## **Indestructible Desire** Danielle Jamie

After going through a terrifying ordeal, Savannah has to try and overcome the tragic events that rocked her soul to the very core. With Kayden by her side, Savannah tries to piece her life back together. Feeling betrayed, she finds herself struggling to move on with her now fragile life.

Plagued with nightmares and the fear that she will once again find herself staring in to the face of danger, Savannah shuts herself away from the outside world. In the process, pushing away the man she loves and her closest friends. Two unlikely people will come together and prey on Savannah's weaknesses. Their sole purpose is to break up Savannah and Kayden, whose relationship is on shaky ground.

Savannah will experience a new life where past secrets will be exposed, exes will cause trouble and lovers from the past will offer comfort. Will Savannah and Kayden be torn apart for good? Or will their infinite love for one another be strong enough to withstand any storm that comes their way?

## Sarah Queen says

First of all can I just say I absolutely love this series I did think there was only 3 books but when I got to the end I was like wth so I was really glad to see that there's gonna be a #4!!!

I really felt like slapping Savannah when she doubted kayden you could see there was some sort of story to come out but I loved reading that the girls kicked arse at finding the truth. Can't wait for the next one I will be waiting patiently but not too long I hope fingers x!!

I've only given 4 stars but that's because there's a lot of editorial issues and misspelled words but nothing to take away from the story. Well Danielle Jamie another great addition....

## Indy says

GRRR - GET AN EDITOR!

I have not seen a book so obviously written and rushed to print as this one. Which is a shame because I have liked the series but the editing with each successive novel has gotten considerably worse. And quite honestly, it doesn't flow smoothly either ex. one scene they get tattoo's, we find out 50+ pages later what his is. Naturally that should have happened within the same chapter or shortly thereafter. Lots of time elapses but not too much development, scene after another without really expanding on itself.

So I began marking pages on the editing issues, and here are some for you to see (over 50 noted, and that's just last 25% of book):

"I used to laugh at people who talked about love at first site." SIGHT

"You're going to catch phenomena standing out here" PNEUMONIA

"Savannah would probably cherish it as much as she would and million dollar diamond ring" A million dollar ring

"Breaking me from my through that old man nudges me" THOUGHTS

I am actually returning this book cause the quality is so poor.

---

## Catherine Arnaud says

AMAZING !! Loved the third book in the series.

The book starts where the other finished, the accident of Savannah .After all that happened , Savannah take a little bit to Go out of the hospital e Kayden suffered each day , hoping she gets better.

At the beginning she don't relember all that happened, but little by little, everything comes back, she has nightmares, she struggles to keeps ok and Kayden is always with her, showing his love for her.

He makes anything ande everything to keep her happy and feeling loved. There is so many beautiful scenes, so romantic, impossible not to love Kayden .

When everything is going more than all right, included a big surprise in Savannah's birthday, something bad happened for them, and Savannah has doubts about Kayden.

I really think Savannah make a mistake in this part of the book, I understand her insecurities, but Kayden

more than prove his love for her, he cherish her with all he can. And I think this is gonna be a issue for them in the next book, because if the love is true and sincere , you have to believe in each other. I don't know how Kayden is going to react after this week apart.

I hope everything is gonna be ok and fast!!! Enough with the mistakes!  
Can't wait!

### **5 AMAZING STARS IF I COULD GIVE THIS MORE I WOULD**

i am so in love with kayden knox ha ha

Big thanks to Danielle Jamie for an ARC copy of Indestructible Desire  
I feel honoured thank you

Plagued with nightmares and the fear that she will once again find herself staring in to the face of danger, Savannah shuts herself away from the outside world. In the process, pushing away the man she loves and her closest friends. Two unlikely people will come together and prey on Savannah's weaknesses. Their sole purpose is to break up Savannah and Kayden, whose relationship is on shaky ground.

Warning....BEFORE you start to read this book, please make sure you have a few hours free time. You will NOT want to be interrupted while you Reading

Savannah and Kayden's love story is just so enthralling to me. It pulled me in with the first two books does the same with this book. There is something about Savannah and Kayden together that just captivates the hell out of me, and it just feels so right.

Book 3 starts right off with Kaydens POV which was heart wrenching to read.

The start of this book is about Savannah trying to recover from what happened in the end book 2 so if you haven't read book 2 get reading (I won't spoil it for you)

Just when I thought I couldn't love kayden anymore Bam in this book I couldn't be more in love with him he's sweet loving caring protective the way he is with Savannah just WOW!

