up with Nate and Will in the hottest guys in this series. Nic was pretty good and I liked her a lot. As for the supportive characters? C'mon! We all would gladly cut our big toe just to belong to this family!

Steam: Hot.
