Ruby Harrison is a glass-half-full kind of girl...except when it comes to her own love-life.

Having already lost in the game of love, she's satisfied being a single mother. But when her seven-year-old daughter asks if she can find her a new daddy, Ruby reluctantly ventures back into the dating world with one stipulation: the man can't be a cowboy. Her condition for dating is challenged when she crashes into Tate Allred's truck. The cowboy defies all her preconceived notions, turning Ruby's life upside down and making her realize that hitting the cowboy's truck might be the best thing that ever happened to her.

Super cute! Republished with bonus scenes.

I dropped everything when I saw Cindy had a new book out! I didn't even bother reading the synopsis, I just dove right in. That's what I love about having favorite authors, you always know you're going to get a great story.

Ruby was such a likable character, very tough and sweet. I loved that although she had a rough upbringing and messy divorce, she was a devoted mother and kept a positive outlook on life. I love being around people like that and reading about characters like that. Tate was also a fun character, very charming and patient. Ruby and Tate have some great chemistry and wow, who knew hugging could be so swoony?! Needless to say, these two have some great chemistry! I really enjoyed their story and watching them fall in love. I have a seven year old daughter, so I could relate so much to the young girls in this book.

Overall, this was a fun read. Well written, swoony romance and a cozy setting with likable characters. All the things I love in a good book.

#### **Love Heals All Wounds**

This is a wonderful story of how a good man can restore the faith of a woman who has been hurt by a worm of a man. The little ones are adorable. And I love the good things that are brought on by Hugs.

#### **The Cowboy's Accidental Bride**

When this couple meets it was with a bang...Her vehicle hits his truck. With his niece and her daughter things get mixed up. Will either ever admit the attraction each feels? This was a clean romance.

I guess I was a sucker for the term “accidental” in the title of this book. I have read some pretty clever “accidental” stories. This wasn’t one of them. Don’t get me wrong. This was a cute story and I liked it just fine. The characters were very nice. There was the promise of a HEA.

However, over all, I wanted something a little...different, something a little more. There was just a lot of cooking and kissing, movie watching and kissing, hugging and kissing, hair fixing and kissing, overcoming their hang ups and kissing, you-name-anything [I am not talking about sex] and kissing. I think the story needed more of a conflict or opposition, something bigger to overcome. This was more like: “couple meets, \*bang\* insta-love and passion, all hang ups melt away, they are together.” It read more like a novella. Maybe it was and I didn’t notice that up front.

I have normally loved everyone of this author’s books, so I feel bad about my lukewarm reception to this one.

#### **How Sweet!!**

I loved this cute, sweet romance! It was short, too short because I wanted more. There was a great build in chemistry and I was hooked from beginning to end. What a great diversion!

I loved just everything about this great book! I loved that it was a quick easy read, it took me just over an hour to read it. I loved the characters, the plot, the situations, just everything about it! And the cover...so beautiful!

I love Ruby! She's such a fun character. It seems like things always go wrong for her. From dropping food all over the sheriff when she's working as a waitress at the diner to her ex-husband dumping her off, to hitting Tate's truck...just everything! Except that hitting Tate's truck gets her some pretty great stuff too. I love her cute daughter and just how hard Ruby works to be able to be there for her.

Then there's Tate. He's had to retire from the rodeo and he has custody of his niece and he doesn't really know how to be a parent to her. He's new in Pine Valley, and that's a bit hard for his niece because everyone already knows everyone else. I love that he was kind to Ruby, even though he was frustrated about his brand new truck that he really needed. I love the way he goes about trying to help her so that she can't pay him back and in some cases so that she won't even know that he's helping her. I loved that he was a gentleman.

I loved the love story in this one, the whole thing still leaves me sighing over just how great it was! This one is cute, it's clean and it's a quick read that will make you wanting more from this great author!

I struggled with this one simply because the whole premise of the story was inaccurate. The book starts with Ruby hitting Tates car. She then doesn't have money for the deductible to have his car fixed which leads to the arrangement for her to help Tate with her daughter as a way to pay for the deductible. However, liability insurance, which is for the damage you do to others, does not have a deductible... Something that most people could overlook but it detracted from the believability of the story for me.

Once the story moved past that issue I started to enjoy it. These two need in other and I enjoyed watching their relationship develop. There were some very tender moments with their 2 young girls.

Overall a great book with a happily ever after ending. I love Cindy's writing style! She draws me in and I don't want to stop reading.

This was a great book! Ruby was a loving single mother who rose above hard circumstances to make a good life for her daughter. Tate's southern drawl and Thank you Ma'am made him one of my favorite fictional men. Avery and Livy added to the warm fuzzy feel of the book. I would love to see these characters show up in another book.

### **B. D. Mann says**

From start to finish, Cindy Roland Anderson tells a tale of clean romance that I recommend to all my sweet romance friends. It may be a bit of fantasy, however, to create a heroine that works as a waitress and who consistently spills food and drink on customers. But, then, this novella IS fiction after all.

- 'The air felt charged with enough energy that if someone were to light a match, there would be a huge explosion. "A kiss?" she asked, staring into his green eyes that had deepened to a shade that reminded her of an emerald. "Mm-hmm," Tate said, as he brought her hand to his mouth and kissed the first injured finger. A delicious warmth curled inside Ruby's stomach as he moved his mouth to kiss the tip of the second finger. "Feeling better?" he asked, moving to the next finger and placing a soft kiss there.'

Excellent book. Love the steamy, clean romance. ❤? A quick, light read, perfect for an escape by the fireplace with a cup of hot chocolate and marshmallows - or any time of year. Highly recommended.