While Savannah is struggling to recover what happened

Kayden is struggling with what happened to Savannah and demons of his past too

Has a lot more steamy sex scenes which I love

Yes in this book we find out what happened between Kayden and his father and it wasn't what I thought but still a dam shocker moment

Oh yes and did I mention I am more in love with kayden in this book too I can love him more the way he cares for Savannah every girl needs a KAYDEN KNOX in their life.

We get more Brooklyn in this book and her love triangle she has going.  
Just love Brooklyn more too she could be my best friend any time ha ha

**Love is the air for Sexy Billionaire Kayden Knox, and his girlfriend Savannah Livingston. They were spotted getting cosy together in Maui, at his hotel's poolside bar.**

Just when Savannah and kayden start getting back on track and things are looking up for the couple to have their happy ending

BAM Two people from their pasts cause more trouble!  
I so want to crawl into the book and slap Giselle & Logan leave my kayden and Savannah alone!

This book is intense funny and sad but will have you gripped from page One.

I think I can even say with my hand on my heart I LOVED these books and can't wait for book 4 I have a feeling things are going to be rocky

This book doesn't have a cliff-hanger as such but will leave you wanting the next book.

I can't thank Danielle enough for letting me read this while she wrote it love her

Savannah series and for bring Kayden Knox into our life's sighs.....

You won't be disappointed with this read!  
SO I CANT WAIT FOR BOOK 4

A Brooklyn quote I love  
I still can't believe my best friend is dating that Kayden-freakin'-Knox

**Theresa says**

**Even the most solid relationship has it's rocky days ... are Savannah and Knox Indestructible?**

You keep me coming back Danielle Jamie!! This is the third book in the Savannah series ... warning if you haven't read the series yet, this review will give away spoilers from previous books, but not this book! Continue reading based on your location in the series ;)

This book picks up right where the last one left off, with Kayden pacing in the ER. We continue to learn more and more about the Savannah series characters and get to follow them to two great beach escapes. We even get to seem a reappearance of the villains Giselle and Logan - you'll never guess what they are up to now... and now a bit about the story...

It is days before Savannah regains consciousness and Kayden almost goes crazy worrying. He has already hired extra security until Zak can be caught. Savannah becomes fearful of going out in public and her dreams, or rather nightmares, keep her from sleeping more than a few hours at a time. She starts seeing a psychiatrist who suggests a group session for her and Kayden. Kayden finally opens up about the woman who broke his heart ... I had a feeling who it was, but wasn't sure. Between Kayden opening up and Savannah's visits and time, she starts to feel more secure and heads to LA for the cover reveal of his Envy edition. Of course it can't go smooth - what fun would that be :) Give this book a try to see the continuing problems Savannah and Kayden face and find out who Brooklyn's heart is leading her towards...

Favorite passages:

- My sweet Savannah always finds a reason to smile, even when she has every reason to cry. It's one of the many things about her that I love. She's a ray of light that has found a way inside my dark and lonely heart.
  - He's like a drug; I can't get enough of him. He's a sweet addiction that sends me on the highest of highs that I never want to come down from.
  - Breaking me from my thoughts, the old man nudges me with his elbow, "If she loves you as much as I can see you love her, I think she'd say yes if you asked her to marry you with a gumball machine ring."
  - Watching Brooklyn attempt to surf is by far the most entertaining thing ever. There's a dog riding a surfboard that is doing better than her!
  - Kiss my cheek, he whispers in my ear, "I hope Knox understands how lucky he is Savannah, because you are a priceless diamond."
- 

## Chu says

Review Originally Posted at: Book Freak

It started just right after the second book ended, with Kayden's POV rushing in the hospital, desperate to see Savannah.

The both of them struggling of the recent events – Savannah had a hard time in dealing with what happened, unable to remember the events of the evening; while Kayden has been blaming himself for not being able to protect Savannah. Kayden and Savannah has to overcome tragic event together – they seek counseling. Only that Kayden has more to beat than just this recent event, he has to deal with his past (which I must say had my jaws dropped) as well so that he and Savannah can move on and have their HEA.

I like being inside a man's brain – it's always a luxury and getting inside Kayden's brain is a total paradise. He had been very sweet, thoughtful, understanding and capital H-O-T. He's everything rolled into one, and he's almost PERFECT. Their love and devotion for each other is the envy of many – some would do anything to drive them apart.

