Push Dani Wyatt

A fighter without mercy.
A girl without hope.

The only thing that makes Flynn Dunleavy feel alive is the taste of his own blood. He's the tattooed bastard son of Detroit's most ruthless crime leader and he only knows three things for sure.
How to hit, how to hate and how to make women scream his name.
Until she shows up.

Lilly is the asset. The brain. The beautiful naive pawn in a high stakes game of family tradition, loyalty and intimidation, And Flynn's father Colin Dunleavy is her fiancé.

The day she tumbles into his world, Flynn stands by as his father greets her with a bloody lip and an indifferent smile. And for the first time in his life Flynn feels something. A thump in his chest, a twitch in his heart. That day, she became his obsession.

His salvation.

His ruin.

Why is the one person that could save him the one person he can never have?

This is one fight he cannot lose.

HOT. HEARTBREAKING. INSPIRING.

Blazing hot, stand alone romance with a HEA and an ultra Alpha Dominant hero.

Push
Dani Wyatt
3.5 stars

The beginning of PUSH left me a little confused but very intrigued. I wasn't sure about the players and what was going on. It took me a bit but I kept turning the pages and everything became clear. The story is a bit drawn out in points but it's not bad. I wish I would have felt more drawn to these characters because I love everything about MMA fighter stories, mafia, and scorn love but I just couldn't completely consume myself in the story line.

Lilly is living in hell. She is being held like a prisoner forced to live a lie. She is to be married to Colin Dunleavy, Detroit's leading crime lord. Her marriage has been arranged and she thought he would be a perfect husband and gentleman but she was so wrong. Colin has led her into a darkness that she cannot claw her way out of. Colin is wants to hold all the cards and Lilly is his ticket to having just that. In exchange for her brilliance Colin has agreed to bring Lilly's mother to the states to care for her. Lilly is desperate to do whatever it takes to save her mom including giving up her own life.

Flynn is Colin's son. The son is raised as if he were nothing. He uses him for his fighting skills but being a father, not going to happen. Flynn is a bastard son. Flynn has never seen a more beautiful woman than Lilly. He knows she is off limits. Touching her and wanting her will get him killed; killed by his own father.

Not a bad read and no cliffhanger. Give it a whirl and let me know what you think! Review was provided provide after receiving an ARC from Dani. Thank you! Review will post to Ramblings From Beneath The Sheets.

April Symes says

Wonderful story about a man who meets a woman that his father is going to marry –and he decides he is willing to break the family ties to get the woman he loves.

This was such a hot, dirty, erotic, emotionally evocative storyline from this author and I loved it!!

Flynn is the bastard son to Detroit's most ruthless crime leader, Colin. Colin is engaged to Lilly to fulfill a debt to her father. Lilly did what was expected to save her family and thought when coming over she would be safe yet here she comes into a situation rife with violence and pain. OMG I HATED , HATED Colin, Flynn's father. I sooooooo wanted to hurt him. Flynn took one look at Lilly and he was lost immediately- he wanted her and yet didn't know how to break free of his father.

Lily came over, prepared to honor her agreement and here she sees her new fiancee's son, Flynn and she is immediately lost. She falls in love and yet she knows it is forbidden. She does everything she can to keep him safe and to keep her word to keep her mom and all save back home. My heart broke for Lilly, I was angry for Flynn and all he was losing and I wanted Colin to be beaten ..there were so many twists and turns worked into this story that by the end of the story. The love that Lilly and Flynn have is so potent, and real that I cheered for them –the chemistry between them is hot and electric. OMG, they are so good together.

The ending was awesome and I cannot wait to read another book by Dani Wyatt. In fact, I would like to read a story involving Flynn's half brother.

My Rating: 5.0 stars *****

A gifted copy was provided by the author for my honest review

She Hearts Books says

Holy hell this book is a rollercoaster ride of emotions. I mean there's anger and passion and frustration and sadness and everything in between happening in Flynn and Lilly's story. How much more messed up can your life be when the person you fall for and is your soul mate is the son of the man you're being forced to marry? Well add to that sneaking around with said man to steal loving and super steamy moments which if discovered you could both be killed for in a heartbeat. I so wanted to more than kick Flynn's father. I wanted these two to find a way to be together and I really enjoyed their story.

