A Family Saga Patricia Keyson

Bea is a young woman growing up in England in the 1950s and 60s. She has big dreams and a warm heart. But when her first love affair ends badly, she finds herself struggling to deal with the consequences.

A Family Saga charts Bea's highs and lows over the decades, with family secrets, changing relationships, raising children, and the triumphs and tragedies of everyday life. Despite all the pressures of a large family and little money, Bea still works hard to pursue her dreams and desires.

Finally, Bea seems to have found the recognition she has always hoped for, but an old lover threatens to snatch it all away. Will Bea find recognition and happiness? Or will the mistakes of her youth continue to haunt her?

Find out in 'A Family Saga,' a book you won't want to put down

From Reader Review A Family Saga for online ebook

Jjamieson1 says

Bea is a wonderful, rounded character. Loved the interesting settings. Quite a moving book with the highs and lows of old lovers.

Bonnie Eldridge-labaff says

Book review

Book was kind of dry and boring . Story line was slow ans some what predictable. 3 stars. Maybe because it was written by an English author and the language is different may be why is was difficult to get into

Eileen Campbell says

Pleasant story

Easy reading but maybe a little bit dull at times. No great depth to the characters, could have been so much better as the author clearly has the ability to tell a credible tale.

Marilyn says

Good

the English people live different and have many different views that are fun to read about. they have different social values.

Mary Christian Payne says

Wonderful Characters

I thoroughly enjoyed this book. As a writer of novels set in England, I am always anxious to read other authors who write books set in Great Britain. I tblughg thiz was a fascinatinv story whkch hel

A great read with a terrific story line and believable characters.

Carol Daigle says

Heart warming story.

I give this book five stars, as it was a great story, and hard to put down. Bea sometimes had a hard time in deciding which path her life was taking, but I think she was truly in love with Edward, even though Sammy was her first love. This is the first book I have read by this author, but not the last!

Diane says

Very disjointed book

I didn't enjoy this book at all. The relationship between Edward and Bea was like a revolving door. He loved her, she loved Sammy. Bea loved Edward, Edward would leave her. Time after time. Major events would occur and be over. Just. Like. That. Never to be mentioned again. Sammy and Edward and Bea's children were fully fleshed characters. I never felt I really knew Bea or Edward. I can't recommend this book to anyone. Very trite and poorly written.

Angie says

Loved this book ! Great freebie on Kindle and well worth the read. Really hated to see the story endI will miss Bea .

jackie bonafonte says

A great read

I totally enjoyed reading this book. the one problem was at times it was confusing going from the past to the present.

Brenda says

This was just an okay read for me. Bea and Edward were two extremely juvenile people and their relationship reflected that. I really didn't like them or most of the other characters - Gary, Paul and Trevor were probably the only tolerable characters. Thankfully this was a pretty quick read.

PAMELA B. WATERS says**Frustrating....hard to like characters**

A bunch of characters who are generally unlikable. Then take a good turn and just about the time you think...okay...another turn happens and you see their ugly side again!! There are enough ugly people around without me spending time reading about them.

Christine says**Real people, believable story**

It took me a little while to get into this story, but once I met more characters I was hooked. Definitely a good read.

P J Montuori says**Fabulous quick read.**

Quite well written somewhat but not always predictable. Nice for a change. Covered several realities of life, nicely done.

4.5 stars from me!

Karen Appleyard says

Ok, no bells or whistles with this book, but it's a good true to life read.

The pages keep turning to find out what becomes of Bea.

I'm pleased I have read it.

Alison says

I couldn't finish this book, I found it very flimsy and sentences seemed very short and not much substance to them.

it seemed very predictable too and I didn't like the daughters character