Then we see more of Brooke and her love triangle (or is it square?). Her love life is pretty colorful. She's surrounded by 2-3 hot men. But she's playing with fire – will she get burn with the game she plays? I wished I get more from her interesting love life and finally know who among the men she will choose.

Their love made it through the rough times, and in this book, they again have work hand in hand to surpass the test that is brought to their relationship. Their chemistry is just amazing, and I have not seen a couple who are much devoted to each other as this two. The steamy scenes are – OMIGAH! So unbelievable! Kayden will steal your hearts, you'd be hooked and by the end of the page, you'd be screaming for MORE of him!!!

Yes, there's a fourth book in the series – meaning more of Mr. Knox!!! :)

---

## **Romance Readers Retreat says**

Indestructible Desire is book three in Danielle Jamie's Savannah series and what a book it is. Holy hell, there's more ups and downs than a theme park rollercoaster! I promise I will try and keep this review spoiler free.

This book alternates between both Savannah and Kayden's point of view, which I love because you get to see someone else's opinion of other characters and for me that gives them all more depth. Starting with Kayden's point of view this book had me being a big ball of emotional mess. It's heart breaking reading that last chapter of book two from Kayden's perspective and seeing how destroyed he is, I thought I loved Kayden Knox before, well now i'm completely infatuated, he's so sweet and caring and he loves so hard. It's hard to believe that he and Savannah have only been together a matter of months and before he met her he was a player, because its clear that his feelings for her transcend all of that. You can see how all the characters relationships have grown and how they've bonded over the 'hiccups' they've faced throughout the series so far and I don't just mean Kayden and Savannah, there's Brooklyn, Dixon, Jax, Mya and Braxton to count aswell. They've become their own little family that lean on each other for support and guidance and celebrate their lives together as friends, its nice to see that they share all those things and don't shut each other out when times get hard. There's definitely lots more drama in this one than book two but it doesn't overshadow the whole book, because of this drama you see what this wonderful couple are really made of.

For me this book was more about Kayden coping with what happened to Savannah than her coping with it, he has such a big heart and loves that girl so much he took the accident really hard and is being way too hard on himself about it and that seemed to put unnecessary pressure on their relationship. Seeing the therapist did them the world of good! communication is key and Kayden is not known for being the best at showing his true feelings.

Ohhhh Kayden! Hawaii .. hmmm.. SWOON!....Savannah couldn't have got him more spot on - "Kayden is everything a woman could wish for! funny, romantic, smokin' hot and sexy without even trying." LOVE LOVE LOVE Kayden Knox! Savannah is a lucky little biotch to have such an amazing man.

The writing in this whole series not just this book draws you in to the point where you feel these characters are real people and you just have to know what's going to happen to them next. On that note i'm off to start book four. 5 super sweet stars!

## **Jane Barron says**

\*\*\*\* EROTICA BOOK CLUB REVIEW \*\*\*\*

Indestructible Desire (Savannah #3)

by Danielle Jamie

Book 3 continues exactly where book 2 ends and Savannah is struggling to cope with the aftermath of Zak & Jacob. Kayden feels guilty about what happened because he couldn't prevent it from happening. They spend most of their time walking on eggshells and looking over their shoulders waiting for Zak to retaliate. We get to see another side to their relationship and also watch it grow and develop into something stronger or so you would think!

I must say I am loving this series and have read the books back to back and just when I thought I couldn't love Kayden any more than I do he goes and makes me love him even more when his romantic side comes out!

I am also loving Savannah's character I just wish she would trust Kayden a bit more but I also understand she has been hurt really bad in the past and is still having trust issues and even though it feels like her and Kayden have been together for ever its still really early days for them.

Brooklyn is fantastic and she has grown on me so much over the 3 books and I think her story will make interesting reading she is far from dull, She is also very loyal and the way she sticks up for Savannah is what a true friend is really about.

As with the other 2 books there is plenty of hot & steamy sex that is well written and realistic. There is also quite a lot of drama near the end.

I am so excited about starting book 4 .

Fantastic read

I received a copy from the author in exchange for honest review

5 stars for Amazon & 5 stars for Goodreads

~Jane~

## **Sarah's Book Blog says**

Make sure you go to my blog on August 12th for the Blog Tour!!

