## **Remember Jamie Baker** Kelly Oram

Remember Jamie Baker is the explosive and long awaited conclusion to the Jamie Baker trilogy.

Plagued by memory loss, Jamie Baker searches high and low for the answers to who she is, where she comes from, and why she's able to do things other humans can't. A not-so-simple task when she's hiding from the people responsible for her amnesia—an evil scientific research company that wants to capture her at any cost.

When Jamie's quest for the truth reveals a devastating betrayal from the one person she thought she could trust, she's forced to team up with a secret military organization in order to ensure her safety and stop Visticorp's horrific human experimenting once and for all.

### **ewa says**

Yeeeey! next book.

Wait... 2014...?

---

### **Fanny says**

Quiero fecha de publicacion y sinopsis!!

---

### **Snigdha Prakash says**

I don't even know what to say.

This book has taken so long to come out that I was afraid to read it.

Scared even.

I *almost* didn't read it. Because that last two books were so good...I was afraid that if this book wasn't good enough, it would spoil the whole series for me.

A series that I love so much that I've driven people mad. Kind of reminds me of Opposition. I mean, Lux series is the other paranormal series which I have loved this much.

So it's safe to say that I was a bit reluctant.

But I shouldn't have doubted Kelly Oram. She's a genius. An evil one. A magnificent one. An amazing one. But a genius all the same.

I loved the book.

I'm sure I could have done without some of the parts but still it was a great book all the same. I absolutely loved that how the book picked off right from the start and how Ryan and Jamie meet soon enough.

Though, at some points I wanted to strangle Jamie. There's something called independent and then there's stupid. I think she crossed the line a few times. I could understand her perspective but it didn't mean I liked the way she acted or responded.

Ryan....swoon! I mean, this is why I am calling Kelly Oram evil. She had made this perfect man and how am I supposed to get over him? Because seriously...Ryan Miller is perfect. Jamie couldn't have said it better.

And what Kelly has done to Ryan...whoa...I did not even see that coming. That was one twist that I would have never guessed. But I think she had to do it because to make it a level playfield between Ryan and Jamie after the first two books.

Teddy....God, I hate him. I wish he had a better ending. What can I say. I am a little vengeful. :P

So series lovers...go ahead and read it.

Apart from needing an epilogue...you won't be disappointed.

Here are some teasers...

*“I call it my Me notebook. It’s everything I’ve learned about myself since my memory restarted.”*  
*“Sarcastic, volatile, not a morning person, emotional, impatient...” Ryan laughed and held out his hand to me. “Give me your pen.”*  
*“Why? What are you going to write?”*  
*“I could add a million things to this list, but for now I’d settle even one positive personality trait. You’re always so pessimistic.”*  
*I snorted. “Pessimistic is not a positive trait.”*  
*“Just give me your pen before I have to add stubborn.”*  
*I smirked as I held out the pen. “That one’s already on there.”*  
*“It’s worth repeating.”*

\*\*\*\*\*

*He shook his head, chuckling and relaxing as his confidence grew. “You defend yourself when you have to, but you won’t torture me. You’re a hero type. A do-gooder. You’re always so worried about hurting people with your powers.”*

*I thought about his words and then grabbed his hands. Startled, he tried to pull back and glared when he couldn’t escape my iron grip. “What do you think you’re doing?”*

*I gave him my own evil smirk. “Guess you don’t know me as well as you thought you did.”*

*His eyes narrowed on mine, then snapped wide open. He glanced at my hands on his again. “You won’t,” he hissed, but his voice wasn’t so confident anymore.*

*“You’re right that I’m a do-gooder type. But I’m not as angelic as you think. I’m really more concerned with not hurting innocent people. You...eh...” I shrugged. “As long as you live, I’m okay with a little pain since it will get me what I need.”*

\*\*\*\*\*

*I gasped, shocked, and my eyes fell to his arm and the round scar I’d seen earlier. A bullet wound. I looked at Ryan, and he surprised me even more by grinning. “That’s right, I took a bullet for you, babe.” “You...” My voice trailed off as I tried to get a grip on the sudden swell of emotions raging inside me. Guilt, gratitude, horror...take your pick. I felt them all.*