I give Push 4 hearts!

Fiordiligi says

I've been reading books in English for more than fifteen years now and I feel comfortable as well with fiction as non-fiction books regarding health, quantum physics or the human body. My written English might not be the best at times (too little possibilities to keep it fresh), however, I am damn proud of my passive vocabulary which is huge. But reading this book made me bonkers and doubt my ability to string two chapter contents together

After reading the blurb of this book I thought little could go wrong. A hot tattooed fighter, a damsel in distress, lots of angst, drama, and racy sex, what's there not to like? Right?

I never got past the fourth chapter because - and I am guessing here - the story doesn't begin at the beginning but somewhere in the middle, not that it's written down somewhere. I had quite a few problems getting to understand what's actually happening, who's who, who is forced to marry whom, who's the villain and who the good guy? How to get into this writing style and keep on going for 300 more pages? After half an hour I was bored to tears and you know what? - that's when I know I have to discontinue. This is the reason why I rarely dish out more than one dollar for a new to me author's work. Sorry DNF

Sharon says

This review is actually for the Kindle version.....

I was a bit confused in the beginning of the book...I just couldn't get the players straight in my head at first. There were too many and it was hard to get into, but by about chapter 3 I pieced together who was who and enjoyed the ride.

Lilly is arranged to be married to Colin Dunleavy, a mob boss, who courted her like Prince Charming, but

instead brings her to her own personal hell. He keeps her under lock and key using her to code a new online gambling program in exchange for him to bring her mother to the states so she can get the medical care she desperately needs.

When she arrives at the estate, she meets Flynn who is the bastard son of Colin who raised him as if he was trash and only uses him for his MMA fighting skills. He knows Lilly is off limits, but he cares about nothing else in life and will see her one more time even if he dies doing so.

Once Flynn gets a taste of Lilly he knows that she is meant to be his and will do anything and everything to protect her, but with his Dad holding her mother's life over her and corruption surrounding him, will he be able to keep his word.

I really did like Lilly and Flynn, but at times the story was a bit slow...maybe I'm more used to the stories where everything is suddenly filled with rainbows after one small hiccup, but this is not that kind of book. It was a real dark page turner, where you just couldn't wait to see what Flynn would do next.

I read this as a stand-alone and enjoyed it immensely. It is a roller coaster ride of emotions as Flynn and Lilly fight for their HEA.

Hero: Flynn 5 stars

Heroine: Lilly 5 stars

Steam Level: 5 stars

Plot: 5 stars

Cliffhanger: no

Karen Voitik says

>Book Review – PUSH: Ultra Alpha MMA Badboy Mafia Romance

>I am an independent reviewer. This book is the second in the Southside Brotherhood series and ends in an HEA.

>This book was confusing on many levels. The first half of the book was told in flashback, but the detail and timing was so vague, I wasn't sure exactly what was happening, what already happened and who everyone was. The nickname, Push, was mentioned once and no one ever used that nickname when speaking to or about Flynn.

>I felt this story was trying to hit everything that is popular right now – MMA, Mafia, Alpha males, Alpha bad boys. All that was missed was a motorcycle gang. When a story tries too hard, I have a hard time getting lost in the story. Flynn and his brother are brought up as mindless soldiers, but when Flynn is in the hospital, the brothers seem to have a grudging liking towards each other. Later on in the story, a fight to the death is in their future and both are OK with that. Flynn suffers a severe neck injury, but 'pops up' and takes off? All his injuries make his fighting prowess seem very unbelievable, unless this was a paranormal story and Flynn was supernatural, but the story isn't and neither is Flynn.

>Lily is a genius who cannot figure out a way to skim the money needed to save her mother? He poor virgin

victim act was trying. Half the book was hot sex scenes, so I guess the weak plot didn't matter too much. I wouldn't recommend this story if you want a little plot with your sex.

