King's Baby

Emerson Rose

King's Baby Emerson Rose

The law can't touch me, but a life of crime is a life of punishment without handcuffs.

I'm the last living heir to the Romero drug empire, and the glory shines like \$hit. With money and power comes death and destruction. I lived it. I suffered through it.

And then I found her.

I didn't know her name was Holland.

I didn't know she was a violin prodigy.

I didn't know she was the one pure and good thing I'd capture for my own.

And then I destroyed her.

She carried my child. My hope. My legacy.

And I had to protect them both...even if it meant doing the unthinkable.

AUTHOR'S NOTE: This is a full-length, stand alone bwwm romance with a HEA and no cliffhanger! \$0.99 for a limited time. Regular price will be \$2.99!

Nikki says

This is the first book from this author and I am pleased to say I thoroughly enjoyed it. Emerson Rose has taken me on a rollercoaster ride of emotions and written a compelling story to keep me entertained. There were a few twists to the story that I did not see coming, nice job Ms. Rose. My only complaint (if you can call it a complaint) is that Emerson thought the age difference between the two of six years was so great. That is the age difference between my husband and I so on some level I was able to relate to that part of their relationship.

I highly recommend this book to anyone who enjoys a good romance with an HEA. I look forward to more from this author and wish her much success with this and all future books.

**I received a complimentary copy of this book in exchange for an honest review.

Anino says

After getting caught up in King's & Holland's world for nearly 3 hours, all I can is that I am well pleased with this book. My only issue was with the ending, other than that, I absolutely loved it!

Giving this one: 4 stars.

Deserie williams says

self note: not for me. reminder to look@ Leonor's review!

***Dee's Reading Time Matters says**

Although I didn't agree with many of the hero's decisions in the course of "King's Baby" I must admit Emerson Rose told this story well and with great detail! G!reat read

5 electrifying stars *****

Randi says

1 star. If I could, this book would be in the negatives. The 'bad boy,' King, was an absolute moron. It was a mess from the beginning and it just went downhill from there. I could not begin to even tell you how livid I was; pulsing with anger to a freaking book character.

I like smart decisions. And taking a child away from one of its parents for one of the stupidest reasons ever? I have never wanted to punch a book character more in my life. That's not to say I didn't understand the reason. Yes, I wouldn't want someone I love to feel a little regret or ever wonder what if, after a baby. However, with that being said, no dream would ever be more important than my kids. He put her through hell for 3 fucking years, for a dream she didn't want anymore.

Then she forgives him.

Realizes that he could be dead in a airplane crash and she regrets not forgiving him. Give me a fucking break. Trust me, I don't believe I've ever said this in a review, but DO. NOT. READ. THIS. FUCKING. BOOK.

Lana says

[YOU CAN'T TAKE CHILD FROM HER MOTHER JUST BEACUSE YOU THINK SHE NEEDS TO MAKE A CAREER (hide spoiler)]

J says

[I can't believe that she just forgave him. I get that she thought that he had died. But she could have died in those three years. If she had then she never would have met her daughter. She shouldn't have forgiven him simply because she thought he was on the plane that crashed. (hide spoiler)]

Sherry says

[infuriated me because there is just NO way you could ever,ever forgive someone for what King did. I didn't WANT a happy ending. I didn't want him to die either. I wanted her to take that baby and him to suffer the rest of his life for how he fucked up. (hide spoiler)]

K says

The only reason this is three stars and not five is because he f*cking left her! I don't care what his reasons were. I. Don't. Care. He left her and she had to go three years without Juliette so for that I will always hate just a little bit.

Dolores says

I Received This Book For Free To Give My True & HONEST REVIEW

This is the first time I've read any of Emerson Rose's Books &

Emerson enticed & pulled me into King's & Holland's story within the first few pages

EMOTIONAL

Omg I couldn't put this novel down with the emotions of the instant attractions between Holland King pulls you into their lives straight away but that only can last couple of days until it's pulled apart well until what some could be say the happiest or most devastating news, but between these 2 it's ecstatic and changes their lives, for the extreme happiness for several months and then King practically slowly starts killing our at least what feels like killing Holland and I'll warn you now if you don't want to cry this isn't one for you no matter how great it is but I was ABSOLUTELY in tears and used a whole pack of Kleenex, which did last a couple of years but it gets Holland where she did I've have dreams and where King wanted her to be. Eventually her happiness comes back into their lives until it's fulfilled to where it's MEANT to be from day 1 of their joining

Emily says

King is into everything that no innocent should be tainted with. Meeting Holland, he is entranced by her innocence as well as her. Knowing Holland is young and a violin prodigy, he wants for her to have the future she deserves, to follow her dreams. King makes a decision that will tear Holland apart, but he doesn't believe it is the right thing to do, he couldn't be more wrong.

I just couldn't fathom King's reasoning. I wanted to like this but feel like it dragged on and I just didn't understand why he thought Holland should forgive him.

Gi's Spot Reviews says

So wrong...

Christine says

I barely finished this.

I did not care for King's POV. He sounded like a sissy. He was supposed to be this bad-a**. In my opinion he was anything but. Holland was just as annoying. Overuse of the word "mama". Mama this and mama that. I did not understand the insta-connection that Holland and King supposedly had. the beginning was formulaic. Holland goes to a bar with her friends. King sees her dance and can't help himself from coming to her. Holland and King "talk" for two minutes and have sex in his apartment. Supposedly he never brought a woman to his place before...blah, blah. After sex he can't stop thinking about Holland. Holland was a virgin and then bam...wants to give it up to King. I wish there was more of a chase or at least more dialogue between these two so I could feel a connection. Just a lot inner dialogue/babble.

This is my opinion. You may love it.

Deborah says

Mixed feelings on this one.

Where do I start with this one?

Firstly I didn't read any reviews, not like me I know but I quickly glanced and found loads of 5 stars so just started reading.

The prologue nearly ended it for me, I hate it when we're given a prologue which spoils the book because you know what's going to happen, personally I can't understand why authors do this but judging from all the 5* reviews it obviously doesn't bother others as much as it bothers me.

Holland is a nineteen year old violin prodigy, her parents have sacrificed a lot so she can realise her dream of attending Juilliard , she's studied and practiced and not really had time for much else so when her friend Savannah drags her out to a club she's reluctant but dressed and armed with a fake ID's off they go.

King is a drug lord and club owner and while he's had loads of women as soon as he sees Holland dancing he's gone.

This is an insta-love which is not normally my thing also it was hard to picture King as the ruthless drug baron when we see him almost unable to function without Holland.

It was easy to understand Holland, she was literally swept off her feet and King is a hard man to resist.

I had lots of issues with this book, firstly I was confused about Kings age and assumed he was much older.

"He's so old," Savannah whispers.

"He's old enough to be your daddy, Holland."

"I don't know how old he is, but . . . you don't really think he's that old, do you?"

It turns out after all he's twenty-five so only six years older.

Despite my issues I was sticking with it and then he did what he did and I'm still reading but trying to make sense of what I'm reading and then it ended way too quickly, the ending needed more and I was left with very mixed feeling about this book.

Parts of it I enjoyed, really enjoyed but overall I was left feeling it never really reached its full potential.

Leo (Queen of the Rants and the Crazy) says

the H is a piece of shit he kidnapped their daughter just because he wants the h to graduate Juliard and have a career what kind of author thinks it's alright to write about kidnapping your child and the stupid h to forgive him she doesn't see the daughter for THREE years people three fucking years