I have completely fallen under the spell on Kayden Knox and am not complaining one teeny tiny bit.

***"The love I feel coming from him at this moment is overwhelming. I never thought I would feel something this strong for someone in my life time, that a love like this even existed. To have found it, knowing how rare it is, I'm never going to let go."***

Indestructible Desire starts off where Inescapable Desire (Book 2) left off. Which means I was DYING to know what happened when I went into this. We get an awesome Kayden POV which was so great well great in a sense that we get to hear him but not so much with what he was going through.

Savannah Livingston has seriously had so crappy things happen to her. Granted she gets to screw the hottest man in America and has him wrapped around her little finger but after what Logan did to her and then now the accident...damn that girl has so strange luck at the moment.

***"My sweet Savannah always finds a reason to smile, even when she has every reason to cry. It's one of the many things about her that I love. She's a ray of light that has found a way inside my dark and lonely heart."***

Kayden is such an amazing man. It's almost like he isn't real ... hehe had to do it, sorry. When Savannah was in the hospital after the accident, he was Savannah's Rock. What I love most about him is that even though he has his own demons in the closet, he still remains such a strong man. Broken inside he still manages to make everything seem perfect and safe. He is romantic, sexy, caring, sexy, strong, and SEXY.

Indestructible Desire is all about how strong their relationship has become. The connection these two have is so palpable that you can just feel it through the writing. They love each other unconditionally, they don't just have passion, the need is bigger than anything. They really do need each other as much as they need the next breath they take.

***"I'm certifiably crazy in love with you Savannah Elizabeth Livingston. I would gladly tell the world, a million times over"***

I want to quote so much from this book but I can't without giving away too much. The ending didn't have as much of a cliffhanger as the others did and if you read them, you know they are killer cliffhangers. I saw the growth in the Author as well in this book and just keep falling more and more in love with this series. I love it and can't wait to continue on. Even though at the end, I wanted to slap Savannah and tell her to get a grip...I guess after what she goes through, you can't blame her.

This series leaves me a rambling mess. I love these characters and love everything about it. It is HOT HOT HOT and emotional. I actually got very very teary eyed at one point because of something Kayden said to Savannah...he is such a romantic and the love he has for her is OMG....I'm so jealous!!

Before I make myself look like the worst reviewer ever and ramble on and on about how much I love this series, I'm going to stop now and tell you that YOU MUST READ THIS SERIES!!

## **Athena says**

Given by my good friend and author Danielle Jamie for an honest review

I just love this series!!!..The first 2 books are so incredible that they made fall in love with this series..So,I congratulated Danielle for her awesome work and then she asked me to be a beta-reader for the next novel of the series..

I can't describe how proud I am of this book...We worked hard for it and I honestly believe it is a great book..Not just because I participated on the writing process..

But because as a reader and most importantly as a huge fan of the series,it was everything it had to be and we wanted it to be..

It's about the aftermath of what happened in the second book..It's about 2 people who adore each other and are struggling with the emotional burden they carry after what happened..It's about 2 people who heal each other's wounds and become stronger and more alive every day they are together..

And thankfully,there's another book coming to complete the series..Another book to make us fall for Kayden and Savannah's story even more..

Amazing.Real.Emotional.Romantic.Fun and Adventurous.This book has it all...

---

## **Jennifer Maikis says**

First I have to tell Danielle Jamie thank you for trusting me with your book and letting me be a beta reader on this book. I greatly enjoyed it..

Now let me start by saying that I loved the first two books and the cliff hanger in the second book left me scared and crying. But the third book left off right where book two ended. And you are right back there with them and the emotional roller they are going through. The love that these two share is undeniable and strong. They have a lot to get through after Savannah's accident trying not to give anything away but they will make it through it they have a strong relationship. Brooklyn is back and she is just awesome. Anyone would love to have her as a bff. I just love her spunky attitude . You just wish the best for her.

You fall more in love with Kayden and the love he has for Savannah. I can't wait to see their relationship blossom into something more in the fourth book and to see how much hotter he can get. Savannah is one strong girl she will be just fine.

Can I just say Danielle can write one hell of a love scene they are hot and steamy..... This book will have you laughing, crying and every emotion in between. Just loved can't wait for book four.

Thank you Danielle Jamie for being apart of this and for such a great book...