*Ryan squeezed my hand. “That’s a good reason to promote a guy to boyfriend status, don’t you think?”*

*He was joking about this? He was shot, and he wanted to joke about our relationship? Was he for real?*

*“Don’t fall for it, Angel,” Johnny G teased. “It was barely a flesh wound. It didn’t even hit anything vital. I’ve been shot twice myself. It’s really not that bad.”*

Enjoy people! :)

## Jess says

After all that anticipation... aka *3 fucking years of anticipation*, I feel like I put this book up on a pedestal. Like, I expected so much of the final Jamie Baker book, I couldn't help but be disappointed by the actual story. Now, I'm not disappointed per se, but I expected a bit more. Because of that, I want to start with what I *didn't* like about the book, before I delve into the good parts.

I expected more of the plot. The last book ended with Jamie *losing her memories and believing Teddy was her fiance*. It was a hell of a cliffhanger. I was almost holding my breath to read about the reunion between Jamie and Ryan. But, it wasn't as big a deal as I wanted it to be. It was sweet that (view spoiler). But it was just that. Sweet. I wanted more angst. More drama. Just more.

The "more" was supposedly brought forth by Jamie Baker herself. That girl was such a whirlwind of emotions, it was like she was constantly high on hormones. Her temper tantrums were not cute, they were annoying. Her dramatic power flares did not make her kickass, they made her unstable. Her inability to listen to authority did not make her independent, it make her rash and careless. She accused others of pitying and condescending her, but she opened that door for them every time she reminded them of the trauma she had been through and used it to justify her diva attitude. Jamie just pissed me off. I really expected better of her. She was way too whiny.

Ryan was okay. He is more understanding, compassionate, and patient than Jamie could ever hope to be. He basically carried Jamie through the whole novel. I wish he stood up for himself a bit more. I wish he forced Jamie to see his side of things, and took her out of her self-involved world of pity. If there was such a thing *too* perfect, it's Ryan. A kind of hate saying this, but he was so perfect, it was almost boring.

The parts I *did* like about the book starts with the other super-people. They were super cool; the powers, their attitude, *Tyson*. I loved them. It was very X-Men, except for their ability to come up with superhero names. I mean, really? *Superbabe*? Disappointing.

I *adored* the romance. Despite Jamie's bouts of whiny carelessness, she did manage to make several smart decisions. She earned people's respect and I like how she didn't deny her feelings for Ryan. The Natalie thing was predictable, but well placed. The book ended on a really good note, and the "Deja vu" scene was beyond adorable. If there are novellas of Jamie and Ryan's story after this, I will definitely be reading it. Despite my problems with Jamie and Ryan as individuals, I love them together. They are a great couple. They are so very, *very* different, yet somehow, they just click.

---

## Jenny says

**First**, This book has taken so long to come out that I really had a hard time remembering what had just happened at the previous book. You see, I always have this problem where I fail to remember some plots of the books specially if it took a whole year to publish the next one. And this book is totally beyond 1 year and I just can't help it and freak out a little that I can't remember too well of the past book. So yes, I did a quick last 3 chapter read for *More than Jamie Baker* Totally a time waste for me but.. I can say that its WORTH

IT.

**Second**, The Pacing and Plot. I just love how this book was able to keep up the momentum of being a TOTAL PAGE TURNER ever since the first and second book. Until this very last book, Kelly never fails to amaze me how brilliant and how amazingly she could plot a very interesting, swoon-worthy and action-packed story. It was very addictive and compelling that I can't actually put it down.

**Third**, The Characters. I can say that Kelly has a fantastic way of creating a likable character and despicable character. Just like the other books, the characters can totally either make you squirm, swoon, love and feel hatred. This book just released a different emotions for me in connection with its characters. Hahahahaha.

My verdict. IT WAS A TOTAL MUST READ FOR FANTASY AND YOUNG ADULTS out there. A mix of romance, fantasy, and a Kick-Ass heroine is all I can guarantee you in this series. Really there is nothing much to say but: YOU WILL REALLY LOVE THIS BOOK!

