Teaching Aleck Muriel Garcia

Aleck Sanford had everything growing up, absolutely everything, except for the one thing he and his sister desired the most: the love of their parents. After many years of emotional neglect, Aleck only understood the love between siblings, his parents certainly didn't love them or even each other. How do you pick yourself up when everything around you falls apart? When the only person to love you has to leave?

Everything changed when he met Charline Dane. Still affected by his past, Aleck doesn't understand or do relationships but he wants her. He just doesn't know what to do about it. When Charline's past catches up with her Aleck is forced to make a decision: fight or flight?

Will Aleck finally give into his feelings for Charline and save her before it's too late or will their pasts get in the way? Will they both be able to overcome history and start anew?

Obsessed by Books arc given in exchange for an honest review

"I'm not a good man. Not by a long shot. I've used women for sex for as long as I can remember....There's one girl though. She owns my heart and doesn't even know it."

Aleck a man broken by his past, shaped by his childhood of total disdain and disregard - totally ignored by his parents as he grew up, he has become everything they loathe. Turning away from a bright future in law, the role he was destined to play by his unfeeling parents, he is now part of The Last Hangman MC. Saving him from the path of destruction and self loathing he started walking along after the death of his beloved sister they are his new family. Left bitter by his past relationship with his parents he feels he is not worthy to be loved.

Charline, bbf to Ayden who we met in book one, has since the moment she set eyes on Aleck had an incurable crush. Being younger and less experienced she always felt he didn't see her as a woman, never noticed ad more than an annoyance or tag along. Throughout their shared history Aleck has always cast her aside refusing to take things further, always putting her in the friend zone. Little does she know he's protecting her from himself as he feels unworthy and incapable of love.

Although set in an MC with sub plots that involve the bikers, opposing factions and a blood vendetta...there is no lack of drama, suspense and intrigue the main focus of this story is love, friendship and acceptance. Their blossoming love is beautifully written as they struggle to resist the pull between them. Struggle to cope with rejection and their own insecurities to face one another with the truth.

Line tries to move on without Aleck but is she making a mistake? Has Aleck realised he is worthy of love too late? This couple totally rocks! Aleck is a broken anti hero...he's a bad man that does bad things without ever looking back but he's sooooo good at them. Charline isn't the cowering wallflower as she first appears, full of kick ass attitude. The plot is fast paced and we are treated to twists and turns I just did not see coming!

A four star white knuckle read.

I really enjoyed this story. There were several plot twists that I just didn't expect. It kept me reading, barely able to put it down for long.

My heart went out to Aleck, given his life growing up. Every child deserved to be loved. I can't blame him for feeling like he's not good enough for Charline. Lucky for him, her feelings for him have survived years.

I wanted so much for Charline to get her HEA, to break down Aleck's walls, to prove to him that he is definitely worthy of love. Of course, that took her taking a stand and telling him how it is... more than once.

There were a few things that seemed a little off to me. It wasn't enough for me to enjoy the story, just enough

to keep me from giving it 5 stars.

Muriel Garcia continues the story of the Last Hangman MC, this time the story is centered around Aleck, A complete commitment phobe due to a very emotionally tragic past. He has never experienced love... acceptance... happiness even.

Enter Charline... she has known Aleck for many years, and what's even more tragic is she has been in love with him for that many years... But Aleck has a huge electrified chain link fence around his heart and Charline, try as she might.. just can't get in.

The writing definitely improved from the first book to this one. It flows much better, and it definitely has unexpected moments that surprised me! Love it when stories are not predictable... and this one definitely throws a curve ball no one saw coming!

I really liked that Charline is a strong independent woman, a far cry from the shy young girl we first meet. She definitely gives Aleck a run for his money...

I am dying to read the next book, about Gabe!

Forever and always...

Muriel Garcia has an incredible imagination and I'm impressed with the stories that she comes up with. She throws in some twists and turns and keeps the suspense cranked up, especially towards the end. This has been the case with both books so it's not a fluke, it's a talent. However; as with most authors, they need some help to get their masterpieces polished up and ready for their readers. Editing issues can be distracting and pull the reader away from the story so I'm hoping that I'm reading an unedited ARC that will end up more polished before release. I really enjoyed the story, the characters, and the suspense and I look forward to more in this series.

Wow, just when things couldn't get any better with this amazing story it hit me all at once it was amazing right from the start I was drawn to this story by everything about it the cover, the Blurb, and even the teasers It was one of those stories that you seen and knew right away that you have to read it. This was nothing like the first one at all it was so much more, the love, hate and truths about everything was an even bigger emotional roller coaster. The author really did a outstanding job with the writing she knows how to draw you in and make this worth it, hell it was worth it just turning the dang pages the words I couldn't read fast enough.

