Laurie's Song Suzanne Rand

Laurie Adams isn't sure who she is anymore - a good student who writes beautiful poetry or a star-struck groupie for the local rock band. She's being pulled apart by two very different boys who are fighting for her affection.

Skip is a budding rock star and the most handsome boy in school. He wants Laurie to write lyrics for his songs and take the leap to fame and fortune. Then there's Jeff, a hard-worker determined to do more with his life than just get by on good looks - like Skip. Jeff wants Laurie to discover life and love on her own terms...and his.

Which boy should Laurie choose...which one will make her happy?

From Reader Review Laurie's Song for online ebook

Gale says

Read in 2006.

Marts (Thinker) says

Read most of this series whilst in secondary school... enjoyed it back then...

Kris Phillips says

I loved the Sweet Dreams romances in middle school and high school and this was one of my favorites. It teaches girls to be true to themselves; don't pretend to be someone else just to get a boy to like you. Will definitely let my daughter read it when she is older.

Andrea says

Unfortunately I don't remember enough about this story to write any kind of review (I read this back in the 80's) but I absolutely loved this series of books and highly recommend it.

Esdibee says

While a pretty good story with a good message overall, Laurie is just so annoying and unlikable. She is contrary for the sake of being contrary that I cannot really pinpoint her personality.

Reading with Cats says

Oh dear lord, that was WORK to get through. See that sullen, unpleasant-looking cover model up there? That pretty much sums up the character of Laurie, who you'll be spending about a million pages with. And don't forget douche canoe Skip (nope, not kidding, he's really named Skip). He adds his own special unpleasantness to this mess.