### **Ella Zegarra says**

Los dos mil años de esperar valieron la pena

**Original de:** El Blog del Gato - El Extraño Gato del Cuento

Pienso en estos libros y mi cerebro va "awwwwwwww;:::\_;::awwwwwwww", no entiendo como Jamie Baker no tiene el mega fandom haciendo mil fanarts sobre ella, como no hay ofertas para cómics o adaptaciones de TV o al menos en español de manera oficial. Jamie es LA heroína que necesitamos, llena de sarcasmo y necesidad de hacer el bien lo que a veces la lleva a lugares peligrosos, es una heroína del siglo 21.

**REMEMBER. REMEMBER. REMEMBER. REMEMBER.**

---

**Boundless Book Reviews says**

Remember Jamie Baker, is the third and final installment of this trilogy. Kind of sad about it. I've really loved this story. It's exciting, dangerous and great love story as well.

Jamie wakes up in the crater, with no knowledge of who she is. Only person there, is good ol' Teddy (puke) who's just full of lies. The whole time I was just dying for Jamie to remember or have Ryan find her. Teddy just creeps me out... and for good reason.

What can I really say about this trilogy, other than I loved it. It's by far one of the best I've read. And I've read a lot a lot of books. I want to thank Oram for creating these characters. Letting us as readers jump into their lives and all their experiences. I read way past my bedtime to finish. I didn't want to stop, It was just so heart pumping, I had to see what was going to happen next.

New characters were brought into the story. I loved all the good ones. The banter and the laughter. Exactly what Jamie needed. I love great superhero books. I love the whole idea of powers. I understood Jamie's longing for her memories. Ryan and Jamie's connection with each other was not overkill. It's just pure love, for these two.

Overall, I give this awesome book Five Boundless Stars. Please add this to your TBR list, you won't regret it....Lissa

**YAAAAAAAAS! JUNE 2016**

---

**Lex says**

Can't believe this is all over.

---

**Nitzan Schwarz says**

June 11, 2016

I don't want this to be the end. I want more. PLEASE \*Sobs\*

Holly... I just realized there was a three year gap between *Being Jamie Baker* and *More Than Jamie Baker*. Kelly, I beg of you--do not let us wait that long for book #3. Please. I'll give you cookie, and milk, or whatever you'll like. I'm not above bribery.

---

**Mairenn says**

The long wait is all worth it. So so worth it!

It's been two years since I've read the second book and it left me in an epic state of cliff-hanger. I do believe that anybody who've read the previous book could relate to my ramblings. :D

I've actually reread the first and second books just to refresh my memory and, well, to *Remember Jamie Baker* so that I'll be on the right track before I jump into this awesome last installment. I want to remember everything about Jamie and Ryan's history because let's be honest, two year of waiting for this book is really such a long long time and it's unavoidable for me to forget some details. But guess what! I absolutely remember Ryan Miller! Oh boy, who can forget our favorite man? ♥♥♥

Jamie Baker is one of my favorite series from one of my favorite authors, Kelly Oram. And once again, she did not disappoint. This last installment is every bit as entertaining, enjoyable, exasperating (because of a certain character), electrifying (uhm, pun intended?), and emotional read as the first two book, if not more. I

don't wanna spoil anyone who hasn't yet read this series so I won't go in depth with the story. This review is mainly just for my ramblings because I'm just really excited and thrilled to finally be able to read this book.

So if you're up for some light-read sci-fi romance with a touch of humor (oh! a lot of humor), I do suggest you pick this series. Just a fair warning though...be prepared to meet the one and only Ryan Miller ;)

---

### **Marija K. says**

2\* and even that seems much

Mild spoilers ahead...

I've read the first two books awhile back and really liked them. They were entertaining enough to keep going but then this huge gap happened between second and third book and my reading likes and dislikes have changed.

The plot itself was ok i guess but the characters sucked every bit of fun out of it. I cannot stand Jamie and her character development was unbearable. She was too whiny, at times too bitchy and in the last book so conceited as if she were some god among us insects, she went from a loner to queen bi\*ch in a span of two books. I mean half of the time i was reading this i thought someone pleeeease slap her or whatever so she can join the common folk here on planet Earth.

