Monty Gets Arrested Lisa Worrall

Marshall's Park is a monthly series in 10 parts. Join Finn and Aiden as they meet and fall in love.

Being Marshall's Park's resident mascot, Monty the Meerkat, wasn't exactly what Finn Thomas envisioned when he arrived in LA seeking fame and fortune. Although he did get to walk the red carpet every once in a while... when there was a parade. Finn loved his job but to say he wasn't used to being accused of kidnapping, wrestled to the ground by a maniacal father and locked in a cell with a hairy biker, would be an understatement. But that's exactly where he finds himself when he meets a little girl with a grazed knee who's looking for her daddy.

Aiden Reid came from money and privilege. He'd expected his parents' reaction to the news that he was going to be a father. Although being thrown out on the street with a check in his back pocket when he refused to sign the adoption papers, shocked even him. In Santa Monica he moves in with his eccentric aunt and life is good. Good that is, until Aiden loses sight of Kayley at the local zoo, Marshall's Park. When he spots her being led away by a man mountain, one word flashes before his eyes... kidnap! Of course, the freak says he works at the park, but Aiden calls the cops and has the lying bastard arrested. The following day, he learns that the lying bastard was telling the truth and has grounds to have him arrested for assault. How the hell is Aiden going to convince Monty the Meerkat not to press charges?

Monty Gets Arrested Details

V says

I read this story knowing before hand this is a 5 part series, I was ok with that.

However, I need to wait a MONTH to read a little tiny sequel that I know is only a few pages and it will take me 5 months to read the whole story ..that piss me off, but hey that's just my opinion.

Blue Bayou . says

Ok I am not rating this right now cause I'm mad.

I didn't realize that this was a short story to be continued....

And not continued soon, but a whole month away. I just read Anitra Lynn McLeod series Seven Brothers for McBride and I had to wait a whole 7 seven days for the next installment. And let me tell you that was a raging 7 days and each Saturday Anitra came through with the story.

Now I have to wait a month for the next installment? This was ok but I don't know that I care enough to 'post-it note myself 30 days out.

3/3/2013:

Crazy. So I checked on Amazon. It is stating a 12 part monthly series. I was under the impression it was 5 part series. Hun.

I went ahead and rated this part. I am sure that once all 12 parts have been published that this will be a fine book. (However, I won't know that until then.) Monthly publications are not my thing. I find them laborious. The parts are never long enough and I read other books in between publication dates, so I feel I need to read again what I have already read to get up to speed. It's just too much to post it note. I am sure I will run into this series sometime next year and then if I am still interested, I will read all the part at one time, just like a novel.

Lillian Francis says

Beware kids, always dubious about stories with kids in.

Elspeth says

Cute read, I hope Finn makes Aiden eat a lot of crow.

Looking forward to the next installment.

Macky says

I've had Monty's (Finn) first and second story on my Kindle for ages and like loads of others they got hidden amongst the pile. I was reminded about the series when I saw that the eighth was being offered free on ARe. I just felt I wanted to read something short and sweet, and I got my wish with this. Very enjoyable and very cute.

Starts with a huge misunderstanding... Poor Monty The Meerkat impersonator, Finn... but ends with promises of what's obviously going to be a very likeable love story.

Now I've started the series I want to see what happens next so I've downloaded the rest and I'm going to see just how Finn and Aidens romance progresses. No sex in this first one at all because it's an ongoing serial, but I think things are going to heat up extremely nicely as these two continue to get to know each other... And what a little sweetie Kaylee is!

Deeze says

Waiting until the story gets completed.

Trisha Harrington says

Lovely start to the series. I'm not a huge fan of kids in books, but Lisa's a great author. It's definitely worth reading if you are a fan of the author or if you just want something funny to read.

Heather K (dentist in my spare time) says

Each book in this serial is \$0.99 at Amazon US, which is a price drop for most in the series (though check ARe and Smashwords because there are some free ones too and Amazon still charges \$0.99 for those).

1/27/14 :)

Popcorn says

It's not even half a story

Pat Nelson says

I absolutely LOVED this story. Lisa Worrall has written a delightfully entertaining start to a series and I look

forward to reading the rest.

Joanne says

I adored this, so much so I'm literally counting down the days to the next book, Monty's First Date. I'm not usually one for child orientated stories but Kaylee is adorable, quite the sweetest kid. I found both Aiden and Finn well fleshed out MCs, the whole story just flowed perfectly and ended up at the perfect jump off point for the next book. Just lovely.

Amber says

This was a cute little start to a budding relationship. Each character is given enough background to make them real and I can see a lot of fun coming from future books to make a very sweet story. I'm not real fond of the format of short mini books but Finn and Aiden are interesting enough I looking forward to getting to the next story.

jules0623 says

I'm rating this having been told this is only part of a serial. I won't be reading the rest of the serial until it's finished because a) I don't have enough patience or attention span to read a WIP, and b) I'm pissed off that I bought this without the author or publisher allowing me to make an informed decision about buying part of a serial.

rant: I think this is the nastiest way to sell books - taking what is a novella length story and feeding it to the readers one 'chapter' at a time, thus making probably double the cash you would have made by selling the story as a complete novella/novel. This type of rip off is one reason people go looking for freeshares. /rant

Having said that, it's a cute story so far and I'm actually satisfied with the way this ended. I think it's enough of a complete story that I'm not annoyed about waiting until it's done to read the rest (or if I even bother to read the rest).

Pjm12 says

Oh this is just teasing me. Short, building the anticipation... Not sure why Finn feels an immediate attraction to Aiden. wanted more there.

But the rest worked - the setting, the lost daughter, the protective best friend. Have to keep my eye out for the next instalment.

ps they should be longer...

Sara says

Not bad, just .. way too short. More like a chapter than a book.
