From Reader Review Fancy Nancy: Fancy Day in Room 1-A for online ebook

Nanci Booher says

This might be in my top 3 Fancy Nancy books. It has been raining all week and the students of Room 1A have not been able to go out and play. Nancy suggests having a "fancy day" which is just up her alley. When everyone is fancy except the teacher, the students help her fancy up and have a great day.

Shannon says

This was more delightful than I had imagined. My first Fancy Nancy book. I love the focus on growing vocabulary. Well written and fun to read aloud.

Sarah - All The Book Blog Names Are Taken says

Such great vocal builders. I read this series with my little one frequently, though she's only two, and she regularly asks for Fancy Nancy. Any exposure to great vocabulary words is beneficial, even at this age. We love Fancy Nancy!

Caroline Siewert says

This book follows Fancy Nancy in another one of her very fancy adventures. It is a rainy week in this book making all the students gloomy. The teacher decides that they need to plan something fun for the students to look forward to. The class decides on a fancy day where they will dress fancy and do fancy things instead of going out to recess in the rain. Nancy gets very excited about teaching all of her classmates about being fancy because being fancy is something that she is great at. The vocabulary in this makes for a good lesson at any time. This is a good book for early readers to read by themselves as it is an "I Can Read!" book. "I Can Read!" books are great for early readers because it can help them learn and grow in their reading skills while giving them confidence because they can read by themselves.

Whitney says

great book for teaching children a few "fancy" words.

Ms. B says

Once you get past the cuteness of this story, this is actually a good book to expand young students'

vocabulary.

Elisha says

I love the lesson of kindness in this book. We should all help each other to thrive and succeed as friends. Of course, we should use the best way to help them. Second lesson: Manners are always needed, not only in special occasions but anywhere and everywhere.

Hannah Jane says

I love the Fancy Nancy books but recently realized I hadn't read the Halloween one. That's when I had the terrible thought that maybe I've missed a few, which of course I have - yikes! So I am officially making sure I've read all of them. And I can't believe I missed this one! It's everything I love about the Fancy Nancy books - quirky, delightful illustrations, fancy words and a solid plot filled with creativity, resourcefulness and positivity.

Nancy Jo Lambert says

So recently, my daughter has become extremely interested in Fancy Nancy. So, we have been reading some of the Fancy Nancy series. This series is lots of fun and all the heart warming moments are a nice touch to the rather flouncy, fancy moments.

Rita says

Great idea for a fun day. Grand-daughters planned a Fancy-day also.

Shelli says

Jane O'Connor has written another fantastic and educational read for young children. Fancy Nancy's class has been feeling very dreary, due to the rainy weather that is preventing them from getting any out door recess time. Ms. Glass, their teacher, encourages the students to think of something they can do indoors to brighten everyone's mood. The always cleaver Nancy proposes a day of doing all things fancy. Wonderful vocabulary that is explained in a way that your even youngest kiddos will understand and can easily add to their own list of usable words.

Nicola says

Miss 2 loves the Fancy Nancy books. I like the vocabulary building and Nancy is fabulous. This time it's not

only Nancy that dresses up but her entire class gets fancy to get rid of the winter blues - they even work together to help their teacher dress up when she isn't able to bring her costume in.

Margaret Chind says

Sometimes rainy days add up and get the best of us. This is just what Nancy, Bree and their class is experiencing. But never fear as Nancy saves the day with an idea for a Fancy Day, after all she never feels gloomy in her fancy dress. Best of all is the end when everyone learns how to share a little bit of fancy to make someone else's day a bit more sparkily.

"I can't wait to go to school like big kids and have a fancy day. Parties are fun and I love to dress up. I'm happy they helped the teacher be fancy too." - V, age 4

Nancy suggests that the class has a fancy day, but oh no! Ms. Glass forgot to dress up.