Once again Muriel has captured my attention. I didn't think she could top saving ayden but she has Aleck surprised me a lot. He didn't turn out the way I thought he would and I for one am glad he didn't. He has had things from his past affect the present as we all have im sure. But I understand why. I loved that his friends were there to kick his butt when he needed it or hold him up. They cared for aleck and it shows all through the whole story.

Charline is not what I expected either, she is much softer than ayden but you can see that they're more like sisters than best friends ... at least that's how I saw it.

I chuckled evilly at Alecks downfall with Charline. It was so much fun watching him finally give in and admit she was his one and only. It was heartstopping when he saves her and they finally end up together. A journey well worth the read. All I can say is LOOK OUT WORLD. ... The Last Hangman MC is here to steal your heart, make you feel part of their family and maybe heat things up a little in the bedroom
Oh and red velvet cupcakes..... I so want them after reading this!

MY THOUGHTS-- 3.75 OUT OF 5 STARS

First and foremost let me get this out of the way. Teaching Aleck, by Muriel Garcia, is a second book in a series and I felt that it would be most helpful to readers if they read the series in order. So, the first in the series is Saving Ayden. I just think that there were parts of Teaching Aleck, that if read as a standalone, would make the story seem choppy. Ok, enough from me.

Teaching Aleck was a story of an emotionally damaged Aleck and his inability to establish 'real' relationships with the opposite sex. One person in particular was Charline. She was the girl who fell in over her head when she first met Aleck. It was pretty much instant for her. Even though she was a much stronger character in this book than the previous book, I still felt that Charline lacked the tenacity that we see from heroines in romance novels; especially MC novels. The toughness and grit expected from a big bad biker needs his equal in every way. I felt like Charline was way too innocent and way too sweet and way, way too forgiving when it came to Aleck. As many times as he turned her down and embarrassed her efforts for trying to gain his attention she continued to vie for his attention. I don't know about anyone else but that is some serious self-esteem blows if you ask me.

But I digress. This was definitely one of those lessons where you don't know what you had until it's taken away. Aleck and his bad boy protectiveness roar to the forefront and thank goodness cuz I was seriously trying to jump into my kindle to punch him in the face! Lol.

Enjoy the romance and suspense of another edition to the Last Hangman MC series!!

Happy Reading!!

I received an ARC for an honest review - thanks Muriel <3!

After reading book 1 in the series Saving Ayden I was really looking forward to Aleck's story. We know from this first book that something was brewing between Charline and Aleck but Aleck was holding back...now we get to know why.

Aleck's past hasn't been easy. Growing up in a loveless family, with the only good thing he had ripped away from him, now he avoids commitment and anything that could bring him pain having never experienced love for himself. When Ayden brings home her best friend Charline Aleck thinks he's seen an angel, but she's only 17 and completely off limits.

Aleck and Charline begin on a difficult path with both of them drifting apart before coming back together again. Charline has loved Aleck for all these years despite him always turning her away, she's tried many times to get through his walls but his fear of getting hurt always gets in the way.

When Charline is in danger, Aleck must decide whether to risk his heart and protect her or protect himself but risk losing her.

But both Aleck and Charline have been keeping secrets – will they be able to overcome their pasts, accept their secrets and fight for their future together? And will Aleck be able to keep Charline safe, no matter the cost?

Teaching Aleck is a truly brilliant read, with a storyline that matches if not trumps the emotional rollercoaster that was the first book. I loved Aleck and Charline as a couple – both of them with their own troubles but together working to heal one another. Packed with drama and heartache this is not one to be missed!

I was given the honor of reading an advanced copy for review of this amazing book by a new very talented author.

In this story we get to learn about Aleck and Charlene whom we met in Saving Ayden. Aleck is mesmerized by Charlene by the first time he sees her in the compound parking lot. She is the most beautiful sight he has ever seen and upon speaking to her learns that she is very shy and finds that very attractive about her. Her age is a very big complication that he is unwilling to compromise on. Through the years Charlene and Aleck become friends and Charlene is holding a big secret that she is madly in love with Aleck. On the day she and Ayden graduate high school they are given a party at the compound and Charlene decides she is going to be brave and tell Aleck how she is feeling about him. Aleck is dumbfounded on her confession, yes he has feelings for her, but she is so long and women only have one use in his life and Charlene is meant for better in her life so he tells her they will never have anything between them. Humiliated Charlene leaves the compound and does not see Aleck for years. One night after coming back to her hometown and getting a job she goes out with the women from her job and runs into Aleck coming out of the ladies room with a woman of the easy variety. Shocked is an understatement, she thought she was over her feelings for him and is upset that they come rushing back. Aleck cannot believe she is back and is even more upset that their first encounter is her seeing him leaving a restroom with a one night stand.

