Clint says

Very Enjoyable

I'm liking these IDW Transformers comics so much! Top-notch artwork and storytelling. This collection of one-shots is no different. It's well worth a read.

Matt Richter says

more Transformers IDW goodness! Artwork for the issues on Galvatron and Ramjet were the highlight of this volume. Great complimentary stories to the main IDW continuity.

Daniel says

I really enjoyed most of the stories in this collection, however wasn't really impressed by the Ramjet story, and very disappointed in the KUP story.

James Bowman says

A little weaker than the first volume, but a better mix of standalone stories and stories tied into the general IDW *Transformers* metaplot. Soundwave is OK (I'm more a fan of the G1 cartoon Soundwave than the Marvel Comics Soundwave). The Kup story is interesting but a downer. Galvatron is very different from previous takes. Optimus Prime has some interesting backstory but is otherwise just OK. The Ramjet story is the standout of the bunch, not sure it's actually good, and a strange way to interpret the character, but kinda fun anyway. (B+)
