Jake Rian Kelley

Red-Hot and Ready!

Ivy has been too good for too long,
so when wickedly hot, but by-the-book
Marine Lieutenant Jake finds
her stranded on the side of the
road, she decides giving into temptation
is exactly what she needs.
But will they burn as brightly outside
the bedroom?

Melissia says

wait it just ended ???

Fatimah says

It was okay and had potential but it was rushed and the romance was very dry.

Delta says

3.5 stars

Sweet romance with a light plot and happily-ever-after flavor

Damsel in distress on the side of the road is rescued by an honorable (and of course drool-worthy) Marine. Physical attraction and romance follow. A quick and pleasurable read.

Erica says

Definitely not a bad read, but not anything that blew my socks off either. They had a lot of sexual chemistry and they have the love of "living a healthy lifestyle" in common (i.e., they eat healthy and like to exercise and stay active) but it didn't really seem like there was that much else there that would commit them to forever after eight days, and certainly not enough to have them inviting the other to meet the fams after like three days or talking about children or marriage and the whole meal deal. Jake and his whole "I can't lose control with you" and "men should never unleash their full passion" was rather boring. Ivy was pretty adventurous being that she wanted to do all kinds of naughty things that Jake wouldn't let her do but it just seemed like they were a little incompatible in the boudoir even though when they were there it was rather hot. Pretty vanilla romance. If you like stories about ultra-disciplined Marines who fall hard, this book is for you, but don't expect a whole lot of erotica. The writing was clean despite a few grammatical errors and although I would have liked to have seen the characters get to know each other better, at least the reader got to know their history as individuals. I think a sequel to this would be interesting to read. And I sure would like to see some conflict...an ex showing up or something. I don't know...I guess I like dram-ah!

Wendy says

Enjoyable read. I would have liked a little more depth in certain areas, but I enjoyed reading it, and I didn't struggle to finish it as I have with other books here lately. I would like to know more about the two MC's, and I'll look forward to reading more of Ms. Kelleys books to come. It looks as if this will be some type of

series, so I look forward to what comes next.

Hbeebti says

3.5 This was good. Ivy bothered me at times. I understand why she is the way she is. But it became annoying after awhile. Jake was a sweetheart! Loved him. This was pretty much insta-lust turned into love within eight days. But I liked that there were dates and getting to know you time, not just sex. But the ending was irritating. It just ended very abrupt. I wish there was at least another page or two, something. Overall it was a good read.

Renee J. says

good book, didn't like the way it was written

Kelly says

3.5 stars

This moved very quickly, but still seemed to end abruptly. The whole book takes place over 8 days and there is very little interaction between the main characters and any other characters outside of each other.

Suzanne Phillips says

I have a friend who loves indie authors and often raves (and sometimes rants) about their efforts. As an author myself, I have a great deal of respect for her and keep telling myself that as soon as I have time to read, I'll go indie. Well, it took her handing me her Kindle at lunch one day to get me there. She was in the middle of JAKE and at first I picked up where she left off, but the writing was so good I swindled her Kindle and held it hostage for a few days. JAKE was worth the read. Romances aren't at the top of my reading list (and after this read I am seriously wondering why), but the story is well-woven and the characters both complex and likeable. The relationship is HOT, and at times troubled due to personal baggage, which is a reflection of real life with just enough fantasy in it a girl starts to dream...

The Book Cove says

I will start by saying that I really liked this book! While the plot is one that I have seen done many times before, there's something about good writing that makes you not care! Maybe I was just in one of my steamy romance phases where any decently described sex scene sounded terrific to me. For a while it seemed as

though I was getting a hold of books that had a few men on base but never knocked one out of the park. Ya know? Either the situations were poorly written or the scenes laughable. But Rian has a good one here!

As I said, it's not the most original plot line. (When someone finds something completely in its own world and shockingly new, would you please pass it to me??) Both Jake and Ivy have some issues to resolve, and of course emotional scarring brings them closer. The characters could have used a little bit more developing. I'm still not totally sure why Ivy was so held up about her sister. That problem wasn't conveyed very well. However, the way the sexual tension plays out in the book...Whew! I also enjoyed it because the girl has a backbone on her! As I'm sure I've said (and will say) countless times, I'm not into the whole damsel in distress plots. While they do have a time and a place (after all, everyone needs help at some point), I like my characters to at least be able to think on their own. A peeve of mine when the character constantly over analyzes every small detail in their life. Sometimes you just have to go with it and not really think about it. Let your inhibitions run wild! Throw caution to the wind! Hook up with a Marine that you met on the side of the road! You know, like everyday things ;) And that is what these characters do...

Gillian says

A decent well written story but the ending was very abrupt.

Cassie Hess-dean says

Jake and ivy met on the side of the road. Each dealing with things from their past. They were both attracted to each other. They attempted to date each other to see where things would lead.

This book was an enjoyable read. I felt like it ended very quickly. Would have liked to see the end stretched out with a little more detail but over all I really enjoyed it.

C Joy says

I was looking for a light read, and I wanted something hot and I got this. Best part is it's free on Amazon!

I got this book and just virtually shelved it and it's only now I've been in a mood to read it. I got a book with almost the same cover so I wanted to read this first before the new one (though the 2 aren't related in anyway).

I rate this as more of 3.5 stars than 4 cause I felt there's a missing chapter. This could have used an epilogue or something but it ended in a cliffhanger that made me blink and ask... "that's it?".

Apart from that, I was engrossed with the characters and their conversations. They're well matched both in and out of the bedroom. Since my expectations weren't high when it comes to the sex department, I got more than what I bargained for.

The love scenes were passionate and emotional as well; whenever they made love, Jake shows Ivy how he

feels when they're in the act. I love the sensuality and their uninhibited play, it's really freeing. While I loved their sexy romps between the sheets, I enjoyed reading about their dates and how they open up to each other.

This is a short read but it entertained me. This is obviously part of a series and I'm looking forward to the next.

John Buissink says

A good quick read. Story begins with a bang and continues unabated throughout.

Janice says

it was nice but way to short
