## **From Reader Review A Witch Myth for online ebook**

### **Kary says**

Weird interesting entertaining nothing I normally would read but kept me busy while hubby worked on our vacation.

---

### **Nekita says**

Love the characters and storyline, only problem is this book ended where it should have only been about halfway through. Very dissapointing.

---

### **annemarie\_bookaholic says**

Another quick read and non stop action....but the ending!  
Wow talk about an abrupt ending....I need to read the next book...and fast

---

### **Jewel Prescott says**

#### **Amazing short story**

great fast paced read. The characters and plot are believable. I hate cliffhangers, but this book does leave you at a major cliff that will make sure you get the next book in the series.

---

### **Amy says**

I'm reading this book as the set, so breaking it down into the individual books.  
I really like this series, though I wouldn't say they are cozy mysteries. There are some really dark and a little gory things in these books. Just as a warning...and yes, despite what I just said, I'm really enjoying this series!

---

### **PJ Lea says**

#### **Special group.**

Great story of a special group of witches, though only a few of them are involved to any degree. The cliffhanger ending is a real doozy too.

---

## **Andrea Vette says**

### **Abrupt ending**

It is a very short book and just about the time you really get into it .. It ends, abruptly!! I would have really liked to read more but now I feel like I read half the story and the other half is missing.

---

## **Ceejay says**

This is the second book in the second trilogy about the witches of Yew Hollow. Once again it is a very enjoyable read, with an exciting cliffhanger. In this trilogy Morgan Summers, a witch who recently returned to Yew Hollow, gets a job on the police force investigating special cases. To help her, another new detective who is not capable of dealing with the supernatural, is assigned to be her partner. Morgan's mother, a premiere witch of witches, assigns Morgan the job of helping a 16 year old witch come to grips with her powers. The first case that the two detectives handle concerns a ghost who is attempting to kill his widow. But then.....no spoilers! My only complaint with this series is that the three novellas that comprise each trilogy could each as easily been a single novel!

---

## **Cyndy says**

### **Easy and enjoyable story**

I chose this rating because it kept my attention throughout the pages! The characters are believable and relatable. Just wish the story was not so short.

---

## **Carin says**

3.5-3.75 -- The "fun" thing about mysteries is trying to figure out who the "baddie" is, along with the protagonist. Having it revealed early, without any real "investigation" leaves things a little empty. Admittedly, I'm disappointed by that. Was hoping for more intrigue.

---

## **Vernell Schutte says**

2 books into the series and the original mystery still isn't solved - don't like books that try to force you to buy the next to finish the story. Like the story and the writing.

---

### **Patricia White says**

Loved the book. As soon as I read Morgan had joined the police force, I was happy! Then when I read she was getting a partner, I already knew what was going to happen based on the previous book. Overall the book is good. But I hate that there is a cliff hanger. Well, my opinion of a cliff hanger.

---

### **Meegy says**

Loved this book, the ending was so unexpected and am keen to see what happens to Morgan.

---

### **B.E. says**

Arrgghh! Cliffhanger! Noooooo. Where the next book?? I need the next book!

Entertaining read, obviously. And I care enough about the characters to be frustrated by the cliffhanger. It had a good setup and the premise is strong. The plot is definitely grabby. I don't see any more books after this on Amazon - just a Book 0. I also don't see where the author has a website so I can't tell when the next book will be out. Which is kind of frustrating. Patience is not my strong suit.

Oh, one last thing. This is billed as a 'cozy mystery'. I totally wouldn't call it that. It's got some dark bits and it's paranormal, so I'd think of it more as a paranormal mystery - so cozy mystery addicts don't get shocked.

---

### **Barbara Collins says**

bought the book on Kindle \$.99  
4 stars (why does everyone name their character Morgan)  
easy read