>This book is appropriate for an adult audience. I am giving this book 3 stars.

Sonya ?Chatterbooks book blog? says

★★★3.5 You are mine Stars★★★

"People like us don't love"

Lily is a twenty three year old mathematical genius that's been forced to marry a ruthless crime lord twice her age. Being practically held a prisoner, she decides to do whatever is necessary to ensure her safety from her domineering fiancé. That means doing what she's told and using her skills to help his company. Everything changes when her soon to be stepson enters the picture and stake his claim on EVERYTHING.

"Love is for the weak, for the pitiful soul with stars in their eyes."

Flynn doesn't care about anything in the world right now. Known as the black sheep in his family, he's grown used to the way his father treats him. His coping mechanism is fighting and that's what his father uses him for. Nothing more nothing less. Seeing Lily changes something inside of him and he decides that he wants her for himself and he's going to do whatever it takes to get her and take her away from his father for good. Easier said than done.

With a crime lord for a father, a longtime family promise and a deadly attraction, this book certainly kept me entertained and wanting to find out what will happen next. I did have some issues with this but I was more intrigued with the plot and wanting to know what Flynn's next move was going to be. Will they get away it? Can love really conquer all?

You'll just have to read it and find out.

Sybil aka Lala says

Flynn and Lilly are both living in hell. Flynn is the bastard son of one of the most dangerous men in Detroit and is forced to fight for a living or be killed. Lilly is being forced to marry Flynn's father in exchange for getting her mother some much needed medical help and also to join two mafia families in a legitimate connection. Flynn and Lilly are also hopelessly in love.

This book is an epic tale. It has all the angst you could expect from a forbidden romance, all the heat and

sexual tension from a passionate obsession and all the twists and danger you'd expect from a mafia romance. This book has it all.

It's a bit of a dark, depressing story at times and not easy but it is SO worth reading. It starts off amidst a lot of confusion, seemingly halfway into the story and you're left having to figure out a lot of details as you go along but I even found that interesting. It kept me turning pages to figure out the story and before I knew it I was hopelessly invested in Flynn and Lilly and their beautiful words. They sizzled together.

This book is an emotional rollercoaster. There were characters in this book that were truly just the vilest most evil set of people and as I'm writing this review my hate for them is still burning under my skin. There were characters I absolutely loved and Flynn and Lilly were just so wonderful together.

Push is long but the writing and words were simply just beautiful and all in all I totally loved this book.

Bloggers From Down Under says

Received for honest review

How do you marry a man you don't love?

How do you live a lie?

The man you love and hate you can't have.

Lilly is a young 23 year old who has the Math brains of a genies she is very smart but her life is hard and dark.

She is arranged to marry a man twice her age in heal the cracks between to families who have been feuding for many many years.

But she doesn't want to.

She loves Flynn.

His son.

But there is no way out she is being held captive and being made to put her math's talent to use but she needs to do this.

She needs to make sure her mum is safe.

Well cared for.

Receives the treatment she needs.

Flynn is a fighter that's his job or he will be killed.

But he loves her.

He wants her.

Will Flynn and Lilly get there happy ever after or will his dad succeed in his death?

We liked the book it was ok at some parts we really found it confusing especially at the start once we pushed through and got half way it was a bit better to understand.

K.L. Donn says

Lord have mercy! This book was everything I love and hate in any book! There soft and sweet, there angst and hate, there was so much wounded hero that I wanted to scream! I HATE Flynn's father, like so much so that if I could punch him in the nuts with a sledge hammer I would... Repeatedly... Lilly is so soft and sweet and she really brings out everything in Flynn that I want an Alpha. These 2 people were never meant to be yet, they fit, like puzzle pieces that were missing. As soon as they found each other it was fate.

I cried for Lilly.

I screamed for Flynn.

And once I threw my tablet because I was so angry with Flynn's father.

I of course crawled back to it, begging and pleading for it to still work so I could find Flynn and Lilly's HEA and sweet baby jesus are these 2 beautiful together!!

5 sizzling stars from NADBB!!

