### **Camila says**

This is quite beautiful. I had to read some of the lines more than once because they just sounded so good. Not all poems in this collection spoke to me, but it is for sure worth reading.

### **Catherine says**

Can't wait for the next book. Absolutely fabulous visions.

### **Zeta Syanthis says**

It's like I can hear him speaking it in person. Gosh, these words are so beautiful, and the heart from which they sprang even more so than I had thought.

### **Dominique Jones says**

Definitely a huge fan of Shane Koyczan and super glad I can say that I own one of his works now. I'd probably put this up there with my favorite books

---

### **Nicté says**

Words flow effortlessly in front of you page to page and you jump from sharing love, to admiring the people around, to saying goodbye to those that are no longer with us and realizing, we are dying...but we are not dead yet...and you will end up needing more of his poetry soon enough.

### **Laura Barton says**

I read this in one sitting, cover to cover, wrapped up in the words of each poem. Koyczan has a particular elegance and way with words in all his poetry, even when he uses language that might not seem so eloquent. This collection is no different as his brilliance shines through and reminds us of the important things in life, maybe even awakening to us some of the things we didn't realize were so important to start. His way with words never ceases to amaze me, and their power never loses force. Another amazing collection from this amazing poet.

<3

Shane Koyczan is quite possibly my favourite Wordsmith. Beautiful and lyrical <3 if you haven't discovered you need him in your life yet, you're missing out on a lot