### About Book

After going through a terrifying ordeal, Savannah has to try and overcome the tragic events that rocked her soul to the very core. With Kayden by her side, Savannah tries to piece her life back together. Feeling betrayed, she finds herself struggling to move on with her now fragile life.

Plagued with nightmares and the fear that she will once again find herself staring in to the face of danger, Savannah shuts herself away from the outside world. In the process, pushing away the man she loves and her closest friends. Two unlikely people will come together and prey on Savannah's weaknesses. Their sole purpose is to break up Savannah and Kayden, whose relationship is on shaky ground.

Savannah will experience a new life where past secrets will be exposed, exes will cause trouble and lovers from the past will offer comfort. Will Savannah and Kayden be torn apart for good? Or will their infinite love for one another be strong enough to withstand any storm that comes their way?

### My Thoughts

Let me start of by saying that this is a brand new author for me.I have been reading a lot of paranormal books of late so this was a chance to read something new and different.

Not realizing at first this was book three of a series I started to read anyway.Wow ! OMG I was so thoroughly engrossed from the very first pages and stayed that way to the very end of the story that had a slight cliffhanger.

Just loved the book through and through.The characters were very engaging lot.Found most of them to be funny and humorous witty like able and even the players/man whores to be sinfully sexy and irresistible .Brooklyn Savannah bestie to be quite the character she had me laughing throughout the story from beginning to end with her no holds bar mouth of hers. I am still laughing...

I always have one favorite character that I just love and although I wavier-ed a bit I chose Kayden. Kayden had me falling in love with him from the first beginning pages.Savannah's boyfriend/lover Kayden was just an all around nice guy ,super sexy and had a gentle and loving disposition.He had a big loving and kind heart not only for Savannah but, for his friends as well.If I wasn't in love with him at the beginning I would have been at the end when he made Savannah's birthday extra special for her knowing the tough months she just went through making it fun and exciting for her.( I want a Birthday like that !) So jealous....

I really enjoyed this story and it was truly and page turner from beginning to end.The story was one about a couple loving and healing one another.Forging a new and lasting relationship one that will be tested.Even

though there was pain and sorrow there was much joy also. Just love Kayden's relationship with Savannah, I envy Savannah finding her soul mate in Kayden she couldn't have found a better mate, these two just fit! The sex scenes between the two were hot and heavy. Giving us the little bit of erotica most of us crave. They had a fun and loving relationship in and out of the bedroom. We saw the couple falling deeper and deeper in love with one another as the pages just passed us by. An amazing read with a touch of danger and heartache and a twist at the end I never saw coming.

I am looking forward to the next book in this series the last one left with a bit of a cliffhanger. Will be on pins and needles awaiting the next installment. Looking forward to the reading about Savannah and Kayden's newest adventure. This is a recommended adult read to all. I see an amazing future for Danielle Jamie if she keeps writing stories like this one. I was very impressed with her writing and look forward to going back and reading the others in its series. Danielle has a newest fan in me!

## **S.L. says**

I love love loved it!! <3

I couldn't wait for this, I was on edge after the cliff hanger in Inescapable Desire. I knew I wouldn't be let down! Yet another brilliant book that had my emotions all over the place!

I was so worried at first about Savannah and how she is going to recover from the accident and the betrayal of those she thought were her friends. I knew it would be hard to read things from Kayden's POV but it made the story come to life more for me.

I loved getting deeper into Kayden & Savannah's relationship. Learning of Kayden's past and reading from his POV made me cry, it made it more real (yes I felt like it was a real person telling me it had happened to them!) I was rooting for them all the way through to come out stronger for it.

Savannah was amazing, the way she handled and dealt with her recovery and was there for Kayden when he needed her makes her all the more perfect for him. I love her, she's amazing!

Again their relationship was full of passion and they are so hot together, their chemistry is undeniable I love them more and more with each book and Kayden is more swoon worthy in this one and sexier than sin (if that's even possible) he is abso-fucking-lutely amazing... and did I mention sexy?

I was nervous about Zak returning all the way through, I kept getting bad feelings waiting for something to happen!!

I loved reading all about other characters too and yet again Brooklyn was fan-fucking-tastic as always, I love that girl hard!! She is definitely the perfect BFF!

This book was so much fun to read!! I laughed, I bawled and good cried, got excited and got moody right along with all of them. There are so many parts of this book that I loved and I totally fell in love with all the characters all over again! What an ending too!! WOW- I can't wait to read the next one, I kinda need it

NOW!!

---