ARC provided for honest review.

This is the first book I have read by this author and I was very disappointed with this book. I consider myself an avid reader and MMA romances are my favorite.

However from the beginning of this book, I was lost. I felt the author should have had a prologue of some sort. Instead it just went straight into the story.

I am going to give this author another chance, as her book descriptions intrigue me, and she does have a way with her words.

phoebess says

This story was slightly better than the previous one in this series but hell, did I still have a hard time to follow it... *I have a headache to prove I was, in fact, trying so hard to get out of the maze of confusion.* It got to a point I truly didn't give a flying fuck how the story ends.

Ida Haden says

The book started with a bang and didn't go far from there throughout the book. If you're looking for a boy meets girl, they fell in love and live happily ever after with no angst, no drama, move along, this book isn't for you. But if you want to read an Alpha man, fighting desperately to free the woman he loves, settle back in that comfy chair, cos you'll be in for a ride!

Lilly is betrothed to Colin, a 50 year old man who has a penchant for underage girls. It was a "business" arrangement between Colin and Lilly's father. Lilly is doing it to secure medical treatment for her sick mother.

Flynn is the Colin's bastard son. While not loved and cherished, Flynn was brought up by Colin, alongside Gideon, Flynn's half-brother, to be a fighting machine. Flynn barely had a care for relationships, until he met Lilly.

Flynn desperately wants Lilly, and wants to help Lilly get away from Colin's claws. But Colin is not about to give up easily.

Their journey is filled with tribulation. Every step forward seemed to come with 10 steps back. But don't misjudge a determined Alpha male who has fallen in love for the one person he was forced to stay away from.

Janice Somers says

Wow this was so awesome the story of Detroit Mafia families and the characters are manipulated into useful pawns to gain more power.

This is the story of Flynn Dunleavy, the bastard son of Colin Dunleavy and Lily, the bastard daughter of Topher MacGuire. Colin and Lily are part of an arranged marriage, so that Colin can pay off a longtime debt to Topher. The only problem with this is that Flynn and Lily are in love and Flynn is going to do everything possible to stop his father from marrying Lily.

Lily is the brain who is developing a online gambling program that is to bring both mafia families into legit. monies. Once this done Colin has agreed to marry Lily and bring her ill mother over from Ireland and get her top medical treatment, once the program is up and running.

The story is full of hawt steamy sex between Flynn and Lily. The hate is strong between Colin, Flynn and his half brother Gideon. Flynn and Gideon are pitted against each other by Colin.

Colin is just as evil as you can imagine, along with duping everyone.

This is so suspenseful that you can't stop reading until done. The is such a dark story that draws you in and keeps you until the end. I recommend this 100%, as a must read.

Lit Reader says

Ok, so I gave this a chance after Force, and it only very slightly got better, only not enough to get a second star. Good luck for me I had already read other more recent books by this author and liked them, else, I would have avoided those and future books entirely. For transparency's sake, I should say I really liked Wrangler and I'm loving the reader's club book by chapters Baby; those I can recommend, Force & Push do not have any endorsement from me.

The story here is repetitively referred as a Romeo & Juliet type of thing, but that's not it, it is more of a "I have a crush on my dad's forced fiancé" kind of thing.

The style is recursive, the same phrases pop up over and over, clichés are not only brought up but copy-pasted every other page. The timeline is very confusing because there's no warning telling you if it is past, present or dream, jumping from one to the other all over the place.

Plenty of steamy spice, and told mostly from the hero's POV, which was uncomfortable to read sometimes because this guy seems very egotistical and self centered (besides supposedly being a generous lover), he keeps pushing and demanding what he wants and likes, and magically she complies to everything with no conversation or adjustment... Very strange! It was way over the regular alpha-whatever for my taste.

The background story on the mafia stuff was not interesting to me and I could not give a fig for all those side characters and parallel storylines.

The heroine was bland and not well developed, the hero was a psychotic violent freak with a heart of gold (what is that?!?) which only manifests its goodness for her (which is more of a speech of intentions than actual actions).
