**Lessons in love, lessons in obedience...**

Ethan and Max have been through more than most couples have. After visiting Las Vegas and falling in lust with the magnificent Dom, Maxmillian Poole, Ethan has become a personal bodyguard working for Max's agency. Ethan has survived the Vegas Mafia, foreign hitmen, and a gun-wielding stalker, with Max there to help him recover each time. But although Max and Ethan still love each other, something in their relationship has subtly changed and Max is determined to fix it.

A vacation at a high-end gay resort in Greece offers them the chance to reconnect and reaffirm their roles as Dominant and submissive. Beneath the hot Mediterranean sun, Ethan will know exquisite pain and sizzling pleasure. He will learn what true submission means at the hands of his powerful, dominant lover. But maybe surrender requires more than giving up your body...maybe it means changing the way you guard your heart. Numerous graphic sexual situations. BDSM.

This is my new favorite book of this series, so far. Lots of romance, love and very hot sex. Max and Ethan got to get away from their work and spend a vacation together in Greece at a resort for gay men. They were able to be open about their relationship and spend the time needed to learn more about each other and grow closer. This book was all about them. They are such a great couple and their relationship is what makes this series so good to read.

#### **Good book, hot scenes**

I really enjoyed this book. Very hot sex scenes and they added more characters that were also gay. The BDSM scenes were hot. I felt like each character pushed their boundaries. I actually really felt like I learned a lot about the main characters, like they were real people with real concerns, very relatable. The book was a bit over descriptive about detailing the environment but, otherwise was an awesome addition to the series.

Wow - what a series! 11 books and some shorts. Obviously, I liked some books a little more than others but none that I didn't feel fit into the series and overall characters, which were 2 sexy, hot, likeable and lovable MC's - different but perfect for each other. Each book had it's own plot and ending and carried the story along their lives.

There's no action happening in this one. This story focuses on Max and Ethan's relationship, which I was extremely happy to finally get.

The vacation to Greece was just what these boys needed. It was nice to see them be openly affectionate with each other without any barriers between them. Just them holding hands in public had me swooning. Pathetic, I know. But not so much when these guys don't allow themselves that kind of privilege in their every day life. So it just felt really good to finally read about them being free to be themselves.

Here is what bothered me most about this story: it was a sorry attempt to romanticize BDSM. I can understand the use of BDSM as a sexual kink in eroti

Rating is based on the entire series (books 1-10 thus far) rather than each one individually.

Loved the series. Loved Max and Ethan. Loved the D/s relationship they've built. Loved them individually and as a couple. Yeah, loved the whole fucking enchilada.

This was definitely my favorite book in this series so far. It was much more romantic and smutty than the first five.

### **Zuzu says**

I read the 1st one and skipped to this one. I'm not a BDSM expert by any means but this was kind of confusing because Max doesn't really seem to know what he's doing. He just want his guy to do what he says.

This book was amazing!

Max and Ethan are partners, Max the Dom and Ethan the Sub. They have to hide their relationship from everyone. They both feel like they need to work on things in the Dom and Sub aspect of their relationship. So they decide to go on a vacation together.

I have to say I loved these two men together. You get a lot of steam with this book which I thought was so damn hot!!! But you also get the sweet to with the feelings these two men have for each other.

I loved the way this author wrote this story and these characters. This book grabbed me from the start! I will leave this review with.. I 100% loved this story and would definitely recommend this book! I received this book free in exchange for an honest review from Inked Rainbow Reads.

**4.5 star** review by The Blogger Girls.

This is one of my favorite stories of the series so far, mostly because it focuses more on Ethan and Max together. Max feels he and Ethan need to re-establish their roles and decides a vacation is finally in order as a way to make that happen.

Ethan and Max travel to a gay resort in Greece that also caters to the BDSM crowd. There, they work on strengthening their bond and reinforcing Ethan's submission. Their plan is to observe other doms/subs in order to hone their skills a bit. What they discover, and what I love most about these guys, is that theirs is not

the typical dom/sub relationship. They are happy and comfortable not having the rules set by others who go by the stricter dom/sub code and end up satisfied with continuing to do things their own way.

There is no questioning the roles these guys play. Max is always super dominant and holds the power over Ethan who is naturally submissive. Some of the best scenes involve Max working Ethan over with nothing more than his voice and perhaps a hand here or there. The steam level of these scenes is through the roof, and they never get old or repetitive.

As with all of the previous stories, their relationship continues to grow and strengthen. Although they must still remain closeted, they have found a way to escape that through their vacation which they plan to make an annual deal. These guys are committed to each other regardless of whether anyone else can know it or not, and I love the ways they find to show that to each other.

These are fast reads, and I am going through them like butter. I'll be sad when I get to the end, but, for now, I'm excited to jump right into the next one.
