## **After It's Over** Michelle Alstead

"He had lived his life believing she would come back to him. He had to believe that—that idea was key to surviving the long days and nights without her. "

As a teenager Paige Birch lost a baby, her parents, and her first love. She's worked hard to rebuild her world. With a successful law practice, a gorgeous husband, and three beautiful stepdaughters, she has a life that some people can only dream of.

But everything is not as perfect as it seems.

Kade Sorenson longs for a different life. One filled with love and family, not crime and politics. And his dreams are haunted by the one that got away.

When fate brings the two lovers together, will Paige choose the love she sacrificed so many years ago or the family that needs her now?

## **Michelle Alstead says**

This poignant romance will make you cry and demand a sequel!

---

## **Andrea says**

### **Great read**

This read was fantastic! It was so twisted! Kade and Paige were wonderful! All of the characters were delightful and I couldn't put it down!

---

## **Katie Chapman says**

### **Intriguing**

After It's Over is an interesting story of how substance abuse and rejection are the gifts that keep on giving.

---

## **Nstefa says**

4.5 stars!! Truly amazing!!! Loved this book and loved the characters!!!

---

## **Beth says**

### **Painful read**

This story was painful from the first page to the last. Adultery, murder, suicide, divorce, and unruly children are all present. At times the despair was palpable. Paige is a divorce lawyer married to a serial adulterer with 3 step daughters who are a living nightmare. The past for all 3 major characters wasn't pretty. An abusive alcoholic father who is killed by his long suffering wife. A failed engagement. A cop trying to send the abusive husband to jail and save a woman. God, its so heartbreaking. But these emotional responses show how great this writer did in creating a story that felt real. You feel for these characters... the cheating husband's past explained much of his actions. Great job!

**sheila says**

**Don't really want to give a star**

This is a very depressing read. Cheating. Abuse. Stepkids that are a pain. Sad beginning for everyone in this. Murders. Suicides. I want to cry. Not planning to read the next installment.
