## **Remind Me, Master** Lara Valentine

[Erotic Consensual BDSM Romance, voyeurism, public exhibition, spanking, whipping, cropping, sex toys, HEA]

When Conor Hart comes home after another eighteen-hour day to find his clothes strewn all over the front porch, he knows there's trouble in paradise. His usually sweet wife, Lisa, has had it with his selfish, workaholic ways. She hands him a suitcase and kicks him to the curb.

Lisa's tired of being taken for granted. Conor doesn't seem to have the time or energy to be her hard-ass Master anymore. She's broken every rule he's made, but he can't even be bothered to spank her. She's heartbroken at what her marriage has become, but they need to completely renegotiate their relationship if they're going to be able to make it work.

Conor loves his wife deeply. He didn't realize he was being a gigantic jerk. Telling her he's changed won't be enough, he has to show her. But first, he's going to remind her of all the reasons they fell in love in the first place.

### **Dar says**

Cute, I liked it a lot! We have the story of a master/slave relationship that has gone awry - not because they grown distant but because the master stopped being a master. This caused his slave to become independent and no longer relying on him. It isn't a quick fix and they have to re-define their relationship and their marriage. We follow them along and their pitfalls as they rebuild, Very good look at maintaining a relationship after you know each other better than anybody and how to keep your love going after years together!

### **Cyn Mistress Kitty says**

First off, I want to say that this book has one of the best covers I've seen. WOW, Love It!!

I loved Conner and Lisa's story. It was nice to read about a couple who have been married for 17 years, have been in a happy Master/slave relationship, are busy with their jobs and their children and now find they are in a rut and they need to make some changes if their marriage is going to last. This was realistic to read about their ups and downs and how they had to work hard and communicate to remind themselves what is truly important.

As always, it's great to see past characters and were introduced to some new people who I hope will have their own books.