Yeah sure she has abilities and it does in a way make her superior but she wasn't born with them she knows what it's like to just be human and still chooses to act superior to everyone else...except of course when it comes to Ryan in which case she turns into a complete brain dead moron who has no voice of her own because you know he's hot so she'll give in to him when it comes to basically everything.

And Ryan is a piece of work. That dude literally made me sick to my stomach with his "perfection". I have not read about such an unrealistic character well ever!

Everything he thought, said, did, felt was made to be just the right thing in any given moment. In Jamie's eyes he had no flaws whatsoever and well judging by how she was a complete idiot when it came to making a coherent thought or decision in his presence her taste in men is shit since in reality when he is involved she can't stand her own ground and he grabs every chance possible to think for her but you know he does it with sweet talk so everything is ok \*eyeroll\*.

I'm done with this rant, 2 characters managed to make this book unbearable.

### **MJ Daniels says**

Maldita sea

---

### **BWT (Belen) says**

3.5 Stars rounded up.

So, I've waited for years for this story. *Years*. Literally. And while I can't say that it met all my expectations, or that it wasn't terribly frustrating at times to read, I did enjoy it overall.

It answers all the questions about Jamie's disappearance and amnesia, we got to see Ryan being perfect and swoon-worthy still, and seeing Donovan and Teddy get their comeuppance.

If I'm a little disappointed I'm how that all played out, well, that's more on me than the writing.

In the end, I am still a fan of the series and would absolutely recommend it.

### **Haraiah Eve says**

**UPDATE: 05/05/2016**

KELLY SAYS IT'S DONE OHMYGOSH IT'S OFFICIAL! THIS BOOK IS COMING OUT NEXT MONTH!!!

---

-----  
**EDIT:**

**It's happeniiiiing!**

So there was a Remember Jamie Baker teaser that was released for an event and it was only up for a limited time. I didn't know about it so yeah, I didn't get to read it. Very upsetting :(

---

This made me incredibly nervous and sad.

<http://www.kellyoram.com/2014/09/dear...>

I think I'm going to cry. Kelly, don't stress yourself out too much! I am willing to wait however long it takes for you to finish Jamie Baker 3. Hearts will break if it doesn't come out at all :(

Meanwhile.. everyone read Cinder & Ella! It's awesome! :)

---

### **Muse-ic ? says**

4.5

My goodness!

I was on edge and sweating while I read this.

I was so angry.

and happy

and frustrated

and in love

and aggravated

and charmed

and pissed

all at the same time!

And all the aforementioned negative feelings?

They weren't for the book.

Oh hell no! They weren't even for Donovan, the stupid experimental scientist! Nooooooooooooo they were for a certain little *PRICK* that I really wanted to see blasted into the very far future.

You can see in my review of More Than Jamie Baker that my hatred for Teddy began a long time ago.

Funny thing? I hated him with a burning passion then. What I feel for him now cannot be described in words, but rather in a series of freakish shrieks of frustration and anger!

### **pure**

### **unadulterated**

### **hatred**

(view spoiler)

Ryan is the most beautiful person on this figurative planet! I need him in real life! I need a devoted, loyal, sensitive, strong, confident, supportive, and handsome man like the angel that is Ryan Miller. I finished the book and now I sit here writing a review while simultaneously praying that somewhere nearby, my Ryan Miller exists.

**Kelly, you've given me high (though I hope not unrealistic) expectations for males, dammit!**

It hurt for everything to start over, but at the same time it was so beautiful!

I love everyone. Literally the PAC dudes are the bombs! I need bro's like that in my life! I just wish we got to see more of Becky because I really missed her.

Jamie was fabulous, as usual! Admittedly she is stubborn, but most of the time I love that about her! The ending was so bittersweet, and we learned about one extra very special memory involving Ryan (\*wink\*). I would love to read more about them!

Maybe a wedding novella :D

Can this be a thing? I would die to read about their wedding!!  
I'm a true Rymie shipper, no regrets!

I experienced many feelings while reading this fabulous book that I enjoyed tremendously!  
And the emotions were so intense (Thanks *Teddy*) and I almost teared up whenever there was a scene with Jamie's parents!  
Thanks Kelly for a fantastic finale!  
It was worth the wait!!!

---
