Transformative Family Therapy: Just Families in a Just Society Rhea V. Almeida , Lynn Parker
This text translates social justice values and multicultural theory into a practical therapeutic model for clinical/community practice. The focus is on linking people across family boundaries to solve common problems, as personal and relational problems are situated in broader social issues so as to form a healing context.

Emily says

Fantastic suggestions for consciousness raising in ways that would be effective with a larger population. However, the preferred way to do so has many potential barriers (time, SES, childcare, etc.) and would most likely be best done in an agency rather than small or private practice.

Absolutely fantastic diagrams and suggestions for ways to go in a social justice direction during therapy, regardless of the format.