They again do not see each other for a little while until another chance encounter while she is out at lunch with Ayden and Aleck comes in. As time goes on Charlene keeps on trying to get Aleck to see her as a woman and see her as more than what he is letting on he sees her as. He is determined to fight his feelings for her until he finally offers her one thing, himself in bed but only sexually. Hurt Charlene once again runs humiliated. Then finally temptation gets the best of them and the sexual tension wins over their brains and they cannot help themselves. Aleck is holding secrets, but so is Charlene. The thing is only one of their secrets is out to destroy her and puts her life on the line causing Aleck to question if their relationship should end to protect her. So they do the cat and mouse game of should we shouldn't we until Aleck just can't take it and finally fights for their relationship and Charlene shows him what love is and accepts him for all of him. As they become closer he tells her all of his secrets upon her stumbling upon one he wasn't ready to share. Her acceptance of that one so easily leads him to tell her the rest which she surprises him by standing beside him. He doesn't learn hers until its too late....

This is a phenomenal story of learning to love, accept and trust. This is a book and series I will find myself reading numerous times. 5 stars and a highly recommended read from me!

Aleck was alone in the world. He had parents but they never showed any interest in him. The one person he

did feel love from was his sister and the housekeeper. Now with the passing of his sister, Aleck is resolved to never let anyone close to him again. Charline has issues of her own. She has been trying to make Aleck see how much she cares about him but he is firm in his decision to not do relationships. Charline tries to move on and starts a new relationship but the new guy is not actually all that he seems and puts herself in danger. Aleck must come to terms with his feelings and his need for Charline to save her. This was once again an incredible story in this series. Aleck and Charline were meant for each other but their fears stood in the way. I hope this series continues into even more stories.

She Hearts Books says

Charline has loved Aleck for as long as she has known him. Back then he told her that he couldn't be with her because she was so young and wouldn't be able to handle his life. Truth is that Aleck didn't grow up with love from his parents, so he doesn't really know what that is for him. Years later Charline is still in his life and loving him. When some of the real reasons he has been holding back from her come to light and she doesn't run, he finally figures out that he can count on what she feels. I absolutely loved the moment that Aleck realizes the depth of his feelings for Charline. Made me love her too. I just adore her. She is feisty and loyal and loves the people in her life big. She is exactly what Aleck needs. I loved their story.

I give Teaching Alex 4 hearts!

This is Aleck and Charlene's story who we met in book one of the series.

I was happy to get back with these guys we didn't learn much about Aleck previously so I was happy to get started. I didn't connect with these characters as much as I did with Ayden and Anthony. I liked them both but they frustrated me as well. I wanted Charlene to be stronger and make him work harder to rectify his mistakes.

I found at times the book felt a bit disjointed possibly an editing issue however it's not put me off continuing the series.

This is not a country club...

Family and love are what life is all about. Whether you are related by love or choice, bonds are formed that protect and shelter you. When those bonds are threatened, one's real nature springs to the surface.

Aleck Sanford knows about love and loss. Determined to never lose again he pushes away Charline Dane again and again. With nothing to lose, his enemies have no bargaining chips, nothing to use against him. Charline is hard to resist though and fate has a way of forcing your hand. Being in such close proximity and seeing her reveal her loving and loyal nature again and again makes him realize this is one person he cannot keep out of his life. When their lives are threatened, family and love will be the only things that can save them.

This is the second book in *The Last Hangman MC* series and picks up the timeline while focusing on Aleck and Line this time around. I enjoyed this instalment with its fast-paced action and complex characters. Unfortunately, the grammatical errors and uneven writing style continued in this ARC which detracted from what could easily have been a five-star read. The characters are complex and the tangled web of relationships keeps things interesting. The plot twists continue and kept me reading to the end. While not a cliffhanger we know there is more in store for this battle-plagued MC. ~ Diane, 3.5 stars

This series is addicting! Loving the story of Aleck & Charline!! Aleck having had the past that involves having it all, in the material sense, but nothing in the loving sense, messes with him to such an extreme that he doesn't see that Charline is his saving grace! I just wanted to shake him a few times! And poor Charline! She's head over heels for Aleck but he keeps shutting get down. Reading this emotional roller coaster of a read will have your heart aching and the suspense will have u on the edge of your seats! Oh and the steamy scenes are HOT!!!

This book is a MUST-READ!!!
